2006 – Present	Harbor Behavioral Healthcare
2011 – Present	Rescue Mental Health
2013 – Present	Renewed Mind
2013 – Present	Unison

MAJOR RESEARCH INTERESTS:

My interest has been in childhood mood and anxiety disorders. Specifically, to look into the role played by “bio-psycho-social modal’ in clinical presentation, treatment response as well as complications of the illness. Another interest has been in different “anti-bullying policies” used by schools all over the country and especially in implementing a new “antibullying prevention program” in elementary schools. Lastly to look into the preventive measures which can be effective in reducing the youth suicides and violent acts committed by youth.
