

COLLEGE OF ENGINEERING
THE UNIVERSITY OF TOLEDO

2018 Doctoral Instrumentation Assistantship

The University of Toledo, College of Engineering (COE) invites applications for the 2018 Doctoral Instrumentation Assistantship. All doctoral students in the college who have completed their PhD qualifying/comprehensive examinations and expect to remain in their doctoral program for 3 more years are eligible to apply. Recipients of this assistantship will be required to work 20 hours/week at the Center for Materials and Sensor Characterization (CMSC) in the College of Engineering under the supervision of the Center Director. This assistantship will enable the recipient to gain expertise in the state-of-the-art instruments located in the CMSC. As a result, this assistantship is best-suited for those students whose dissertation research requires significant use of these instruments. Applicants will be interacting with CMSC clients, and are expected to have good communication skills. Preference will be given to applicants with some expertise in materials characterization. For details on the instruments in the CMSC, see <http://www.eng.utoledo.edu/cmssc/>.

This assistantship provides 3 years of financial support for the student while pursuing her/his doctoral degree. This assistantship will start at the beginning of the Fall 2018 semester and continue through the summer 2021 semester pending satisfactory performance in carrying out assistantship duties at CMSC and maintaining a minimum GPA of 3.0. This assistantship will not be extended. The stipend is offered at the current COE doctoral assistantship rate and cannot be combined with any other fellowship, grant or award without prior approval from the Associate Dean for Research and Graduate Studies in the College of Engineering.

Applicants must submit:

- a current curriculum vitae,
- a copy of their UT graduate academic transcripts,
- a brief description (1 page) of their planned PhD research, and
- a letter of support from their dissertation advisor.

The deadline for applications is **Wednesday, August 23, 2018**. The recipient of the assistantship will be selected by a committee chaired by the Associate Dean of Research and Graduate Studies of the College of Engineering.

Please submit applications to:

Dr. Patricia Relue
Associate Dean for Research and Graduate Studies
College of Engineering
1016 Nitschke Hall
