21 part-time

Students by the Numbers: 49 Ph.D.
120 Masters
351 Adolescent and Young Adult
168 Middle Childhood
55 Career & Technical
28 Foreign Language

Chair's Quote: The C&I department is committed to providing high quality, innovative programs for individuals who wish to become professional educators or for individuals who wish to develop further their knowledge and skill base in teaching and learning. Our intent is to have highly focused, state-of-the-field programs that still allow for individual needs to be met in a personalized learning environment.

Program Highlight: The LAMP (Licensure Alternative Masters Program) is a highly selective, rigorous graduate program that enables an individual to complete a Masters degree and licensure to teach in the Middle Grades (4-9) or in junior high/high school (AYA licensure for grades 7-12). This is an intensive, one calendar year (August to August) program designed for persons who hold a bachelors degree in a content field (English, math, life or physical/earth sciences, or history/related social sciences) and who may also be career changers seeking a new career as a professional educator.

Program Highlight: LGL (Licensure at the Graduate Level) is a program designed for persons who hold a bachelors degree in a content field who are seeking licensure to become a Middle Grade (4-9) teacher or a junior high/high school (7-12) teacher. This program does not include a Masters degree but professional education coursework in this program can be applied to the Masters degree in Middle Grade (MIDD) or Secondary (SECE) Education. This program is primarily for part-time students and/or students who wish to obtain licensure only.
