Catalog Description (only if changed) 75 words max:

Study methods such as MRP, JIT and bottleneck approaches used in managing manufacturing activities through business cases where appropriate. Production planning, scheduling, and inventory systems will be studied.
 Pre-requisite:
 OPMT 5520 D- or better or BUAD 3020 C or better

Study of Operations planning, scheduling, and inventory systems with tools such as MRP, JIT and bottleneck approaches in the context of Supply Chains through business cases where appropriate.
 Pre-requisite:
 OPMT5520 or OSCM 5520 D- or better or BUAD 3020 C or better

Has course content changed?

Yes

No

If course content is changed, give a brief topical outline of the revised course below(less than 200 words)

The orientation of the course will be more on supply chain and less on stand alone units of manufacturing and service systems.

Proposed effective term*: (e.g. 201140 for 2011 Fall)

Comments/Notes:

Rationale:

In general, Operations and Supply Chain Management is a better description of the program we are doing and the name for the undergraduate major was changed in 2015 along with all courses renamed and modified as needed to OSCM from OPMT. We are carrying out a similar process for the graduate courses. That is OPMT will be phased out and OSCM will be used for courses in the area offered by the department.

Catalog Description:

Study of Operations planning, scheduling, and inventory systems with tools such as MRP, JIT and bottleneck approaches in the context of Supply Chains through business cases where appropriate.

COURSE DESCRIPTION

In this course, we will study the theory and practice of supply chain resources planning. We will study methods for solving problems such as lowering inventories while providing acceptable level of service or scheduling products through the production facilities to ensure timely completion of orders. We will also study recent trends in supply chain management and enterprise resource planning.

STUDENT LEARNING OUTCOMES

Upon completion of this course, students should:

1. Understand the theory and practice of Supply Chain resource planning.
2. Apply a variety of methods for Supply Chain planning and control.
3. Understand with the concept and issues relating to supply chain management.
4. Be familiar with enterprise resource planning.
5. Understand the latest trends and their impact on Supply Chain planning and control systems.

REQUIRED TEXTS AND ANCILLARY MATERIALS

Manufacturing Planning and Control for Supply Chain Management by Jacobs, Berry, Whybark, and Vollmann, McGraw-Hill Professional, 1st Edition (2011), APICS/CPIM Certification Edition. ISBN-10: 0071750312; ISBN-13: 978-0071750318.

All materials for the class will be distributed through the **Blackboard** system. Please check blackboard regularly for updates.

UNIVERSITY POLICIES

Policy Statement on Non-Discrimination on the basis of Disability (ADA). The University is an equal opportunity educational institution. Please read [The University's Policy Statement on Nondiscrimination on the Basis of Disability Americans with Disability Act Compliance](#).

ACADEMIC ACCOMMODATIONS

The University of Toledo is committed to providing equal access to education for all students. If you have a documented disability or you believe you have a disability and would like information regarding academic accommodations/adjustments in this course please contact the [Student Disability Services Office](#).

GRADING

Your grade will be evaluated based on the items below:

Midterm Exam:	30%
Final Exam:	30%
Assignments:	15%
SAP Exercise:	5%
<u>Term Project (Group):</u>	<u>20%</u>
Total	100%

Grading Scale: You may earn grades based on the following scale:

A	≥ 85	B	75 - 80	C	65 - 70
A -	80 - 85	B -	70 - 75	C -	60 - 65
F	< 60				

- **Midterm Exam (30%):** There will be one midterm exam on October 10, 2016. It will cover certain chapters. See the Tentative Schedule below. The midterm exam will be open book/notes. No computers or electronic devices can be used.
- **Final Exam (30%):** There will be one final exam on November 28, 2016. It will cover certain chapters. See the Tentative Schedule below. The final exam will be open book/notes. No computers or electronic devices can be used.
- **Assignments (15%):** There will be four assignments, which will be posted on Blackboard. See the Tentative Schedule below for the due dates of the assignments. Please make sure you complete the assignments on time. Late assignments will not be graded. Make copies of your assignments for yourself before turning them in.
- **SAP Exercise (5%):** There will be one SAP exercise. The details will be posted on Blackboard. See the Tentative Schedule below for the due date of the SAP exercise. Please make sure you complete the exercise on time.
- **Term Project (20%):** You can choose to work on the term project as a group of two people or alone. Please make your choice and send me an email or tell me in person by September 12, 2016. Please select a topic area you are interested in. See the Tentative Schedule below for the topics covered in the course. This must be related to the general area of production planning and scheduling. Describe the way a specific company has applied the key concepts in the area you have selected. You are required to discuss with me about your term project by November 14, 2016. Eventually, you will turn in a report summarizing what you have found. You will also give a presentation in class.
- **Course Credit:** You may earn credit in the course by passing two or more of the five APICS CPIM certification exams. If you have passed the BSCM plus another one, you may opt for a grade of 'A' on the mid-term exam, or an automatic 'B' in the course. If you passed the BSCM plus two others, you may opt for an automatic 'A' in the course. If you meet any of these criteria, you must present proof within the semester.

NOTES

- You are expected to attend every class.
- You are expected to review the slides and the textbook after each class.

- You are encouraged to spend 10-20 minutes previewing the slides before each class.
- You should use your UT email address to contact me. Use “OPMT 6690” or “OPMT 8690” on the subject line.
- Evidence of cheating on an exam represents academic dishonesty. Academic dishonesty will be dealt with according to college and university regulations.

COURSE SCHEDULE

Week	Date	Topic
1	Aug 22	Introduction Chapter 1: Manufacturing Planning and Control Chapter 2: Enterprise Resource Planning (ERP) Chapter 3: Demand Management
2	Aug 29	Chapter 4: Forecasting
3	Sep 5	No Class: Labor Day
4	Sep 12	Chapter 5: Sales and Operations Planning (SOP)
5	Sep 19	Chapter 6: Advanced SOP Due: Assignment 1
6	Sep 26	Chapter 7: Master Production Scheduling Review Due: Assignment 2
7	Oct 3	No Class: Fall Break
8	Oct 10	Midterm: Chapters 1-7
9	Oct 17	Chapter 8: Material Requirements Planning (MRP) Chapter 9: Advanced MRP
10	Oct 24	Chapter 10: Capacity Planning and Management
11	Oct 31	Chapter 11: Production Activity Control (Scheduling) Chapter 12: Advanced Scheduling Due: Assignment 3
12	Nov 7	Chapter 16: Order Point Inventory Control Methods
13	Nov 14	Chapter 16: Order Point Inventory Control Methods Review
