Educational Course Objectives: At the end of the rotation the student will be able to:

1. Demonstrate proficiency at performing the trauma protocol
2. Summarize the history and physical exam and compose a differential diagnosis and treatment plan
3. List the most common causes of traumatic injuries and surgical problems and how to treat them
4. Interpretation of imaging/radiographic studies
5. Acquire skills to assist in wound care, surgical endoscopy, abdominal, endocrine, and cancer surgery
6. Acquire basic operative procedure techniques including suturing and laparoscopic procedure techniques
7. Manage a patient pre and post operatively
8. Demonstrate the ability to participate in surgical procedures respecting sterile technique and universal precautions
9. Prioritize management of therapeutic options
10. Write a complete and accurate daily progress note including interpretation of results of laboratory and radiographic/imaging studies
11. Accurately present patient information concerning the patient's condition, progress and results of laboratory and radiographic/imaging studies

Professionalism: UT/COM students will meet or exceed the institutional standards for professionalism as stated in the current Educational Program Objectives and the current Educational Course Objectives for the Sponsoring Department.

Instructional Methods:

1. Interpretation of lab data
2. Diagnostic tests-use/interpretation
3. Small group discussions
4. Case studies
5. Ambulatory care experience
6. Grand rounds
7. Teaching rounds
8. Residency program/department conferences

Evaluation methods employed: (please make selection from CurrMIT list)

1. Clinical competency evaluations
