PROCEDURE STATEMENT

To allow for the management of volunteers reporting to the University of Toledo Medical Center during times of emergencies and/or disasters.

PURPOSE OF PROCEDURE

This Volunteer Deployment Management Plan - Standard Operating Guide (SOG) has been developed for the University of Toledo Medical Center and other campuses. This SOG outlines the deployment procedures that occur before, during and after a public health emergency/disaster or in support of a public health initiative (i.e., administering flu vaccine).

PROCEDURE

Procedure begins on the next page.

SOG Standard Operating Guide
OVERVIEW

Recent natural and man-made catastrophic events have demonstrated the need for volunteer healthcare professionals and lay volunteers to supplement and enhance response and recovery capabilities during and after such events. Additionally, the potential for widespread consequences from these events often cross jurisdictional lines. As a result, public health preparedness initiatives that include pre-credentialed volunteers have been developed to address local, regional, multi-state and federal collaboration.

Congress passed the Public Health Security and Bioterrorism Preparedness and Response Act of 2002 to facilitate the effective use of volunteer health professionals during public health emergencies. Section 107 of the Act directs the Health and Human Services Secretary to “establish and maintain a system for the advance registration of health professionals for the purpose of verifying the credentials, licenses, accreditations, and hospital privileges of such professionals when, during public health emergencies, the professionals volunteer to provide health services.”

The Health Resources and Services Administration (HRSA) of the United States Department of Health and Human Services (HHS) was delegated the responsibility for assisting each state in establishing a standardized state-wide registry of volunteer health professionals which would include readily available, verifiable, up-to-date information including identity, licensing, credentialing, accreditation, and privileging in hospitals or other facilities. As a result, the Emergency Systems for Advance Registration of Volunteer Health Professionals (ESAR-VHP) was implemented. In 2006, the Pandemic and All Hazards Preparedness Act (PAHPA) transferred the responsibility for ESAR-VHP to the Office of the Assistant Secretary for Preparedness and Response (ASPR).

Implementation of an ESAR-VHP program became a required ASPR Level One Sub-capability during the 2007 grant funding year. Compliance requirements for ESAR-VHP were included in the Centers for Disease Control (CDC) Program Announcement for the 2008 grant funding year. Eligibility for 2009 grant funds required participation in the ESAR-VHP program.

PURPOSE

This Volunteer Deployment Management Plan - Standard Operating Guide (SOG) has been developed for the University of Toledo Medical Center and other campuses. This SOG outlines the deployment procedures that occur before, during and after a public health emergency/disaster or in support of a public health initiative (i.e., administering flu vaccine).

The ESAR-VHP program is guided by five fundamental objectives to ensure the proper development and operation of each ESAR-VHP system. These objectives are:

1. Recruit and register medical and non-medical volunteers;
2. Apply ESAR-VHP emergency credentialing standards to registered volunteers;
3. Allow for the verification of the identity, credentials and qualifications of registered volunteers prior to an emergency or disaster;

4. Automatically notify and confirm the availability of registered health care professionals and lay volunteers at the beginning of an emergency/disaster event; and

5. Provide deployment information to available volunteers and track/document their service from deployment through demobilization.

This SOG provides the processes and protocols to address these fundamental goals and objectives. Additionally, it outlines roles and responsibilities for volunteer staff to implement preparedness initiatives for volunteers to better prepare themselves and their families in the event of deployment.

MISSION STATEMENT

“To augment community health and medical services during a disaster, public health emergency or incident with pre-identified, trained and credentialed volunteers.”

The plans goals are to:

- Ensure an adequate and competent volunteer force of healthcare professionals and lay volunteers
- Enable efficient and effective public health emergency operations
- Allow sharing of healthcare professionals and lay volunteers across state lines
- Provide guidance on the legal protections that are available to volunteer healthcare professionals and lay volunteers who serve through the registry
- Establish clear protections for health professionals and lay volunteers
- Maintain current registry of professional and lay volunteers.

