

DAVID E. KRANTZ

University of Toledo
Department of Environmental Sciences
Toledo, OH 43606

Mail Stop 604
E-mail: david.krantz@utoledo.edu
Phone: (419) 530-2662

EDUCATION:

Ph.D. Marine Science, University of South Carolina, 1988; dissertation: *Stable isotopes of oxygen and carbon in mollusk shell carbonate: Interpretive models and applications.*

M.S. Marine Science, University of South Carolina, 1983; thesis: *Environmental and growth information from stable isotope records in the sea scallop, Placopecten magellanicus.*

B.S. Biology, College of William and Mary, 1979

EXPERIENCE:

2004-present	Associate Professor, University of Toledo, Department of Environmental Sciences
2001-2004	Assistant Professor, University of Toledo, Department of Environmental Sciences
2001-2003	Adjunct Faculty Appointment, U.S. Geological Survey
1997-2001	Physical Scientist, U.S. Geological Survey, Water Resources Division, Dover, Delaware
1989-1997	Assistant Professor, University of Delaware, College of Marine Studies and Department of Geology (joint appointment)
1988	Hydrologic Technician, U.S. Geological Survey, Water Resources Division, Columbia, South Carolina
1986-1987	Research Assistant, University of South Carolina, Marine Science Program
1986 (Dec)	Visiting Professor, Federal University of Ouro Preto, Brazil,
1985 (Oct-Nov)	Sponsored by PETROBRAS
1983-1984	Instructor, University of South Carolina, Fort Jackson Campus
1981-1982	Teaching Assistant, University of South Carolina, Marine Science Program, Honors College
1979-1981	Laboratory Specialist, Virginia Institute of Marine Science

RESEARCH INTERESTS:

Geological oceanography of estuarine and shelf systems. Quaternary geology and sea-level history of the Atlantic Coastal Plain, estuaries, and continental shelf. Coastal processes, geomorphology, and stratigraphy. Coastal geology of Great Lakes and glacial lakes. Stable isotope geochemistry applied to paleoclimate and marine processes. Hydrogeology of the coastal plain, and interactions between groundwater and estuaries. Transport and fate of nutrients to coastal bays. Applied geophysics: borehole geophysical logging, high-resolution marine reflection seismics, ground-penetrating radar, side-scan sonar, and marine and on-land resistivity.

TEACHING AWARD:

2013 Nominated: Outstanding Teacher Award, University of Toledo
2007-09 Master Teacher, College of Arts & Sciences, University of Toledo

COURSES TAUGHT AT THE UNIVERSITY OF TOLEDO :

Physical Geology	EEES 1010
Geologic Hazards	EEES 1050
Oceanography and Water Resources	EEES 2400
Stratigraphy and Sedimentology (WAC course)	EEES 3200
Earth Materials II: Stratigraphy (WAC course)	EEES 3220
Environmental & Engineering Geophysics	EEES 4620/5620
Senior Geology Seminar	EEES 4920
Glacial Stratigraphy and Geophysics	EEES 6100
Departmental Seminar	EEES 6930
Quaternary Geology	EEES 4200/5200
Special Topics: Coastal Geology	EEES 6980

COURSES TAUGHT PREVIOUSLY (at the Universities of South Carolina and Delaware) :

100/200-level (introductory undergraduate courses)

Introduction to Marine Science 101 & 102 Concepts in Oceanography

600-level (introductory graduate courses)

Marine Geology Paleooceanography
Paleoecology Stable Isotope Geochemistry
Recent Sedimentary Environments (field course) Atlantic Margin Stratigraphy (seminar)

800-level (advanced graduate courses)

Estuarine and Shelf Geological Oceanography Oceanography Seminar: Polar Oceans

ACADEMIC ADVISING:

Full Member of the University of Toledo Graduate Faculty

Principal Advisor

Dilworth, John R. (started 2015) M.S. candidate, University of Toledo, Department of Environmental Sciences. Topic: Delineation and characterization of the Arkona and Whittlesey shorelines of Ancestral Lake Erie.

Wilson, Daniel R. (2014-present) M.S. candidate, non-thesis option, University of Toledo, Department of Environmental Sciences. Topic: The Ottawa Lake basin in Monroe County, southeastern Michigan.

Darmon, Thomas W. 2015. Geophysical applications to measure or monitor the distribution of fresh, brackish, and saline groundwater beneath a barrier island. M.S. Geology (non-thesis), University of Toledo, Department of Environmental Sciences.

Maike, Christopher A. 2014. A flood-tidal delta complex, the Holocene/Pleistocene boundary, and seismic stratigraphy in the Quaternary section off the southern Assateague Island coast, Virginia, USA. M.S. Thesis, University of Toledo, Department of Environmental Sciences, 84 p.

