COLLEGE CREDIT PLUS
AT THE UNIVERSITY OF TOLEDO

INNOVATIVE TECHNOLOGY, EXPERT FACULTY AND THE MOST COURSE OPTIONS FOR DUAL CREDIT STUDENTS
THE UNIVERSITY OF TOLEDO

UT was established in 1872 and is accredited by The Higher Learning Commission of the North Central Association of Colleges and Schools.

UT is a diverse, student-centered public metropolitan research university and is one of just 20 public institutions nationally with comprehensive offerings at the undergraduate and graduate levels. Degree offerings include communication and the arts; business; education; engineering; language, literature and social sciences; health sciences; law; medicine; natural sciences and mathematics; nursing; pharmacy and pharmaceutical sciences; social justice and human service; and more.

The University is home to more than 20,000 students and is a NCAA Division I school and member of the Mid-American Conference. UT has been recognized as having one of the most beautiful campuses in the country.

For more information on UT, visit utoledo.edu. While you’re there, schedule a campus tour by clicking on the “Visit UT Campus” link to choose a day and time convenient for you.

The University of Toledo
College Credit Plus Program

The College Credit Plus program offers highly motivated students the opportunity to simultaneously earn secondary (high school) and postsecondary (college) credit for college-level courses at no cost to the students or their families.

High school students can take part in the college experience, interacting with full-time college students and University faculty, while earning dual credit by taking college-level courses.

A Leader in Higher Education and Experiential Learning

The University of Toledo has been a leader in higher education since 1872, and we’ve brought that same faculty expertise and state-of-the-art online instruction to high school students seeking a college-level education.

It is our goal to:

- Prepare students for the transition to college while in high school through instruction, experience and support
- Use course delivery methods that are effective and efficient to engage students’ minds
- Create virtual classrooms filled with students from around the world to enhance the learning experience
- Make it easy to earn course credits towards a bachelor’s degree saving students and families both time and money allowing students to graduate and enter the job market before their peers
BENEFITS OF UT’S COLLEGE CREDIT PLUS PROGRAM

- There is no charge to the student for the course or instructional materials.
- College Credit Plus courses transfer as college credit on a 4.0 grade scale and can count toward a bachelor’s degree while being recorded on a high school transcript on an AP or honors weighted grade scale.
- Each student is assigned a success coach who will help the student transition to post-secondary education, assist with selection and registration, and be there as a resource to answer questions and resolve issues.
- All courses are taken with UT undergraduate students.
- All College Credit Plus students are considered UT students and have access to many benefits and student support services.
- Courses integrate virtual labs, simulation center visits and other special resources only UT can offer.
- Students may be able to utilize tablets and other devices to access eBooks, apps and high-quality images, videos and simulations for some courses.

COURSE DELIVERY OPTIONS

UT’S COLLEGE CREDIT PLUS COURSES CAN BE TAKEN IN A NUMBER OF WAYS, INCLUDING ON CAMPUS, ENTIRELY ONLINE OR A BLEND OF BOTH (SOME ONLINE AND SOME FACE TO FACE).

All courses meet the highest education standards and are designed to be technologically advanced and engaging. Online courses are built with our nationally recognized instruction design team, who work with faculty members to ensure the classes meet learning objectives and are easy to access and use.
WHAT KIND OF LEARNER ARE YOU?

UT offers several modality options in a number of general education courses that are Ohio Transfer Module (OTM) compliant. However, our entire University course catalog is available to students in the In-person, on-campus modality if published prerequisites are met. Please check to see which of these will meet the OTM requirements.

**BLENDED:** In this kind of class — also known as a flipped classroom — students complete much of their reading and learning using online technology, such as watching videos and posting on the class message board. There is a set time to meet in-person on campus, which is focused on discussions and group projects. The advantage of this type of class is that it provides the best of both worlds; the convenience of online learning and the value of personal interaction and the campus experience. This is also where some fun activities can come in, such as using the scientific labs on campus or taking a field trip to the Toledo Museum of Art or the Toledo Zoo.

**100 PERCENT ONLINE SYNCHRONOUS:** In these types of courses, students go online to read content or complete assignments at their convenience. Then, the class “meets” for learning and discussions via live video presentations that allow the students and faculty to interact from different locations as if they were in the same room. These class meetings will take place at a specific time on a specific day each week. Online activities will include videos and reading assignments, threaded discussions, written assignments and group projects.

**100 PERCENT ONLINE ASYNCHRONOUS:** This course offering means students complete all of their work in an online environment; there is no in-person classroom time. Students complete most of their course content and assignments on their own time; sometimes, a live chat may be held.

**IN-PERSON, ON-CAMPUS:** In this type of course, students attend class on UT’s campus. They participate in lectures, class discussions, assignments and tests in the classroom.
Get the Same Benefits That UT Students Receive

UT College Credit Plus Program students receive many of the same benefits as a full-time student at UT.

- Each student is assigned a success coach who will help the student transition to post-secondary education, assist with selection and registration, and be there as a resource to answer questions and resolve issues.

- A Rocket ID card will give students free admission to UT home athletic events and discounted prices for family members. It also gives students access to the Student Recreation Center and UT student discounts from local businesses.

- Students can access UT’s Learning Enhancement and Writing Centers for academic coaching and writing assistance, as well as the Counseling Center, Career Services, and complete UT library network.

Multiple Courses in Multiple Modalities

Courses available in multiple modalities as described on the previous page include: English Composition; College Algebra; Survey of Biology; Survey of Astronomy; World Regional Geography; American National Government; Sociology I; Business Principles and Computer Applications; Public Speaking; Art History and Visual Literacy; American Literature; Nutrition and Healthy Living; Principles of Psychology; and Statistics.

Note: Many other courses are available in a traditional classroom setting, or 100% online. Please check the course catalog online (utoledo.edu/offices/registrar/sch_classes.html) for information.
BE HONORED FOR YOUR HARD WORK

Then, when you graduate from high school, consider applying for UT’s Jesup Scott Honors College. The college, named to honor UT’s founder, is one of the oldest honors programs at a state university in the country. It was re-launched in 2013 and is highly selective. The college has a unique blend of admission requirements that not only take into account academic performance, but also activities that demonstrate a high level of motivation and achievement.

The honors college is a pioneer in experiential learning for its students, which means internships, co-ops, research, service learning, study abroad and more. Honors students also are eligible for accelerated three-year degree programs, preferred admission to advanced degree options and on-campus honors housing. Learn more by visiting utoledo.edu/honors

NEXT STEPS

If you are interested in pursuing postsecondary education in the UT College Credit Plus program, you should meet with your high school counselor to discuss your options and then begin the application process.

You can visit utoledo.edu/ccplus for more information and to review the requirements for admission. If you have questions or would like additional information, contact us at dualcredit@utoledo.edu or by calling 419.530.4200