DEPLOYMENT OF VOLUNTEER

UTMC employs generally accepted protocols when gathering deployment information; identifying and disseminating information to volunteers; processing and tracking deployed volunteers; and demobilization of volunteers.

During disaster, the hospital may assign disaster responsibilities to volunteer practitioners who are not licensed independent practitioners, but who are required by law and regulation to have a license, certification, or registration. This process is outlined in the Medical Staff Bylaws.

Deployment Protocols for Non-Emergency Events

Requests for volunteers to support disaster and community events, public health events such as health fairs, exercises, and immunization clinics will be made directly to the volunteer office, or Incident Commander in the case of and exercise or table-top.
Deployment Protocols for an Emergency/Disaster

Deployment requests for volunteers could be local; intra- or interstate; or federal. All requests should be directed through the University of Toledo’s EOC. Requests for deployment are handled as follows:

- EOC receives the initial request for volunteers and notifies volunteer services.

Upon receipt of an official request for volunteers, the RUL will search the UT registry for the types of volunteers being requested. The UT registry database may be searched using different criteria such as profession, professional license, or geographic location.

In keeping with the ESAR-VHP requirements, upon receipt of a request for volunteers, registry staff will: (1) produce a list of requested volunteers within 2 hours of the request; (2) contact potential volunteers; (3) within 12 hours, respond with an initial list of volunteers available to deploy; and (4) within 24 hours, provide the requestor with a verified list of volunteers for deployment.

Registered volunteers affiliated with other volunteer organizations, such as Medical Reserve Corps (MRC) and Disaster Medical Assistance Team (DMAT), will not be activated for 6 hours in the event such other volunteer organizations would need to roster a team for deployment. After the expiration of the 6 hour window, these volunteers are considered to have been released for deployment.

The final roster of deployable volunteers will be managed by the volunteer office, who will manage the roster which includes deployment, tracking, and demobilization of volunteers during a particular incident or event.

Pre-Deployment Considerations

The RUL will collect as much available information regarding a request for volunteers prior to contacting volunteers to determine their availability to serve. However, volunteers should be aware that situations can rapidly change and that they should plan for worst case scenarios when considering volunteering for a deployment.

Issues to consider include:

- **Transportation**: Responsibility for transportation to the deployment location (and return) will be the responsibility of each volunteer unless otherwise specified.
- **Lodging**: Hotel accommodations can not be guaranteed, therefore volunteers must be prepared to stay in shelter type conditions.
- **Meals**: At some locations, meals will be provided. At other locations, meals will be on your own.
• Operational Hours: Unless otherwise specified by the Incident Commander (IC) or the onsite volunteer coordinator, volunteers will work in 12 hour rotations with breaks every two (2) hours and one (1) hour for lunch, for a term of not more than 30 days.

Deployment to an emergency or disaster site where there are limited resources and physical hardships may be more difficult for some than others. Volunteers will be asked to consider the following before agreeing to deployment:

• Do you have children or adult dependents? Will you be able to arrange for their care while you are gone? Can these arrangements be easily extended if your assignment runs longer than anticipated?
• Do you have pets? Will you be able to arrange for their care while you are gone? Can these arrangements be easily extended if your assignment runs longer than anticipated?
• Is there someone who can take care of your home while you are gone (take in the mail and newspapers)? Are your bills (utilities, rent) paid and up-to-date?
• Are you taking any prescription medications that may impact your ability (causing drowsiness) to function in an emergency or disaster situation? Does your medication require strict administration times or need refrigeration?
• Do you have a health condition such as significant mobility concerns or a heart condition that would prohibit your participation? Do you have difficulty bending or stooping? Can you sit or stand for extended periods of time?
• Do you have allergies to medications, foods, environmental conditions or insect bites?
• Do you have a medical condition such as asthma or diabetes which could worsen due to the difficult conditions at an emergency or disaster site?
• Do you have a psychological or any other condition such as anxiety disorder or depression which may prohibit your participation in a disaster response?
• Have you had a recent emotional or psychological event which would make you unable to participate effectively in a disaster response?
• Do you have special dietary requirements which you may not be able to follow while at an emergency or disaster site?
• Are there any other concerns that would make you unable to participate effectively in an emergency or disaster response at this time?

