Standard Operating Procedure

Maintenance shall repair and/or recalibrate portable and wall mount blood pressure cuffs as needed.

Purpose

To establish procedures for requesting repair or recalibration of all blood pressure cuffs.

Procedure

1. Nursing unit shall contact Central Supply to obtain a replacement B.P. cuff.

2. Unneeded or broken B.P. parts shall be sent to Central Supply.

3. Supply of B.P. cuffs in Central Supply is to be checked weekly.

4. Maintenance shall maintain inventory of repair parts to expedite repairs.

5. Requisitions for replacement parts shall be directed to Nursing Service Administration for purchasing.
