Technical Studies at UT

The technical studies program is for students who have unique interests in a variety of technical fields like digital imaging or Web design. It allows students to build an individualized program to meet their career goals by working closely with an academic adviser and faculty in an area of interest to develop their program.

UT's interdisciplinary program in technical studies is useful for students who want to gain technical expertise in more than one discipline. Students explore their interests in a variety of

technical areas, achieve specific career goals and have the opportunity to apply their credits to a bachelor's degree in interdisciplinary studies through University College.

What to expect when you graduate

Graduates of the technical studies program join the ranks of highly qualified technical experts in a variety of fields. Most find themselves prepared for careers in the technical fields they have chosen and many continue their education and earn a bachelor's degree.

The Z3, the first software-controlled computer, was invented in 1941.

TECHNICAL STUDIES

University College has the highest average age of students of any UT college with a range of students from age 18, to working adults, to highly active retirees.

Sample Curriculum*

Degree Requirements

Degree candidates at The University of Toledo must be in good standing. An associate of technical study (A.T.S.) degree will be granted to the student completing the following requirements:

- The satisfactory completion of no fewer than 68 semester hours.
- The completion of no fewer than 20 of the above 68 semester hours while in attendance at UC, or 30 hours for transfer students from other institutions. A student must attain a C (2.0) average for all work at the college level.
- Completion of a minimum of 30 hours of technical studies, attained in an educational plan approved by the adviser, sponsoring faculty member and the college committee.
- These 30 hours must consist of an interdisciplinary, but coherent, combination of courses selected from two or three technical programs. At least 16 hours must be selected from one technical field, and students must attain a C (2.0) average for all technical work utilized in satisfaction of this requirement.

Note: Students must have an approved educational plan in order to be eligible for any A.T.S. program. The process to gain approval begins with an appointment with a college adviser.

Prepare Yourself

The University of Toledo advises completion of the following college-prep courses to help prepare you for college course work:

- 4 years/units of English
- 3 years/units of math (algebra I, II, geometry or equivalent)
- 3 years/units of natural sciences
- 3 years/units of social sciences
- 2 years/units of a single foreign language

High school preparation requirements do not apply to adult or transfer students.

Come See Us

A campus visit is the best way to decide if a university is right for you. Group campus tours are available Monday through Friday at 10:30 a.m. or 2:30 p.m., and on Saturday at 11:15 a.m., year round, with the exception of national holidays. Individual admission appointments are available by request. Individualized college or department visits are also available weekdays at 1:15 p.m. by appointment.
