Reason for change in NURS 522①

The Field Experience Seminar is limited to 2 consecutive semesters of the Master Students final 3 semesters, with approval of the Capstone Faculty. The Capstone project is designed to be a culmination of the student's graduate work. Placing this course at the end of the student plan of study allows for optimal synthesis of student learning.

The Field Experience Seminar may have variable credit equal to 1 credit hour taken concurrently with Nursing Research (NURS 591①), with approval of Capstone Faculty. Some faculty prefer to conduct the Field Experience Seminar over 2 semesters, with the first semester spent in organization and preparation, and the completion of the Field Study in the second semester. For some students, the first semester of the Field Study would be during the semester they are taking NURS 591①.