ACADEMIC ADVISING (cont.) :

- Banaszak, Joel F. 2011. Hydrostratigraphic framework for the surficial aquifer in the Indian River Bay, Delaware, watershed. M.S. Thesis, University of Toledo, Department of Environmental Sciences, 208 p.
- Knapp, Jessica (2008-2011) M.S. candidate, University of Toledo, Department of Environmental Sciences. Topic: Stratigraphy and sediment processes of Maumee Bay, western Lake Erie. Withdrew for medical reasons.
- Seifert, Matt (2006-2007) M.S. candidate, University of Toledo, Department of Environmental Sciences. Topic: Mapping Assateague Island, Maryland. Switched to science education and earned a Master of Education from University of Toledo.
- Honeycutt, Maria G. 2003. Spatial variability in shoreline change along the Atlantic coast of Delaware: Influence of the geologic framework. Ph.D. Dissertation (Oceanography), University of Delaware, 197 p.
- Honeycutt, Maria G. 1997. Processes and geologic history of the southwestern margin of Delaware Bay. M.S. Thesis (Oceanography), University of Delaware, 112 p.
- Khim, Boo Keun 1996. Stable isotope chemistry of marine mollusks and paleoceanography of the Bering Strait region during the last interglaciation. Ph.D. Dissertation (Oceanography), University of Delaware, 167 p.
- Bock, Katherine W. 1993. A paleoenvironmental interpretation of the late Pleistocene of Gomez Pit, Virginia, using the stable isotopes of oxygen and carbon. M.S. Thesis (Oceanography), University of Delaware, 123 p.

Undergraduate Research Advisor

- Cholette, Heather 2013. Overwash processes on Assateague Island, Maryland.
- Miller, Alice 2013. Glacial and post-glacial stratigraphy of Maumee Bay, Lucas County, Ohio.
- Sears, Lindsey 2012-13. Ground-penetrating radar stratigraphy of the Oak Openings Sand Ridge, Lucas County, Ohio.
- Norton, Abby 2005. Saline and hypersaline groundwater under Assateague Island, Maryland. Honors Thesis, University of Toledo Honors Program, and Department of EEES, 103 p.

Co-Advisor

- Norton, Abby N. 2008. Post-glacial stratigraphy and sand resources in the Western Basin of Lake Erie. M.S. Thesis, University of Toledo, Department of Environmental Sciences. [Co-advised with Alison Spongberg]
- Hall, Sagit 2005. Hydrodynamics of freshwater ponds on a siliciclastic barrier island, Assateague Island National Seashore, Maryland. M.S. Thesis, University of Maryland MEES Program, 172 p. [Co-advised with Douglas Levin, University of Maryland Eastern Shore]
- Harris, M. Scott 2000. Influence of a complex geological framework on Quaternary coastal evolution: An example from Charleston, South Carolina. Ph.D. Dissertation (Geology), University of Delaware, 331 p. [Co-advised with John Wehmiller]
- Daly, Julia F. 1997. Ground-penetrating radar investigation of Holocene and Pleistocene spit complexes in southeastern Delaware. M.S. Thesis (Geology), University of Delaware, 161 p. [Co-advised with Susan McGeary]

Co-Advisor (cont.)

- Murphy, Stephanie 1996. A seismic study of the youngest paleo-incised valley of the Delaware River. M.S. Thesis (Geology), University of Delaware, 110 p. [Co-advised with John Madsen]
- Sotsky, Jill M. 1995. Ground-penetrating radar imaging of Quaternary stratigraphy in Delaware. M.S. Thesis (Geology), University of Delaware, 131 p. [Co-advised with Susan McGeary]

Advisory Committee Member

- Groat, Lucas (started 2014) M.S. candidate, Department of Environmental Sciences, University of Toledo. Topic: Hydrogeologic model of wet-prairie habitat, western Lucas County, Ohio. [Jamie Martin-Hayden primary advisor]
- Blockland, Joseph 2013. The Surficial Geology of Fulton County, Ohio: Insight into the Late Pleistocene-Early Holocene Glaciated Landscape of the Huron-Erie Lake Plain, Fulton County Ohio, USA. M.S. Thesis, University of Toledo, Department of Environmental Sciences. [Tim Fisher primary advisor]
- Baca, Kira 2013. Environmental impacts on the development and dune activity of Oxbow Lake along the southwest coast of Lake Michigan at Saugatuck, Michigan USA. M.S. Thesis, University of Toledo, Department of Environmental Sciences, 150 p. [Tim Fisher primary advisor]
- Swan, Kathie 2012. Sorption characteristics of veterinary antibiotics monensin and lasalocid to soil clay constituents kaolinite, illite and montmorillonite. M.S. candidate, University of Toledo, Department of Environmental Sciences. [Alison Spongberg primary advisor]
- Anderson, Brad G. 2011. Estimating the duration of ancestral Lake Erie using varve analysis at and above the Warren Stage in Northwest Ohio. M.S. Thesis, University of Toledo, Department of Environmental Sciences. 113 p. [Tim Fisher primary advisor]
- Hanes, Barbara E. 2010. Paleo-storminess in the southern Lake Michigan basin as recorded by eolian sand downwind of dunes. M.S. Thesis, University of Toledo, Department of Environmental Sciences. 176 p. [Tim Fisher primary advisor]
- Bobak, Deanna M. 2010. Polycyclic aromatic hydrocarbon characterization in Otter Creek, Northwest Ohio. M.S. Thesis, University of Toledo, Department of Environmental Sciences. 96 p. [Alison Spongberg primary advisor]
- Campbell, Melinda 2009. The evolution and chronology of the Lake Warren shoreline in the Oak Openings region of Ohio, USA. M.S. Thesis, University of Toledo, Department of Environmental Sciences. 132 p. [Tim Fisher primary advisor]
- Castaneda, Mario 2009. The origin and dynamics of coastal processes at Sand Point, Pictured Rocks National Lakeshore, Michigan, USA. M.S. Thesis, University of Toledo, Department of Environmental Sciences. 139 p. [Tim Fisher primary advisor]
- Fisher, James H. 2009. Use of hydrologic models at the King Road Landfill, Lucas County, Ohio. M.S. Thesis, University of Toledo, Department of Environmental Sciences. [James Martin-Hayden primary advisor]
- Friedhoff, Michael J. 2009. Geophysical mapping of karst features at Sheriden Cave, Wyandot County, Ohio. M.S. Thesis, University of Toledo, Department of Environmental Sciences. 44 p. [Don Stierman primary advisor]

