Academic Dishonesty: Academic Dishonest Policy - Department of Health and Rehabilitative Services:

Academic dishonesty will not be tolerated. Students are responsible for knowing what constitutes academic dishonesty. If students are uncertain about what constitutes academic dishonesty, they should seek the instructor's advice. Examples of academic dishonesty include, but are not limited to:

- Plagiarizing or representing the words, ideas or information of another person as one's own and not offering proper documentation; Plagiarizing includes: (a) copying materials from other students from previous years or using another student's work, (b) unauthorized collaboration in the preparation of reports, term papers or theses, and (c) adopting, paraphrasing or reproducing ideas, opinions, theories, formulas, graphics, or pictures of another person without acknowledgment.
- Giving or receiving, prior to an examination, any unauthorized information concerning the content of that examination;
- Referring to or displaying any unauthorized materials inside or outside of the examination room during the course of an examination;
- Communicating during an examination in any manner with any unauthorized person concerning the examination or any part of it;
- Giving or receiving substantive aid during the course of an examination;
- Commencing an examination before the stipulated time or continuing to work on an examination after the announced conclusion of the examination period;
- Taking, converting, concealing, defacing, damaging or destroying any property related to the preparation or completion of assignments, research or examination;
- Submitting the same written work to fulfill the requirements for more than one course, without the instructor's permission.

Should cases of academic dishonesty be found among students, the instructor may choose any of the following actions:

- The instructor may provide a verbal warning to the student.
- The student may be assigned an F for the work in question.
- The student may be assigned an F for the course. In this case the instructor should inform the Chair of the department, the Dean and the student of this action. The Chair and/or Dean will make certain that the student receives the F grade and is not permitted to withdraw from the course.
- The student may be placed on probation or suspended for some definite period of time, dismissed or expelled by the Dean if either the seriousness of the offense or a record of repeated offenses warrants it. A notation that such a sanction has been imposed will be made part of the student's permanent record. It is expected that the Dean will consult with the instructor and the student in making such a judgment, and that the Dean will notify the student of the sanction imposed and of the appeals procedure.
- A record of the academic dishonesty will be filed with the department.
- See the General Catalog and the Student Handbook for additional details.

Extra Credit Assignments: No extra credit projects will be permitted unless the instructor offers it to all students.

Is Health Education a Profession?

The following functions that distinguish a profession have been synthesized from the following two sources:
[Upton, L. (1970); Simons-Morton, B, Green, W., & Gottlieb, N. (1995)]

1. Provide a unique and essential social service.
2. It has a unique body of knowledge.
3. Requires its members to an extensive period of preparation and continuing education.
4. Has a theoretical base underlying its practice.
5. Has a system of internal controls that tends to regulate the behavior of its members.
6. Helps shape legislation.
7. Has freedom from lay control.
8. Be sanctioned by the community.
9. Has strength of identity.
10. Have an occupation association that is representative of all and can speak on behalf of all the member of the occupation.

Rate the field of health education in each of these areas. Decide if you think health education is **not a profession, an emerging profession, or a profession**. Defend your decision in a 1-2 page typed paper. Provide at least 3 references (use the APA format). This paper is worth 15 points and will be graded on content/defense, organization and flow, use of references, and grammar.

Name _____

1. Content/Defense (7 points) _____
 - Information about all 10 criteria for being a profession is included.
 - A defense is provided for the chosen position.

Justification of points:

2. Organization and Flow (4 points) _____
 - The paper is well organized.
 - The paper flows well with ideas connecting to one another.

Justification of points:

3. References (2 points) _____
 - A minimum of 3 references are used.
 - The references are in APA format.

Justification of points:

4. Grammar (2 points) _____
 - There are no grammatical errors.

Justification of points:

Please complete this self-evaluation and submit it with your paper.

Credentialing Paper

Type answers to the following questions after reading the articles and examining the Commission for Health Education Credentialing website (<http://www.nchec.org/>) (Worth up to 15 points). Be prepared to discuss these questions in class.

