

Title of Clerkship: Pediatric Hematology/Oncology Elective-Mercy Children's Hospital

Elective Type: Third Year Medical Students

Department: Pediatrics

Type of Elective: Clinical X Non-Clinical/Research Basic Science

Clerkship Site: SV Mercy Children's Hospital 2222 Cherry St. Suite 2600 Toledo 43608 419-251-8223 ph.

Course Number: PEDS766

Blocks Available: All

Number of Students/Block: 1

Faculty Rama Jasty, MD and Brenda Kitchen MD

Elective Description/Requirements: During the Pediatric Hem/Onc elective, students will have the opportunity to participate in the outpatient care of children with cancer and hematologic problems. The elective complements the intensive inpatient PHO experience, and allow the students to recognize that many patients who are acutely ill at the time of diagnosis recover from their morbidities and resume normal activities of childhood and adolescence, even while continuing to receive therap. Students will have the opportunity to see a large number of oncology patients who have completed their treatment regimens and who are followed to monitor disease recurrence.

Length of Clerkship: 4 Weeks

Educational Course Objectives:

1. Explain how to diagnose and manage hematological disorders that generally do not need referral such as: Iron deficiency, Thalassemia trait, Transient erythroblastopenia of infancy or childhood (TEC), and sickle cell trait.
2. Describe the presentation, pathophysiology, and prognosis of common malignancies in children and adolescents.
3. Recognize common short-and long-term effects of cancer therapy.
4. Provide preventive counseling to parents and patients with specific hematology/oncology conditions.
5. Distinguish normal from pathologic states of the hematologic and lymphatic systems.
6. Develop a strategy to determine if presenting signs and symptoms are caused by a hematology/oncology disease process and determine if the patient needs treatment or referral.
7. List indications for and complications related to use of blood products.
8. Describe the general pediatrician's role in the diagnosis and management of patients with sickle cell disease.
9. Describe how various aspects of the health care system affect the care of hemo-onc.

Professionalism:

UT/COM students will meet or exceed the institutional standards for professionalism as stated in the current Educational Program objectives and the current Educational Course Objectives for the Sponsoring Department