Responding to an Emergency Activation In State

In the event of a public health emergency in the State, the RUL will notify UT volunteers via UTalert, email, and through University of Toledo communications. Non UT employed volunteers will be notified by the Volunteer Services via e-mail and/or telephone. Notification will include all pertinent information such as the nature of the emergency; sleeping, eating and travel arrangements; and expectations of the length of deployment and hours of operation. Volunteers will also be provided with an deployment packet (see Appendix E). Volunteers will follow these procedures:
• Volunteers will report to the designated staging area specified by the RUL and present their deployment papers to the onsite volunteer coordinator (typically lobby of hospital, or other pre-determined location at the University of Toledo Health Science Campus.

• Once a volunteer arrives at the staging area they will log in; fill out all necessary paperwork; receive deployment papers and briefing; and receive assignment to a position and work location. Volunteers without an UT identification badge will be issued a new one using current ID badge supplies. *(Only volunteers holding a badge and that are able to show proof of deployment will be allowed on the site.)*

• Once a volunteer arrives at the site of deployment, additional paperwork may be required to receive assignment to an area Supervisor. The Supervisor will give the volunteer further instructions. It is very important for every volunteer to sign in and out each day (including lunch) and keep track of all hours worked on the required form that must be signed by the Supervisor.

• Before leaving the site, volunteers will verbally brief replacement volunteers on all pertinent information needed to perform the job and continue smooth operations.

• Any unique instructions shall be documented and shared.

• After demobilization, volunteers will be asked to report back to the check-in area to log out, turn in a Volunteer Feedback Form and return any assigned equipment.

**Responding to an Emergency Activation Out of State**

UT volunteers will follow the same protocols for in and out of state deployments. The only difference is that an official request will flow through the EMAC system or federal deployment protocols. Appendix A provides additional information on how the EMAC coordination system operates among states.
Onsite Volunteer Coordinator Responsibilities

Onsite volunteer coordinators play a very important role in managing volunteers. These responsibilities include, but are not limited to:

- Processing incoming/outgoing volunteers
- Conducting/providing “Just-in-Time” training as necessary or required
- Assigning volunteers to positions commensurate with their skills and training
- Maintaining emergency/disaster volunteer records
- Administrative assistance as required

Appendix B, C and D provide an outline of the responsibilities for the activation, deployment, receipt and demobilization of volunteers.

VOLUNTEER TRACKING

During Volunteer Deployment

Volunteers who are deployed must be accounted for from the initiation of assignments through demobilization. Depending on the situation, reporting protocols will be established for either a “once a day” or an “every 12 hour” tracking of volunteers. The RUL will coordinate the required tracking mechanisms with the onsite volunteer coordinator at the duty station.

DEMOBILIZATION

Volunteer deployment protocols will be communicated by the onsite volunteer coordinator or designated representative. UT registry staff will coordinate with the onsite volunteer coordinator to determine when UT volunteers have been deactivated. The registry staff will:

- Contact the volunteer to assure return to their home base
- Provide the volunteer with an Volunteer Feedback Form-Activation/Deployment to complete and return (see Appendix D)
- The registry staff will ensure the volunteers service is recorded in the registry
- Make available critical incident stress debriefing
- Determine if Pastoral Care services are necessary for religious or emotional support needs
VOLUNTEER DEPLOYMENT MANAGEMENT PLAN APPENDICES

Appendix A: Emergency Management Assistance Compact
Appendix B: Volunteer Deployment – Sending Location
Appendix C: Volunteer Deployment – Receiving Location
Appendix D: Volunteer Demobilization
Appendix E: Deployment Package
APPENDIX A: EMERGENCY MANAGEMENT ASSISTANCE COMPACT

