Finding Articles

For journal articles, newspaper articles, and magazine articles, we suggest you search the UT Libraries' Research Databases: http://www.ohiolink.edu/resources.cgi?by=subject These sources lead to more full-text than do Google, Google Scholar, Yahoo, etc. An excellent search is a keyword one that combines 2 concepts. Note the use of the AND to connect our two concepts:

Example keyword search: **Elderly and "mental health"**
