Duties include:
• Assist LEC staff with various projects and programs
• Help teach summer science camps
• Care for LEC educational fish aquaria
• Give tours and help with group visits and internships
• Distribute flyers and brochures
• Help create and update educational displays
• Perform daily office tasks as needed

Qualifications:
We seek an enthusiastic student with good communication and organizational skills, careful attention to detail, a willingness to teach and learn, demonstrated reliability, and self motivation. Interest and/or experience in the Great Lakes and the environment is a plus. Science or education majors are preferred.

Logistics:
• Must be a UT undergraduate student (can be work study)
• Willing to work off campus at Lake Erie Center
• Willingness to work evenings once per month a plus, but not required
• Position is paid and may continue through the academic year
• Hours are negotiable (based on the needs of the student and LEC staff)

To apply: Send resume and cover letter to rachel.lohner@utoledo.edu. Please include at least two references.