Advisory Committee Member (cont.)

- Gallant, Patricia 2008. Geophysical characterization of surficial Quaternary sediments, Lucas County, Ohio. M.S. Thesis, University of Toledo, Department of Environmental Sciences. [Don Stierman primary advisor]
- Wikel, Geoffrey L. 2008. Variability in geologic framework and shoreline change: Assateague and Wallops Islands, Eastern Shore of Virginia. M.S. Thesis, Virginia Institute of Marine Science.
- Austin, Brittany F. 2007. Holocene paleoecology and climate change in Silver and Stony Lakes, Oceana County, Michigan, USA. M.S. Thesis, Department of Environmental Sciences, University of Toledo, 122 p. [Mark Camp and Tim Fisher co-advisors.]
- Brandeberry, Jessica 2007. A passive seismic investigation of the crustal structure under Ohio. M.S. Thesis, University of Toledo, Department of Environmental Sciences. [Don Stierman primary advisor.]
- Haponski, Amanda 2007. Molecular, morphological, and biogeographic resolution of cryptic taxa in the Greenside Darter *Etheostoma blennioides* complex. M.S. Thesis, University of Toledo, Department of Environmental Sciences. (thesis reader)
- Timmons, Emily 2007. Evolution of coastal dunes on the Lake Michigan shore near Holland, Michigan. Senior thesis, Department of Geological & Environmental Sciences, Hope College, Holland, Michigan.
- Mierzwiak, Sara 2006. Enhanced *in situ* bioremediation of a trichloroethylene hotspot using a dilute vegetable oil emulsion. M.S. Thesis, Department of EEES, University of Toledo, 89 p.
- Boudreau, Amber M. 2005. Constraining the Nipissing transgression in the central Lake Michigan Basin. M.S. Thesis, Department of EEES, University of Toledo, 119 p.
- Weyer, Kelly A. 2005. Eolian sand in lacustrine sediment: A proxy for water levels in the Lake Michigan Basin. M.S. thesis, Department of EEES, University of Toledo, 111 p.
- Mitchell, Brian 2005. Identification and mapping of Greenland Gap (Upper Devonian) units on the eastern limb of Sideling Hill syncline, Hampshire, Hardy, and Morgan Counties, West Virginia. M.S. thesis, Department of EEES, University of Toledo, 101 pages, 21 plates.
- Schwartz, Matthew C. 2002. Using excess radon-222 to assess submarine groundwater discharge in the Delaware River and Bay estuary. Ph.D. Dissertation (Oceanography), University of Delaware, 169 p.
- Donohoe, Lisa C. 2001. The use of ground penetrating radar to determine the geometry and heterogeneity of a surficial aquifer in eastern Maryland. M.S. Thesis (Geology), University of Delaware, 170 p.
- Khalequzzaman, Mohamed 1997. Conformability of the Holocene transgressive barrier-nearshore facies along the estuarine and oceanic coasts of Delaware. Ph.D. Dissertation (Geology), University of Delaware, 350 p.
- O'Neal, Michael L. 1997. Ground-penetrating radar analysis of composite Quaternary coastal terraces on the northern margin of the Delaware Bay. Ph.D. Dissertation (Geology), University of Delaware, 260 p.
- Carey, Wendy L. 1996. Transgression of Delaware's fringing tidal salt marshes: Surficial morphology, subsurface stratigraphy, vertical accretion rates, and geometry of adjacent and antecedent surfaces. Ph.D. Dissertation (Oceanography), University of Delaware, 639 p.

Advisory Committee Member (cont.)

- Hippensteel, Scott P. 1995. Foraminifera as indicators of overwash deposits and barrier island sediment supply, Folly Beach, South Carolina. M.S. Thesis (Geology), Univ. Delaware, 128 p.
- Fletcher, Ruth R. 1994. Comparative planktonic foraminiferal biostratigraphy of the Colombia Basin and northeast Gulf of Mexico. Ph.D. Dissertation (Geology), Univ. of Delaware, 580 p.

- Self-Trail, Jean M. 1993. Late Pleistocene planktonic foraminiferal biostratigraphy and paleoecology of DSDP Site 606, Mid-Atlantic Ocean. M.S. Thesis (Geology), University of Delaware, 261 p.
- Lussier, William W. 1992. The effect of substratal texture on settlement, growth, and condition of the eastern oyster *Crassostrea virginica* (Gmelin). M.S. Thesis (Marine Studies), University of Delaware, 96 p.

