The University of Toledo
CWA Job Class Seniority Report
With Seniority Detail Drill Down

Report Selection Parameters
Assignment Date: 5/29/2009

Report Description: This report displays CWA job class seniority. Seniority is defined in the current collective bargaining agreement between the University of Toledo and the Communications Workers of America Local 4530. It is determined by dividing the number of hours in an employee's regular bargaining unit assignment by the number of hours in a typical work year (2080). Prior to July 1, 1996, assignment data was recorded by hand and is listed in this report as "Prior Seniority". The original hire date reflects the date the employee became a permanent employee of the University, not when they became a member of the Bargaining unit. This report allows for drill-down into an employee's seniority detail.
