Textbook: Silvia, P. (2014). *Write it up: Practical strategies for writing and publishing journal articles*. APA Lifetools.

Meeting goals: This semester, our plan is to focus on writing for publication. In doing so, we will cover topics on identifying target journals, writing, and publishing scientific writing. Each meeting, we will set a goal for our own writing. We will present our progress during the subsequent meeting and set the next goal. By the end of the semester, you should be prepared to submit a manuscript!