PROPOSALS SUBMITTED: (University of Toledo)

- 2015 Developing a New General Education Course, Environmental Geology. University Teaching Center, Office of the Provost, University of Toledo. Co-PIs David Krantz and Alison Spongberg. (funded)
- 2010-2011 Hydrologic Assessment of the Potential Effects of Sea-Level Rise on Natural Resources, Assateague Island National Seashore. U.S. Geological Survey, through the Cooperative Ecosystem Studies Unit, Great Lakes-Northern Forests CESU. \$17,500. (funded)
- 2010-2012 Long-term monitoring of the effects of accelerated sea-level rise and climate change on Assateague Island National Seashore. \$85,000. PI: Carl Zimmerman, National Park Service. (funded, but internal to the NPS)
- 2009-2012 *Collaborative research: Quantifying geologic and temporal controls on water and chemical exchange between groundwater and surface water in coastal estuarine systems.* Submitted to the National Science Foundation. PI: Holly Michael, University of Delaware. Co-PIs: John Bratton, David Krantz, Lenny Konikow, Scott Andres. \$525,000. (funded; UT portion \$80,500)
- 2007-2009 *Shallow stratigraphic framework and sediment budget for the nearshore shelf, La Ceiba, Honduras.* Submitted to USAID Honduras (not funded).
- 2007-2008 *Synthesis of geomorphologic and hydrogeomorphic data for resource management maps.* Submitted to the National Park Service, Natural Resource Preservation Program. PI: David Krantz. \$25,000 (not funded).
- 2007-2008 *Function of a mitigation wetland at Maumee Bay State Park, Lucas County, Ohio.* Cooperative with U.S. Department of Agriculture, Ohio Department of Natural Resources, and City of Oregon, Ohio. \$511,000 (funded).
- 2006-2008 *Evaluating sand resources in the Western Lake Erie Basin.* Submitted to the Lake Erie Protection Fund. Co-PIs: Alison Spongberg and David Krantz. \$10,000 (not funded).

PROPOSALS SUBMITTED: (cont.)

- 2006-2008 *Digital geomorphologic and hydrogeomorphic maps for Assateague National Seashore, Maryland and Virginia*. National Park Service, Cooperative Ecosystem Studies Unit (CESU). PI: David Krantz. \$78,330 (funded).
- 2005-2007 *Towards a Chincoteague Inlet management plan: Considering the influence of geologic framework on coastal change and hazards*. Proposal to the Virginia Coastal Resources Management Program, Co-PIs: Geoffrey Wikel, Carl Hobbs (Virginia Institute of Marine Science), and David Krantz. \$80,860, with subcontract to UT, (not funded).
- 2006-2008 *Science-Based Restoration of Oak-Openings in an Urban-Agricultural Landscape: an Initiative for a Consortium for Oak-Openings Research & Education (CORE)*. Proposal to the U.S. Department of Agriculture, and the Cooperative Ecosystem Studies Unit (CESU) of the National Park Service, PI: Jiquan Chen, with 12 Co-PIs from University of Toledo and Bowling Green State University. \$1,506,000 (not funded).
- 2005-2007 *Quantifying submarine ground-water discharge to a section of the Delaware River Estuary*. Pre-proposal to Delaware Sea Grant. PI: David Krantz, Co-PIs: Matthew Schwartz, John Madsen. \$103,800 (not funded).
- 2005-2008 *Geomorphology, soils, and ground water as the foundation for the vegetation community on Assateague Island*. National Park Service. PI: David Krantz, Co-PI: Glenn Guntenspergen (U.S. Geological Survey). \$301,000 (not funded).
- 2005-2007 *New Initiatives in Coastal Wetlands Research and Restoration in Western Lake Erie*. Pre-proposal to the U.S. Department of Agriculture, PI: Hans Gottgens, Co-PIs: Alison Spongberg, David Krantz, Daryl Dwyer. \$1.5M (not funded).
- 2004-2006 *Phytoremediation plant research III: Otter Creek restoration, Lucas County, Ohio*. Proposal to the U.S. Department of Agriculture, PI: Daryl Dwyer, Co-PIs: Alison Spongberg, David Krantz, Von Sigler. \$532,000 (funded).
- 2003-2005 *Phytoremediation plant research II: King Road Landfill site, Lucas County, Ohio*. Proposal to the U.S. Department of Agriculture, PI: Daryl Dwyer, Co-PIs: Alison Spongberg, David Krantz, Von Sigler. \$595,000 (funded).
- 2003 *The effect of Pleistocene shorelines on modern shoreline retreat rates, Delaware and Maryland Atlantic coast*. University of Toledo Undergraduate Summer Research and Creative Activity Program, \$2,750 (submitted by Abby Norton, with David Krantz as faculty advisor) (funded).
- 2003 *Workshop to strengthen academic instruction and research in phytoremediation and studies in the Lake Erie Basin*, University of Toledo Program for Academic Excellence, \$8,500 (not funded).
- 2003-2004 *Hydrogeology of freshwater ponds on Assateague Island, Maryland*. Co-PIs: Douglas Levin (University of Maryland, Eastern Shore) and David Krantz. National Park Service Cooperative Ecosystem Studies Unit (CESU) Program. \$28,000 (funded).
- 2003-2005 *Decision support system for the Auglaize River basin*. Proposal to National Science Foundation, Water Cycle Research Program, PI: Czajkowski, K. (Krantz as a co-investigator). \$784,000 (not funded).

