

# A VIEW OF THE STARS FROM TOLEDO TO WASHINGTON, D.C...

**White House Astronomy Night**  
**FREE and open to all**

**Monday, Oct. 19, 7:30-9:30 p.m.**

**Ritter Planetarium on UT's Main Campus**

Join President Obama and stargazers across the country for this seventh annual event. UT's Ritter Planetarium is one of hundreds nationwide to host this free program; participants of all ages and levels of interest are encouraged to celebrate the White House Astronomy Night with us!

In addition to examining the heavens (weather permitting) through Ritter's 42-inch telescope — the largest optical telescope east of the Mississippi River — you'll enjoy lectures by UT astronomers, planetarium shows, physics demonstrations, and even liquid nitrogen ice cream.

**FOR MORE INFORMATION ABOUT RITTER PLANETARIUM, GO TO [RITTER.UTOLEDO.EDU](http://RITTER.UTOLEDO.EDU).**

THE UNIVERSITY OF  
**TOLEDO**