1. **How much did the Role Delineation Project move the field of health education toward being a profession? Explain your answer.**

2. **After reading the article “Debating CHES” by Pahz, which points were valid? Which points did you disagree with? Why?**

3. **What do you think the responsibility is for individual health educators regarding CHES? Do you think they are the same for community/public vs. school health educators?**

4. **Describe the outcomes from the Competency Update Project (CUP)? How will this affect the health education field/profession?**

5. **What would be the personal benefits to you to become CHES or MCHES certified?**

6. **What are some problems with individual credentialing and what are possible solutions?**

Advanced 2 Level Health Education Competency Self-Assessment

Doctoral students will be required to complete a self-assessment on the Advanced 2 level health education competencies. You will be required to complete the Advanced 2 level health education competency self-assessment form/checksheet, which includes checking your skill/experience level for each sub-competency and the providing a written summary that documents your skill/experience level for each Responsibility. When appropriate, you should provide evidence for meeting the responsibility (e.g. a paper written for class, a power point presentation used with a specific target audience, a published paper, etc.). If you have not met a responsibility/sub-competency, you will need to indicate how, when and where you plan on meeting it in the future. (You should talk to current and past doctoral students, faculty, and read the course descriptions in the course catalog to help determine this). You will not be evaluated based on the number of competencies you meet, rather your explanation and documentation of the responsibilities you do/do not meet.

Evaluation

1. **Completion of the Advanced 2 Level Health Education Competency Self-Assessment Form (the checks for each sub-competency)**

(5 points) _____

2. **The documentation and defense of each Responsibility. You should include examples of work or volunteer experience, descriptions of projects completed through coursework, and any other examples of how you meet each Responsibility. Your descriptions should be clear and concise and be void of any grammatical and spelling errors. For those Responsibilities not met, a description of how, when and where you think you will meet them**

(35 points - 5 points for each Responsibility) _____

Please complete this self-evaluation and attach it to your project.

PAPER – Interview with a Health Education Leader

This assignment requires each student to interview and write a summary paper about a living leader in the field of health education/promotion. You may choose any person within the health education/promotion field who you feel has contributed to the profession in a meaningful way. Choosing the person you will write about is the first step and most important step. You may examine past issues of health education journals to determine who has published significant articles that have helped advance health education. You also may examine past presidents of health education professional organizations and/or individuals who have received awards from professional health education organizations. You may choose individuals who are in key positions in government and voluntary agencies. It is preferred that the interview be conducted via telephone. Email interviews are acceptable only if the leader indicates that he/she would prefer an email interview.

You will be evaluated using the following criteria.

Philosophy of Health Education Assignment

This assignment is to serve as a synthesis of your coursework, your professional work, and your life experiences up to this point in time. It will require you to clarify your thoughts in a succinct fashion, in context of the work of learned societies and scholars in the field. Your paper may take any form that you wish as long as the following simple directions are followed.

1. **Maximum length of the paper is 5, typed double-spaced pages.**
2. **You must reflect your own thoughts, interpretations, and beliefs in context to the body of health education literature.**
3. **You should corroborate/substantiate your thoughts with references to the work of scholars in the field. You must cite any references used by including a reference list (APA format) at the end of your paper. (The reference page does not have to be included as part of the 5-page maximum length).**

Your paper should address the following concepts. Every effort should be made to connect your comments in such a manner that your final paper reads like one essay clarifying your philosophy and indicating the scholars who have influenced your beliefs.

1. **Include your definition of health and health education.**
2. **Include your personal philosophy of health education (You may use one or a combination of philosophies discussed in class).**
3. **Include your goals of health education and how your philosophy coincides with these goals.**
4. **Include your personal beliefs/guiding principles and how they influence your actions in life. In addition, include how these personal beliefs and guiding principles coincide with your philosophy of health education and your personal goals.**