PROPOSALS SUBMITTED: (cont.)

- 2002-2003 *Hydrogeology of Delmarva coastal bays: Stratigraphy, ground-water flow, and nutrient transport.* University of Toledo Summer Research Awards and Fellowship Program, \$10,000 (not funded).
- 2002-2003 *Quaternary geologic history and surficial geology of the Snow Hill, Maryland, 1:24,000 quadrangle.* PI: David Krantz. U.S. Geological Survey, EDMAP Component of the National Cooperative Geologic Mapping Program. \$10,000 (funded).

RESEARCH SUPPORT:

- 2015 Developing a New General Education Course, Environmental Geology. University Teaching Center, Office of the Provost, University of Toledo. Co-PIs David Krantz and Alison Spongberg. (funded)
- 2010-2011 Hydrologic Assessment of the Potential Effects of Sea-Level Rise on Natural Resources, Assateague Island National Seashore. U.S. Geological Survey, through the Cooperative Ecosystem Studies Unit, Great Lakes-Northern Forests CESU. \$17,500. (Funded)
- 2009-2012 *Collaborative research: Quantifying geologic and temporal controls on water and chemical exchange between groundwater and surface water in coastal estuarine systems.* Submitted to the National Science Foundation. PI: Holly Michael, University of Delaware. Co-PIs: John Bratton, David Krantz, Lenny Konikow, Scott Andres. \$525,000. (Funded; UT portion \$80,500)
- 2007-2008 *Function of a mitigation wetland at Maumee Bay State Park, Lucas County, Ohio.* Cooperative with U.S. Department of Agriculture, Ohio Department of Natural Resources, and City of Oregon, Ohio. Co-PIs: D. Dwyer, D. Krantz, T. Fisher, K. Egan, and A. Spongberg \$511,000.
- 2006-2007 *Research vessel support for a seismic survey of the Western Basin of Lake Erie.* Co-PIs: Alison Spongberg and David Krantz. Ohio Sea Grant, Stone Laboratory, \$5000.
- 2006 *Survey of shoreface sand ridges off Ocean City, Maryland.* Cooperative project with Maryland Geological Survey, PI: Bob Conkwright, project supported by U.S. Minerals Management Service.
- 2006-2008 *Digital geomorphic and hydrogeomorphic maps for Assateague Island National Seashore, Maryland and Virginia.* PI: David Krantz. National Park Service, Great Lakes Northern Forest Cooperative Ecosystem Studies Unit (CESU). \$78,330.
- 2006 *Marine resistivity equipment for undergraduate research and courses.* PI: David Krantz, \$48,000, Ohio Board of Regents, Program for Undergraduate Instructional Equipment.
- 2004-2006 *Phytoremediation plant research III: Otter Creek restoration, Lucas County, Ohio.* U.S. Department of Agriculture, PI: Daryl Dwyer, Co-PIs: Alison Spongberg, David Krantz, Von Sigler. \$532,000.
- 2003-2004 *Phytoremediation plant research II: King Road Landfill site, Lucas County, Ohio.* Co-PIs: Daryl Dwyer, David Krantz, Alison Spongberg, Von Sigler (University of Toledo). U.S. Department of Agriculture. \$595,000.
- 2002-2003 *Submarine ground-water discharge to the Delmarva coastal bays.* Project Chief: John Bratton (U.S. Geological Survey); Co-Investigator: David Krantz. U.S. Geological Survey, Coastal and Marine Geology Program. \$214,000.

RESEARCH SUPPORT (cont.) :

