By now you know that Rocky’s Technology Central offers members of the UT Community great prices on tablets, computers, printers and accessories from several top manufacturers. Our goal to provide affordable technology that expands one’s ability for success remains our top priority.

With the start of 2015, we asked ourselves “what can we do to aid students with their academic success?” We quickly learned that not everyone has had the ability to experience the educational wonders that accompany owning an iPad. These wonders include electronic text books, downloading lectures, recording video for classes and so much more. Therefore, we are happy to introduce an iPad rental program which allows registered students the ability to rent with the option to easily purchase. Immediately following add/drop, iPad 4th generation will be available for rent. The rental fee is nominal; $0.67 per day plus a refundable security deposit. For more information please visit Rocky’s Technology Central located on the first floor of the Student Union.