In the simplest of terms, EMAC works as follows:

1. Governor issues state of emergency
2. Authorized Representative from the affected state alerts EMAC National Coordinating Group (NCG)
3. Affected state requests A-Team deployment
4. A Team works w/state: Determines needs and sends EMAC Broadcast
5. A Team helps state determine costs and availability of resources
6. States complete requisitions and negotiation of costs
7. Resources are sent to affected state
8. Responding state requests reimbursement
9. Responding state reimbursed

There are 8 key players in EMAC operations:

- **Requesting State** - any EMAC member state that is asking for interstate assistance under the Compact. The governor must declare a state of emergency before the EMAC process can be initiated.

- **Assisting State** - any EMAC member state responding to a request for assistance from and providing resources to another EMAC member state through the Compact.

- **Authorized Representative (AR)** - the person within a member state empowered to obligate state resources (provide assistance) and expend state funds (request assistance) under EMAC. In a Requesting State, the AR is the person who can legally initiate a request for assistance under EMAC. In an Assisting State, the AR is the person who can legally approve the response to a request for assistance. State Emergency Management Directors are automatically ARs. The director may delegate authority to other emergency management officials in organization, as long as they possess the same obligating authority as the director.

- **Designated Contact (DC)** - is a person within a member state who is very familiar with the EMAC process. The DC serves as the point of contact for EMAC in his or her state and can discuss the details of a request for assistance. This person is not usually legally empowered to initiate an EMAC request or authorize EMAC assistance without direction from the AR. A list of DCs is found in Appendix E in Section V of the EMAC Operations Manual.

- **EMAC National Coordination Group (NCG)** - is the nationwide EMAC point of contact during normal day-to-day, nonevent periods. The NCG is prepared to activate EMAC on short notice by coordinating with the ARs and DCs of the EMAC member states when an emergency or disaster is anticipated or occurs. The NCG is collocated with the current Chair of the EMAC Operations Subcommittee and Executive Task Force. Because the Chair of the EMAC Operations Subcommittee changes every year, so does the NCG.

- **EMAC National Coordinating Team (NCT)** - If DHS/FEMA activates the National Response Coordination Center to coordinate the federal response and recovery operations during an emergency or disaster, DHS/FEMA may request a coordination element from EMAC. The EMAC NCT is the EMAC
team that is deployed to serve as a liaison at the NRCC, located in Washington, D.C. From the NRCC, the EMAC NCT coordinates with the deployed EMAC components responding to the emergency or disaster and is the liaison between the EMAC assistance efforts and the federally provided assistance efforts. The costs for deploying and maintaining an EMAC NCT at the NEOC are reimbursed by DHS/FEMA through NEMA/CSG

- **EMAC Regional Coordinating Team (RCT)** - If DHS/FEMA activates a Regional Coordination Center (RRCC) to coordinate the regional response and recovery operations during an emergency or disaster, DHS/FEMA may request a coordination element from EMAC. The EMAC RCT is the EMAC team that is deployed to serve as a liaison at the RRCC. From the RRCC, the EMAC RCT coordinates with deployed EMAC components responding to the emergency in states within the region, and is the liaison between the EMAC assistance efforts and the federally provided assistance efforts

- **Member states**

All **Member States** have the following responsibilities:

- To be familiar with possible joint member situations
- To be familiar with other states' emergency plans
- To Develop an emergency plan and procedures for managing and provisioning assistance
- Assist in warnings
- Protect and ensure uninterrupted delivery of services, medicine, water, food, energy and fuel, search and rescue, and critical lifeline equipment, services, and resources
- Inventory and set procedures for interstate loan and delivery of human and material resources, including procedures for reimbursement or forgiveness
- Provide for the temporary suspension of any statutes or ordinances that restrict implementation