- 2002-2003 *Hydrogeology of Delmarva coastal bays*. Project Chief: David Krantz. U.S. Geological Survey, Office of Ground Water. \$15,000.
- 2003-2004 *Hydrogeology of freshwater ponds on Assateague Island, Maryland*. Co-PIs: Douglas Levin (University of Maryland, Eastern Shore) and David Krantz. National Park Service Cooperative Ecosystem Studies Unit (CESU) Program. \$28,000.
- 2003-2004 *Survey of ground-water discharge to Chincoteague Bay, Maryland and Virginia*. PI: Dan Phelan (U.S. Geological Survey); Co-Investigator: David Krantz. National Park Service Assateague Island National Seashore. \$49,400.
- 2002-2003 *Quaternary geologic history and surficial geology of the Snow Hill, Maryland, 1:24,000 quadrangle*. PI: David Krantz. U.S. Geological Survey, EDMAP Component of the National Cooperative Geologic Mapping Program. \$10,000 (renewable for a second year).
- 2002-2003 *Influence of geologic framework on shoreline retreat rates, Assateague Island National Seashore, Maryland and Virginia*. Co-PIs: David Krantz and Douglas Levin (University of Maryland, Eastern Shore). National Park Service Cooperative Ecosystem Studies Unit (CESU) Program. \$99,600.
- 2001-2002 *Age and nutrient content of ground water discharging to Indian River Bay*. Co-PIs: David Krantz and JK Böhlke (U.S. Geological Survey). Delaware Department of Natural Resources and Environmental Control. \$40,000.
- 2001-2002 *Quaternary and late Tertiary geologic history of the central Delmarva Peninsula [mapping project]*. Project Chief: Wayne Newell (U.S. Geological Survey); Co-Investigator: David Krantz. U.S. Geological Survey, Cooperative Geologic Mapping Program.
- 2001 *Pathways of ground-water flow to Indian River Bay, Delaware*. The Center for the Inland Bays. \$10,000. [To supplement the coastal bays hydrogeology project].
- 2000-2002 *Hydrogeology of Delmarva coastal bays: Integration of technologies*. Project Chief: David Krantz. U.S. Geological Survey, Office of Ground Water. \$140,000.
- 2000-2001 *Hydrogeologic framework of the surficial aquifer, Southeast Atlantic Coastal Plain [South Carolina and Georgia]*. Project Chief: David Krantz. U.S. Geological Survey, National Water-Quality Assessment Program. \$37,000.
- 2000 *Marine resistivity survey in Rehoboth and Indian River Bays, Delaware*. Co-PIs: John Madsen, David Krantz, and Frank Manheim. Delaware Sea Grant. \$6,000.
- 1999-2000 *Hydrogeologic framework of the surficial aquifer, Mid-Atlantic Coastal Plain*. Project Chief: Judy Denver (U.S. Geological Survey); Co-Investigators: Scott Ator and David Krantz. USGS National Water-Quality Assessment Program. \$380,000.
- 1999-2000 *Geological framework of the Delmarva coastal bays*. Project Chief: Frank Manheim (U.S. Geological Survey); Co-Investigators: David Krantz and John Bratton. U.S. Geological Survey, Coastal and Marine Geology Program. \$150,000.
- 1999 *Patuxent River Basin nonpoint source study*. Project Chief: David Krantz. Maryland Department of the Environment. \$45,000.
- 1999 *Geophysical studies of the Delaware Inland Bays*. Center for the Inland Bays. \$10,000. [Support for my participation in the CISNet project listed below].

RESEARCH SUPPORT (cont.) :

- 1998-2001 *CISNet: Nutrient inputs as a stressor and net nutrient flux as an indicator of stress response in Delaware's Inland Bays ecosystem*. PI: William Ullman, College of Marine Studies, University of Delaware. U.S. Environmental Protection Agency. \$618,000.
- 1997-2000 *Geohydrologic foundations for ecosystem restoration: Modeling of baseflow loadings of nutrients in Mid-Atlantic Coastal Plain watersheds*. PI: Mohamed Hantush, U.S. Environmental Protection Agency. USGS Project Chief: Joseph Bachman (1997), David Krantz (1998-2000). Initial grant to USGS, \$396,000, supplemental grant, \$140,000.
- 1995-1996 *Marine climates of the U.S. Alaskan Coastal Plain during the late Neogene and Quaternary interglacials*. PI: David Krantz. NSF Polar Earth Sciences Program. \$42,366.
- 1994-1999 *Geochemical integrity, geochronology, and paleoclimatology of late Pleistocene molluscan specimens, U.S. Middle and Southeastern Atlantic Coastal Plain*. Co-PIs: John Wehmiller and David Krantz. NSF Geology and Paleontology. \$249,000.
- 1993-1996 *Stable isotope stratigraphy and paleoceanography of the Bering Strait region during the last interglacial*. PI: David Krantz. Petroleum Research Fund. \$50,000.
- 1993 *Equipment matching grant for purchase of used mass spectrometer*. PI: David Krantz. University of Delaware, Office of the Vice Provost for Research. \$150,000.
- 1991 *Study of the late Neogene development of the Delaware continental shelf*. Co-PIs: J.A. Madsen, D.E. Krantz, J.F. Wehmiller, S. McGeary, and F. Hall. UNOLS/University of Delaware Ship Advisory Council. Four days of ship time on the RV *Cape Henlopen*.
- 1991-1993 *Pleistocene interglacial marine climates, U.S. Middle Atlantic and southeastern Coastal Plains*. PI: David Krantz. NSF Geology and Paleontology. \$65,000.
- 1986-1987 *Stable isotope records of Neogene paleoclimate, U.S. Atlantic Coast*. NSF Paleontology and Stratigraphy. \$58,000 (Support for dissertation research; grant to D.F. Williams).

OTHER RESEARCH ACTIVITIES:

Participation in eighteen research cruises

Extensive geological field work on the Atlantic Coastal Plain, southern New Jersey to Georgia

Geological field work on the western coast of Michigan and in the Lake Erie basin

Field work (selected)

Fall 2014 – Geophysical and stratigraphic surveys Ottawa Lake basin, Monroe County, SE Michigan

Fall 2012 – Geological and geophysical site evaluation Irwin Prairie, Lucas County, Ohio

Summer 2012 – Geological and geophysical survey of Indian River Bay, Delaware

Fall 2011 – Geological and geophysical site evaluation Winameg Ridge, Fulton County, Ohio

Summer 2011 – Geological and geophysical survey of Indian River Bay, Delaware

Summer 2011 – Drilling, well installation, and geophysical survey, Assateague Island, Maryland

Fall 2010 – Geological and geophysical site evaluation Grand Mere State Park, Michigan

Summer 2010 – Geological and geophysical survey of Indian River Bay, Delaware

Fall 2009 – Geological and geophysical site evaluation Grand Mere State Park, Michigan

Field work (cont.)

