

**Electrical Engineering Technology  
Employer Questionnaire**

In order to assess the abilities of our EET graduates, we would ask you to please complete this survey with regard to the following graduate of the University of Toledo Electrical Engineering Technology Program. Thank you.

Graduate Name: \_\_\_\_\_

Business Name & Address: \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

Your Name & Job Title: \_\_\_\_\_  
 \_\_\_\_\_

How long have you supervised this employee? \_\_\_\_\_

Would you hire another UT EET graduate in your company given the opportunity?

Yes \_\_\_\_\_ No \_\_\_\_\_ Why? \_\_\_\_\_

Considering the following 11 criteria that ABET requires of our EET graduates, please rate how well prepared was your employee (and EET graduate) in each of these areas as a result of the education he / she received in the EET Program.

1 = Strongly Agree; 2 = Agree; 3 = Not Applicable; 4 = Disagree; 5 = Strongly Disagree

ABET Outcome	Rating
a) Ability to select and apply the knowledge, techniques, skills, and modern tools to broadly defined engineering technology activities;	
b) Ability to select and apply a knowledge of mathematics, science, engineering, and technology to engineering technology problems that require the application of principle	
c) Ability to conduct standard tests and measurements; to conduct, analyze, and interpret experiments; and to apply experimental results to improve processes;	

d) Ability to design systems, components, or processes for broadly – defined engineering technology problems appropriate to program educational objectives	
e) Ability to function effectively as part of a team;	
f) Ability to identify, analyze, and solve broadly - defined engineering technology problems;	
g) Ability to apply written, oral, and graphical communication in both technical and non-technical environments; and ability to identify and use appropriate technical literature;	
h) Understanding of the need to learn more, and to be engaged in self - directed professional development	
i) Understanding of and a commitment to address professional and ethical responsibilities, including a respect for diversity;	
j) A knowledge of the impact of engineering technology solutions in a societal and global context;	
k) Commitment to quality, timeliness, and continuous improvement	

Please write additional comments on the educational preparedness of this employee:
