VPN Client Installation

1. Open your web browser (IE, Firefox, and Safari are supported) and point to http://myvpn.utoledo.edu. You will see a screen like this.

2. Log in with your UTAD credentials. The install will begin and you will see the following messages. Accept the security message if the digital signature has been verified.
Using Sun Java for Installation

Security Warning
Attempting to launch the Sun Java applet which is digitally signed by Cisco Systems. In order to properly download and install the plug-in, be sure to click “Yes” on the security pop-up.

Warning - Security
The application’s digital signature has been verified. Do you want to run the application?

Name:  idJavaSun
Publisher:  Cisco Systems, Inc.
