Matrix Planning Form		
In the first column, list the routine/schedule and describe <u>briefly</u> what will be occurring during each time period for this particular day.		
For each IEP objective you will address for each of the 2 children, identify three (3) different opportunities across the day where you		
can embed each of the IEP objectives into the daily routine. In the boxes, describe in observable terms what the children will do to		
indicate this learning objective is being addressed.