EMAC can be used for ANY capability one member state has that can be shared with another member state. So long as there is a governor declared state of emergency, EMAC can be called to action and used.
APPENDIX B: VOLUNTEER DEPLOYMENT – SENDING LOCATION

VOLUNTEER DEPLOYMENT – SENDING LOCATION
REGISTRY LIAISON & ONSITE VOLUNTEER COORDINATOR
RESPONSIBILITIES

1. **Registry Liaison** activates volunteers.
   - Obtains Request/Requirements
   - Queries Database
   - Submits Volunteer Alert

2. **Provide Initial Information to Volunteers**
   - Volunteers may need training on protocols/parameters under which they are to work in general (examples: Mass Dispensing Site Security)
   - Identify where Volunteer is to report (staging area)
   - What assignment might be
   - What clothing (if special)
   - Length of deployment

3. **Volunteers report to the Identified Staging Area**

4. **Assignments (Staging Areas)** - Volunteer Coordinator has received a list of assignments (possible job settings) from the receiving county or state. Examples of possible job settings:
   - Alternate care Site
   - Surge within a hospital
   - Door to Door Outreach
   - Assessment Teams
   - Phone Triage Lines or Hotlines
   - First Aide Stations
   - Temporary Clinics

5. **Deployment Orientation (Staging Area)**
   - Provide Financial Forms
   - Conduct Deployment Briefing (who, what, where, when & how)
   - Provide Vaccinations / Prophylaxis
   - Make available critical incident stress debriefing (CISD)
APPENDIX C: VOLUNTEER DEPLOYMENT – RECEIVING LOCATION

ONSITE VOLUNTEER COORDINATOR RESPONSIBILITIES FOR VOLUNTEERS

Onsite Volunteer Coordinator

1. Coordinate Logistics
   - Lodging/Food/Transportation
   - Equipment: special clothing, personal protection equipment, radios

2. Reception Procedures
   - Verify credentials and license with Volunteer badge prior to site orientation and assignments
   - Conduct Volunteer registration
   - In & Out processing (volunteers must check in & out) [Incident Command System (ICS) Form 211]
   - Verification health screening
   - Policies e.g. work hours/days, communication methods, dress codes, equipment use, ethics, and or code of conduct, contact with the media

3. Site Orientation
   - Site specific
   - Volunteer Responsibilities
   - Just in Time Training (job specific)
   - If needed; geographic orientation

4. Volunteer Assignments
   - Assignments specific to event or the job the Volunteer is trained TO PERFORM
   - Each event may have specific hardships that may need to be communicated
   - Assign to Supervisor: chain of command, supervision, information reported to supervisor, discipline
   - Worksite to which Volunteer is to report

5. Demobilization
   - See Appendix D
APPENDIX D: VOLUNTEER DEMOBILIZATION

Deployment Flow Chart - Demobilization

1. Onsite Volunteer Coordinator initiates demobilization protocols with Volunteers
   - Notify Registry Liaison
   - Notify Volunteer(s)

2. Onsite Volunteer Coordinator will notify Registry Liaison of volunteer deactivation and provide the following information:
   - Volunteer Name
   - Profession
   - Deployment location
   - Date of deactivation
   - Number of hours volunteer provided

3. Registry Staff Volunteer Debriefing
   - Verify Volunteer return to home base
   - Provide volunteer feedback form
   - Make available Critical Incident Stress Debriefing (CISD)

4. Registry Staff will update the Volunteer’s registry Profile with hours

Helpful Hints and Things to Remember

1. Pack all of your clothing in 1 or 2 gallon Ziploc bags before putting into your suitcases. Line your entire luggage with plastic trash bags to protect clothes and other content against moisture and possible mold.

2. Meals Ready to Eat (MRE’s) are available at most camping stores. If you are transporting your own food, make sure it’s easily transportable and doesn’t need cooking or refrigeration.

