

COLLEGE OF ENGINEERING

THE UNIVERSITY OF TOLEDO

CoE Freshman Design 2018 Angel Pitch

The University of Toledo College of Engineering
& Rocket Innovations

The Slides: Create a 6 slide presentation that ends in 5 minutes.

The winner will be chosen based on their creative presentation of:

- a. The answers to the questions posed in the list below
- b. Your journey through Freshman Design

1. Start with a slide of the project title and the names of team members.
2. Next include at most 2 or 3 slides that together answer these questions:
 - a. Problem statement; description of the problem, how you found it, who it impacts (the customers with the problem) and how is the problem solved now (the method, not the names of competitors)
 - b. Your solution; focus on product over technology; what it does, not how it does it, and the advantages of your new solution over the current solution(s).
3. Also Include in the rest of the slides information about your team's journey through Freshman Design. What did you learn?
4. 6 Slides total.