- Summer 2008 – Geological and geophysical site evaluation Maumee Bay State Park
- Summer 2008 – Geological and geophysical survey of Munising Bay, Lake Superior, Michigan
- Fall 2007 – Geological and geophysical site evaluation Maumee Bay State Park
- May 2007 – Seismic survey in Western Basin of Lake Erie
- October 2006 – Seismic survey in Western Basin of Lake Erie
- August 2006 – Ground-penetrating radar survey, dune field adjacent to Lake Michigan
- June-July 2006 – Seismic survey of shoreface ridges off Ocean City, Maryland
- June-July 2006 – Surface geophysics and mapping on Assateague Island, Maryland
- Sep-Oct 2005 – Surface geophysics and coring, Blue Creek Metropark, Lucas Co., Ohio
- May 2005 – Seismic survey off southern Assateague Island, Virginia
- October 2004 – Surface geophysics on Assateague Island for ground-water and pond studies
- September 2004 – Geophysical surveys in western Michigan lakes and the Oak Openings region of northwest Ohio, with Glacial Stratigraphy and Geophysics course
- June-July 2004 – Seismic surveys – Assateague Island Atlantic shoreface, southern section and Chincoteague Bay, southern section
- May 2004 – Seismic surveys in western Michigan lakes – Silver, Stony, Hamlin
- March-April 2004 – coring at the King Road Landfill site
- October 2003, March and June 2004, October 2004 – Surface geophysics on Assateague Island in support of ground-water and pond studies, including M.S. and Honors thesis research by Sagit Hall and Abby Norton
- July-August 2003 – Co-Project Chief for two-week drilling operation for ground-water study in Chincoteague Bay, Maryland.
- June-July 2002 – Project Chief for five weeks of geophysical surveys, Atlantic Ocean off Assateague Island and Ocean City, Maryland, and in Chincoteague Bay, Maryland.

SEMINARS:

- Eleven seminars at the University of Delaware
- Twenty-five invited seminars at other institutions

Recent seminars

- Public lecture, Lake Erie Center, November 2013
- Public Forum on the Japan Earthquake & Tsunami, March 2011
- Departmental Seminar, University of Toledo, January 2010

Maryland Coastal Bays Program, June 2009
Bowling Green State University, January 2006
Oberlin College, Oberlin, Oh., March 2004
Ohio University, Athens, Oh., May 2003
Maryland Geological Survey, Baltimore, Md., March 2003

SERVICE TO THE UNIVERSITY OF TOLEDO:

2007-2015 Refer to summary in Section G Service Activities

2008 College of A&S Committee on Writing Across the Curriculum (WAC)
2008 Presentation for College of A&S Teaching, Engagement, Advising
2007 Represented Department at University of Toledo Undergraduate Majors Fair
2006-08 Ohio Board of Regents, Transfer Assurance Guides, Subcommittee for Natural Sciences
2006-08 College of Arts & Sciences Council
2006-08 Department Personnel Committee
2006-07 Committee to revise Geology undergraduate curriculum
2005-06 Committee to revise Geology graduate curriculum
2003-04 Co-chairman, EEES Departmental Seminar Series
2003-04 Committee to develop a joint PhD program with Bowling Green State University
2003 Contributed to the OBOR equipment proposal (funded)
2003 Graduate-student recruiting letter to regional colleges and universities
2003 Seminar committee
2002 Contributed to the OBOR equipment proposal (funded)
2001 Faculty search committee
2001 Seminar committee

SERVICE TO THE UNIVERSITY OF DELAWARE:

1995 Committee on Information Resource Planning and Management
1994-95 Search committee for Campus Information Technology Associate for Lewes Campus
1993-95 College of Marine Studies (CMS) Equipment Committee
1992-95 Chair, CMS Computer Committee
1992-95 Computer and Network Services Faculty Advisory Committee
1992-94 Faculty Senate Committee on Instructional Computing and Research Support Services
1993-94 Co-chair, Coordinating Committee for Curriculum in Geological Oceanography
1992-93 Oceanography Program Graduate Student Awards Committee
1992-93 Co-coordinator, Lewes Invitational Seminar Series
1992 Review of geological oceanography curriculum within CMS Oceanography Program
1991-95 CMS Computer Committee
1990-96 Participant in Coast Day (annual College of Marine Studies open house)

SERVICE TO PROFESSIONAL ORGANIZATIONS:

Manuscript Reviews

American Chemical Society, AGU Quadrennial National Report, *Geochimica et Cosmochimica Acta*, *Geo-Marine Letters*, *Journal of Coastal Research*, *Journal of Experimental Marine Biology and Ecology*, *Journal of Great Lakes Research*, *Marine Chemistry*, *Nature*, *Palaios*, *Paleoceanography*, *Quaternary Research*, *Sedimentary Geology*, *South Carolina Geology*, *Transactions of the American Fisheries Society*, *Tulane Studies in Geology and Paleontology*, *Veliger*, chapters for four books, US Geological Survey reports, and US Environmental Protection Agency reports.

