Viewing Test Results in My Grades

This lesson will demonstrate how to view your results on a test taken in Blackboard.

**Students can access their test results using My Grades after the test availability has ended**

Log into your blackboard course and click on the **My Grades** link in your course menu.

**Viewing your grades**

You will now be on My Grades, where you can see the grades you have received on each course assessment. Locate the test you want to view, and click on the name of the test you would like to view.
You will now see the details for each attempt made on the test. Select which attempt you would like to view and click on the grade for that attempt.
Once you click on an attempt to view, you can now access the submission details for that attempt. You will be able to view your score and submission information, your submitted answers, correct answers, and feedback. However, the instructor must enable these features in order for students to view their attempt details.
