

1. **Changes to the Anthropology minor:** Major things here are changing the number of credits required for minor from 24 to 21. This will be done by reducing elective hours by 3, and will bring them in line with other minors. Also, they want to replace ANTH 2100 Human Society Through Film with ANTH 2750 World Prehistory. This gives them more Archaeology in their minor. They also want to add ANTH3940 People of Sub-Saharan Africa to a list to choose from as a requirement for the minor. No other changes.
2. **BA in environmental Studies:** New area of concentration in Peace and Justice studies. 21 credits for concentration. Added to 6 other areas of concentration. I have added the program of study to the group attached.
3. **Changes to the BA in Geology:** Replacing EEES 4640 Applied Geology 3 credits with EEES 4650 Field Studies 3 credits, as they are redundant (cover same things). So, there is no reason to take both. No change in credits. Addition of EEES 4480 GIS 1 credit to the elective list.
