Program Description
Strength of our program

- Our education-oriented medicine programs focus on the training of excellent physicians in a supportive atmosphere.

- Our faculty are accessible and are excellent bedside teachers.

- Our residents are exposed to a variety of medical cases over a diverse patient population.

- Our curriculum is challenging, but it is directed toward helping you become the most competent physician possible.
EVALUATIONS

- Monthly evaluations from attending faculty and other residents
- Evaluations of residents performed by nursing and clerical staff.

Our Residents
Internal Medicine Board Review Course

“We are committed to educate our residents and see them excel in the Internal Medicine Board examination. We conduct an intense, 5-day Board review session for our graduating residents towards this goal.”
Our faculty, residents and their families gather for a formal dinner to award and congratulate those residents that are moving to their next stage of life.
Welcome Picnic

At the beginning of each year our program invites our new residents, current resident, faculty and families of all to come together for a Welcome Picnic.