Proposal Reviews

AAAS: WISC Program

NASA: Earth Science and Applications Division; Earth Systems Science Fellowship

NSF: Geology and Paleontology; Marine Geology & Geophysics; Polar Programs; Instrumentation & Facilities

NOAA: Climate and Global Change Program; Maryland Sea Grant Program; Delaware Sea Grant Program

Petroleum Research Fund (American Chemical Society)

U.S. Environmental Protection Agency

University of Delaware, College of Agricultural Sciences, Competitive Grants Program

Research Review Panels

US Environmental Protection Agency, 2005, *Science to Achieve Results (STAR) Program*

US Environmental Protection Agency, 2004, *Site Review: Alabama Center for Estuarine Studies*, Dauphin Island Sea Laboratory

US Environmental Protection Agency, 2001, *Ecological Indicators for Gulf of Mexico Estuaries*

US Environmental Protection Agency, 2000, *Environmental Indicators of Estuarine Condition*

[Panel of 30 specialists from various disciplines evaluated proposals for four grants of \$6 million each to develop an integrated, hierarchical set of indicators of estuarine “health” and condition.]

NSF, EAR Small Business Innovative Research, 1990

OTHER SERVICE AND PROFESSIONAL ACTIVITIES:

2009 Participant, NAGT Workshop, Strengthening Geoscience Programs, Williamsburg, VA June 2009

2008 Presenter, Shallow Coastal Stratigraphy Workshop, Coastal Carolina University, Conway, SC, July 9-10, 2008

2006-08 Member, Project Management Team for Maumee Bay State Park wetland and shoreline restoration projects, sponsored by Ohio Department of Natural Resources and Toledo Metropolitan Area Council of Governments (TMACOG)

2006-08 Ohio Board of Regents, Transfer Assurance Guidelines for Geology

2007 External reviewer for Promotion and Tenure, Anthony Foyle, Penn State Erie, The Behrend College, School of Science

2007 External reviewer for Promotion and Tenure, Reed Schwimmer, Rider University, New Jersey, Department of Geological, Environmental and Marine Sciences

OTHER SERVICE AND PROFESSIONAL ACTIVITIES: (cont.)

- 2006 Participant and presenter, *On the Cutting Edge – Professional Development for Geoscience Faculty: Teaching Sedimentary Geology in the 21st Century*, workshop sponsored by the National Science Foundation and the National Association of Geoscience Teachers, Salt Lake City, Utah, July 14-19. Exercise that I created is posted on the workshop website:
<http://serc.carleton.edu/NAGTWorkshops/sedimentary/index.html>
- 2005 Scoping meeting for geologic assessment of Assateague Island National Seashore, for the NPS Geologic Resources Evaluation Program, July 27
- 2002 Presentation: U.S. Geological Survey Sea-Level Rise Workshop, Woods Hole, Mass., September 24-25
- 2002 Convener: Workshop on USGS Research in the Coastal Bays (Delaware and Maryland), Annapolis, Maryland; for State and Federal agencies.
- 2000 Panelist: Public forum on drinking-water supply, Ocean View, Delaware
- 1999-2000 Program Development Work Group, MD-DE District, U.S. Geological Survey
- 1999 Graduate course in Geographic Information Systems (GIS)
- 1998 U.S. Geological Survey training course, *Ground-water/surface-water interactions*
- 1997 Graduate course in Hydrogeology
- 1996-2001 Member, Scientific and Technical Advisory Committee, Center for the Inland Bays (National Estuary Program), Lewes, Delaware.
- 1993 Co-convener, SEPM Symposium, *Episodic Sea-Level Changes in the Quaternary: Evidence from the Southeastern U.S.*
- 1993-94 Co-editor, special symposium issue *Journal of Coastal Research* (for above symposium)
- 1988 Participant in U.S. Geological Survey workshop, *Land-Surface / Atmosphere Interactions, with Emphasis on Evapotranspiration*
- 1988 Participant in U.S. Geological Survey and National Oceanic and Atmospheric Administration workshop, *Geological Indicators of Climate from Marine Environments*

SERVICE TO THE COMMUNITY:

- 2007-14 Ocean basins exercise, Timberstone Junior High School, Sylvania, Ohio
- 2006 Developed a map-based exercise on the ocean basins for middle school; presented the exercise to 8th grade classes at Timberstone Junior High, Sylvania, OH
- 2005 Presentations about the oceans to 5th grade Gifted & Talented program, Toledo, Ohio
- 2004 Presentations about the oceans to 2nd grade at St. Clement's Elementary, Toledo, Ohio
- 2003 Presentations about the oceans to 2nd grade at Stranahan Elementary, Sylvania, Ohio
- 2001-2009 Coach, Sylvania United Soccer
- 2001-2003 Coach, Sylvania Youth Soccer Association
- 1998-2000 Director, Milton Youth Soccer Program
- 1996-2000 Coach, Milton Youth Soccer Program
- 1996-2000 Coach, Milton Little League Baseball
