Procedure for setting up PEAP (Wireless) on a Windows XP machine at the University of Toledo
1. Click on the **Start Menu** button and open the **Control Panel**.

2. Double click on **Network Connections**.
3. Right click on the **Wireless Network Connection** and select **Properties**.

4. Select the second Tab (**Wireless Networks**).
5. Select **Private** under the **Preferred Network area**.

6. Make sure **Private** is highlighted and click the **Properties** button.

7. Make sure the **Network Authentication** is set to **Open** and the **Data encryption** is set to **WEP**
8. Click on the **Authentication Tab**.

![Authentication Tab](image1)

9. Click on the **Properties** button under EAP type.

![Properties Button](image2)
10. Click on the **Configure** button next to EAP-MSCHAP v2.

11. Uncheck the box *(Automatically use my Windows Logon name and password)*.

12. Click **OK**.
13. Click **OK** again.
14. Click **OK**.
15. Click **OK**.
16. Right click on the **Wireless Network Connection** and select **View Available Wireless Connections**.
17. Select **Private** and click the **Connect** button.

18. A box will pop up at the bottom right hand corner (**See below**).
19. Click on it and another box will show up asking for a User Name, Password, and Domain.

20. Type in your UTAD User ID, your UTAD password, and UTAD for Logon domain.
21. Click OK.
22. A box will pop up (Validate Server Certificate)

23. Click Ok
24. It will connect you to the UT wireless Network using PEAP.
