

Title of Clerkship: Medical Intensive Care Unit Acting Internship - UTMC
Elective Type: Acting Internship
Department: Internal Medicine
Clerkship Site: The University of Toledo Medical Center
Course Number: MEDI723
Blocks available: All
Number of students per block: 3
Faculty: Ragheb A. Assaly, M.D., Jeffrey Hammersley, M.D., Dan Olson, M.D., Ph.D., James Willey, M.D., Youngsook Yoon, M.D.

Elective Description/ Requirements: Students serving as acting interns will function in the role of a primary physician for a small number of patients. The resident on the medical service as well as the attending physician will supervise the student. Students will perform all duties expected of an intern on an internal medicine service including performing the initial history and physical and written admitting orders, progress notes and discharge summaries. A didactic and bedside lecture course focused toward the pathophysiology and clinical assessment of all organ systems as they pertain to critically ill patients will be presented. Student management of critically ill patients will emphasize the pathophysiology, assessment and management of respiratory failure (including interpretation of EKG's and the use of mechanical ventilation), the pathophysiology and management of shock and multiple organ failure syndrome (including the use and interpretation of invasive hemodynamic monitoring), and nutritional support of the critically ill. Each acting intern must complete two on-line modules to prepare the acting intern for his/her role as teachers of junior medical students.

Length of Clerkship: 4 weeks
