

Step-by-Step Searching in MD Consult

This help sheet will walk you through a sample search in the database **MD Consult**. For more detailed information on the **MD Consult** database, please consult the **MD Consult** help sheet or contact Mulford Reference Assistance at MulfordReference@utoledo.edu or 419-383-4218.

Our topic:

We are looking for review articles written in the past 5 years on treating hypertension in older people who also have diabetes.

1. From the library's homepage (<http://hsc.utoledo.edu/lib/index.html>), go to the **Full Text Resources** link at the top of the page (<http://hsc.utoledo.edu/lib/fulltext.html>). Click on the **MD Consult** link
2. On the main **MD Consult** search page, click on the **Advanced Search** link to the right of the search box
3. From the **Search Within** drop-down menu, choose **Journal/Medline**
4. In the **Enter Phrase or Phrases** box, type in **hypertension AND diabetes**
5. From **Search With** focus drop-down menu, choose **Treatment**
6. In the **Year** drop-down menu choose **2001-present**
7. Under the **Subject Age** drop-down menu choose **Aged**
8. From the **Article Type** drop-down menu, choose **Review**
9. Click on **Search**
