INTERNATIONAL NURSING VISITOR PROGRAM

HUNGKUANG UNIVERSITY TAIWAN

JUNE 30 – JULY 10, 2013
Hungkuang University has many work study programs available for students on campus. Recognizing the importance of nursing quality in providing medical treatment, Dr. Yui Lin Wang, a distinguished medical doctor, declared his intention to establish a system of practical education with the purpose of training qualified nurse technicians. The mission is to foster a challenging and valuable learning environment for all students at Hungkuang University. Under the guidance of the current president, Dr. Kuo Chuan Fang, the university continues to follow its developmental plans.

Hungkuang University is located in Taichung County, the central part of Taiwan. There are five colleges, 15 departments and two independent institutes in Hungkuang, including the College of Medicine and Nursing, Human Ecology, Engineering, Management, Humanities and Social Sciences. There are more than 300 full-time faculty professors. And there are more than 10,000 students. To enhance humanistic and spiritual cultivation, the University offers common distribution courses in general education and has an arts center that makes significant contributions to art activities on campus. More than 60 student organizations have been established to serve the various interests of the students. Qualified teachers lead these organizations with the goal of ensuring the students’ achievement of healthy lifestyles and basic life skills.