3. The basic rule is “2-3-4.” This means that each volunteer should deploy with 2 bags, 3 days of food, and 4 quarts of water. The “Check List for Deployed Volunteers” (Appendix I) includes not only minimally required items, but others to help each team member travel and live more comfortably during the deployment.

4. Contact the airline for most up-to-date flight times and rules for carry on personal luggage. As a general rule, two bags/suitcases can be utilized. A large one for transportation which may not be available during transit, and the smaller “ready bag” to contain items needed during the transit.
## CHECK LIST FOR DEPLOYED PERSONNEL

### MAIN TRAVEL/FLIGHT BAG

**NECESSARY PAPER WORK**
- Deployment Papers/Package
- Driver’s License/Picture ID
- Badge
- Vaccination Records
- Professional License
- Time Cards

**CLOTHING**
- Long trousers (2 pair)
- Shorts
- Long sleeved shirts (2)
- Short sleeved shirts (3-5)
- Work Boots (steel toe recommended)
- Canvas shoes (comfortable)
- Large Bandana
- Underwear (3)
- Socks (3 pair)

**PERSONAL GEAR**
- Razor/blades
- Shaving cream
- Toilet paper
- Deodorant
- Shampoo
- Hand lotion
- Insect repellant with 35% DEET
- Foot Care (alcohol, powder, moleskin)
- Medications (Tylenol, Advil or other pain medication, prescriptions, decongestant, antacid)
- Handiwipes and hand disinfectant
- Bar soap/container
- Toothbrush and toothpaste
- Comb/brush
- Lip balm
- Sunscreen
- Detergent for clothes
- Flip-flops
- Bathing suit (just in case)
- Towel

### READY/CARRY BAG

**CLOTHES**
- Sun hat (baseball cap)
- Jacket with hood
- Rain coat and rain pants
- Leather work gloves

**FOOD**
- High nutrition snacks
- Enough non-perishable food for 24 hrs.
- 1 qt. water

**MISCELLANEOUS/SUGGESTED ITEMS**
- Book/reading material
- Sunglasses
- Extra glasses/contacts
- Cash, travelers checks and/or credit cards
- Necessary meds (airsickness)
- Necessary hygiene items
- Inflatable pillow
- Camera/film
- Personal medical equipment (scissors, stethoscope, etc.)
- Flashlight/batteries
- Notebook
- Pocket Knife
- Hearing protection
- Trash bags
- Cellphone/electronic communication device
- Headlamp and/or second flashlight
- Extra bulb/batteries
- Waterproof matches/fire starters (no butane)
- Hardhat
- Goggles
- Face mask/dust mask
- Tape, safety pins, sewing kit
- Gloves

**READY/CARRY BAG**

**CLOTHES**
UT VOLUNTEER FEEDBACK FORM

Volunteer Feedback Form
Response/Deployment

Please provide us your name and email address so we can follow up with you; or, you are free to submit this form anonymously. We will use your comments, criticisms and suggestions to improve our volunteer deployment procedures.

1. Name__________________________ (leave blank if anonymous)
2. Email__________________________ (leave blank if anonymous)
3. List your role(s) during the deployment (example: usher, medication dispenser, registration clerk).
_____________________________________________________________________________________
4. Was this your first deployment as a volunteer? (Check one) ____Yes  ____No
5. Please comment on the phone/email notification message you received? (for example: efficiency of the process, clarity of the message). We are especially interested in your suggestion for improvement.
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________

Your experience during the deployment

6. Please comment on the volunteer check-in process, providing suggestions for possible improvement if you have them.
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________

7. Were you provided adequate training to perform your responsibilities on deployment? If no, what aspect of the training was inadequate or missing?
_____________________________________________________________________________________
_____________________________________________________________________________________
_____________________________________________________________________________________

8. What could have been done differently to make this response/deployment a better experience for you as a volunteer?
_____________________________________________________________________________________
_____________________________________________________________________________________

9. Were you offered critical incident stress debriefing (CISD) and/or opportunity to meet with a Pastoral Care representative?
