AVAILABILITY OF DISCRETIONARY BUCHMAN FUNDS
Student-Initiated Research

This call is to solicit applications for an award from the Buchman Endowment Fund in the category of discretionary requests for student-initiated research activities.

The purpose of these funds are to provide limited support for activities associated with small research projects or activities that fulfill, in whole or in part, student research activities associated with degree requirements.

Meritorious applications that address one or more of the following criteria will be given the highest priority in awarding funds:

- where project residuals (e.g. software, equipment, etc.) will be made available to other faculty and/or students at project completion

When projects can meet multiple these criteria, they will be given greater consideration.

Eligibility

1. Full- or part-time students in any program of the College of Nursing are eligible to apply
2. Evidence-based projects are not eligible for support, as the donor’s wishes were to support nursing research

Request Deadlines and Funding Decision Timeline
Requests are accepted at any time and reviewed by the Associate Dean for Research. Applicants will be advised of a decision with 3-weeks of receipt of the request in the ONRE. Funds will become available immediately upon approval of request. Requests will be accepted and acted upon in order of their receipt by the ONRE.

Maximum Funding Request: up to $250 per request. Awards will be approved until the available amount of funds for a given year is expended.

Application Materials: can be accessed on the College of Nursing website in the section dedicated to research.
