

Fraleigh Scholarship

Dr. Peter C. Fraleigh Memorial Scholarship

Submission of a single application qualifies you for consideration for the Black, Fraleigh, Wolfe and Tramer scholarships if you meet the specific criteria established for each.

2017-18 Scholarship Guidelines

Recipient shall be an undergraduate at The University of Toledo majoring in biology (BIOM), environmental sciences (ENSC) or environmental studies (ENST). Applicants must have a cumulative GPA of 3.0 or higher, shall be interested in a career in ecology, environmental sciences or biology, and shall have submitted a 500-word essay to describe why they are interested in the field. All recipients must continue for Academic Year 2017–2018 as a full time student making progress toward their degree.

Deadline for submission: March 17, 2017

Announcement of awards: April 14, 2017

Presentation of awards: April 28, 2017

Amount of the award: \$600

The application form is available from the Department of Environmental Sciences office (Wolfe Hall 1235). Submit applications to: Dr. Gottgens, Department of Environmental Sciences (MS 604).

Dr. Peter Fraleigh, a retired University of Toledo professor of aquatic ecology, dedicated much of his life towards realizing the dream of restoring fishable and swimmable waters in Lake Erie since he joined the UT faculty in 1972. As one of the founders of the Maumee Bay Watershed Project, he enabled hundreds of students to experience water sampling firsthand and learn how these results are valuable in improving water quality in the Maumee River watershed. Dr. Fraleigh also was instrumental in the success of the Maumee Remedial Action Plan, where he played a key role in devising goals and strategies to ultimately restore the Maumee River Area of Concern. In 1999, an unnamed tributary to the Ottawa River was named after Dr. Fraleigh in honor of his lifelong work and determination to improve the quality of life for all people in northwest Ohio.
