

University of Toledo Prerequisite Courses

The following courses are those offered at the University of Toledo that meet the prerequisite requirements for the DPT Program.

CHEM 1230	General Chemistry I
CHEM 1280	General Chemistry Lab I
CHEM 1240	General Chemistry II
CHEM 1290	General Chemistry Lab II
BIOL 2150	Fundamentals of Life Sciences I
BIOL 2160	Fundamentals of Life Sciences Lab I
BIOL 2170	Fundamentals of Life Sciences II
BIOL 2180	Fundamentals of Life Sciences Lab II
PHYS 2070	General Physics I
PHYS 2080	General Physics II
PSY 1010	Principles of Psychology
PSY XXXX	Any other psychology course with a "PSY" prefix and with PSY 1010 as a prerequisite. However, psychology courses with statistics or research content will not apply to the psychology prerequisite.

Highly Recommended Courses

- Anatomy and Physiology
- Exercise Physiology
- Biomechanics
- Statistics

These courses are recommended at the undergraduate level to help prepare the student for the DPT coursework.

Equivalency Determination of Prerequisite Courses

If prerequisite courses are completed at another institution, please use the list above to determine if it is an equivalent course.

To do so, visit <http://www.utoledo.edu/admission/tca/index.html> and click on one of the four bulleted items ("Ohio Schools", "Michigan Schools", etc.) and click on your institution.

If your institution is not listed within one of the four bulleted areas, click on the www.transfer.org website and:

- Click on Guest Login
- Click on Equivalency by School
- Select University of Toledo
- Find your institution
- Click on Add Schools
- Click on Create Guide

If you still have questions about course equivalencies, e-mail the course description, syllabus, the UT prerequisite course for which you want it to count and your contact information to cas@utoledo.edu.
