

SURVEY OF EARNED DOCTORATES (SED) WEB REGISTRATION

Congratulations on completing your doctorate!

The Survey of Earned Doctorates is the definitive source of information on the nation's new research doctorates. Sponsored by the National Science Foundation and five other Federal agencies and conducted by NORC, the SED is critical to understanding in what specialty areas doctorates are produced and their post-graduation employment plans. Results are used by government as well as academic institutions to make decisions about graduate education funding, developing new programs and supporting existing ones.

The ability of the survey to accurately describe doctorate earners depends on obtaining responses from all doctorate degree recipients. Your response affects decisions made for the future generations of doctorate recipients.

When you click the link at the bottom of this page, you will be asked to create a User Name and Password. You will be emailed a PIN immediately. With this information, you can access and complete the survey online.

NOTE: When you complete the online survey, in the 'Secondary address' textbox enter karen.mockensturm@utoledo.edu (Main Campus Students) or michelle.arbogast@utoledo.edu (Health Science Campus Students), so that the Graduate College Office will receive notification automatically that you have completed the survey. If you do not do this, you will need to forward a copy of the confirmation e-mail or completion certificate you receive to the appropriate individual or you will need to submit a copy of the completion certificate in person to the Graduate College Office.
