

Bachelor of Business Administration
4-year program

sound like you?

Be a programmer

for a company •

Work as a Web

developer • Analyze

systems for a bank

did you know?

Did you know that there are over 150 million sites on the Web, with more than two billion Web pages?

Information Systems at UT

Quick and accurate delivery of information is the key to any successful business. This is what you will learn how to do as an information systems (IS) major. IS involves managing and applying computer technology to analyze, design and implement ways to increase effectiveness, efficiency and competitiveness of a company. Students will not only be trained as specialists about computers, but also learn interpersonal communication skills that will help them succeed.

UT's information systems program is constantly updated to remain on the cutting edge of technology, including object oriented programming, enterprise resource planning (ERP), project management skills and Web-based applications development. UT has been recognized as one of the most wired for computers in the nation. In addition, UT students take advantage of state-of-the-art computing and other facilities.

Finally, students can gain real-world experience through numerous internship opportunities that often lead to full-time positions. This lets students work with accomplished professionals in the information systems field while earning college credit and money.

What to expect when you graduate

Rapid changes are occurring in both local and international businesses, increasing the need for knowledgeable and innovative providers of computer services at all professional levels. Graduates can find jobs as programmers, systems analysts and Web developers for a wide variety of companies.

INFORMATION SYSTEMS

The College of Business Administration has wireless laptops with Internet access and accessories for students to check out and use in Stranahan Hall. The College won Dell's GenerationIdea nationwide contest for this innovative use of technology, originality and appropriateness to other higher education institutions.

College of Business
Administration

Group campus tours are available Monday through Friday at 10:30 a.m. or 2:30 p.m., and on Saturday at 11:15 a.m., year round, with the exception of national holidays. Individual admission appointments are available by request. Individualized college or department visits are also available weekdays at 1:15 p.m. by appointment.
