

Course Information

Course title: **Psychobiology**

Course number: PSYC 2600-001

Course discipline: Psychology

Course description: This course provides a basic introduction to psychobiology. It uses a textbook designed for college sophomores. Students take practice quizzes on each of the 20 chapters. Grades are based on 7 exams of approximately 18-30 questions each, as well as "Hear & Spell" tests for each chapter. Students are allowed to retake one exam at the end of the term.

Course date:

Prerequisite(s): Recommended, PSYC 1010 Introductory Psychology

Course Goals

Course goals: The purpose of this course is give you a basic understanding of the neurological basis of behavior so that you can 1) better understand magazine and newspaper articles about the brain, 2) be prepared for advanced courses in neuroscience, and 3) have some knowledge of the neurological disorders that you may encounter during your lifetime.

Instructor Information

Name: Henry E. Heffner, Ph.D.

Email: Use Blackboard

Phone: 419/530-2684

Biography: B.A., Trinity College, Psychology; M.S., Florida State University, Psychology; Ph.D., Florida State University, Psychobiology; Field of Interest: Role of auditory cortex; Comparative study of hearing; Tinnitus; Ethics of animals research For more about me go to:
<http://psychology.utoledo.edu/showpage.asp?name=hheffner>

Textbook

Required reading: *A Concise Guide to Psychobiology. (Available from the UT bookstores.)*

Policies

Additional information: Attendance consists of taking quizzes and exams on time. The Instructor may post comments from students (without the students' names) for general enlightenment. These policies and procedures will be followed as closely as possible, but are subject to change.

Course Requirements

Requirements: Your grade for the course is based on seven exams, each covering two-three chapters. You will be allowed to retake one exam at the end of the course. **The grade you receive on the retake will be the final grade for that exam, even if it is lower than your first score.** (Note that the retake is optional.)

The grading scale is:

90% & above = A, 88-89.99% = A-, 86-87.99% = B+, 80-85.99% = B, 78-79.99% = B-, 76-77.99% = C+, 70-75.99% = C, 68-69.99% = C-, 66-67.99% = D+, 60-65.99% = D, 58-59.99% = D-, below 58% = F.

IMPORTANT STUDY TIP

: Read a chapter first without filling in the answers to the questions. Read it a second time and fill in the answers as you go. (You can check your answers with those in the back of the book)

Then take a practice quiz for the chapter until you can answer all the questions. Keep reading and taking practice quizzes until you can consistently receive a grade you like. **It is not unusual for "A" students to take each quiz 20 or more times before taking an exam.**

If you can't answer the practice quiz questions, you will probably not be able to answer the exam questions.

Quizzes

Chapter Quizzes are provided for practice and do not count towards your grade. You should take a quiz as many times as necessary to achieve mastery. The questions are chosen randomly from the test bank so you will get a different quiz each time.

The quizzes are machine-scored so spelling errors are counted as wrong answers. Also, there may be an alternative correct answer that is not listed. **Do not panic if the computer scores an answer on a quiz wrong when it is really correct.** Students are expected to answer the questions on the quizzes.

Please let me know if you feel a question needs fixing because it is unclear, there is another alternative answer, or the question is just plain wrong--errors do sometimes occur.

Exams

The exam schedule is in the Calendar.

Each exam will have 20-32 questions. Exams are taken in University Hall Room 5000 (due date & time are listed on Blackboard).

Academic Honesty. You **may not** receive help from anyone while taking an exam. Students are expected to adhere to the University of Toledo's policy on honesty, which can be found at: http://www.dl.toledo/HTML/academic_dishonesty.htm

Scoring Exams. The exam questions will be matching or multiple choice, with each question based on a practice question.

Note that there will be anatomy questions from previous exams appearing on subsequent ones.

Hear & Spell Tests

In order to be considered educated, you must pronounce and spell names and technical terms correctly. For this reason, many pronunciations are included in the textbook.

To reward students for learning these pronunciations, there is a "Hear & Spell" test for each chapter, which uses those words. You may take each test over and over until you get the score you want.

Each correctly spelled word on a Hear & Spell test is worth 0.05 points. Because there are about 400 words, this adds up to 20 points, which is about 10% of your total grade.

Missed Exam Policy

Contact the Instructor as soon as possible.

Final Exam

Instead of a Final Exam, you are allowed to retake one exam, which, presumably, will be the test on which you scored the lowest. Your score on the retake will be your final grade for that exam, even if it is lower than your first score. However, if you are satisfied with your final grade, or do not wish to take the chance of getting a lower score on the retake, you do not have to take it.

Contact me if you have ANY questions

I am here to help so contact me with your questions. The best way is to email me through the WebCT system. Alternatively, you may contact me by phone (see above for the number).

Course Evaluation

As with all UT courses, students will be able to fill out a course evaluation, which is anonymous. The Instructor may post the results of the evaluation, including the comments.
