**Hiker Jeff** by Jeff All (ISBN: 978-0-977492-3-2)

From the Jacket: A Walk for Sunshine is an award winning adventure story that will fill you with inspiration to go after your dreams. Jeff All takes you along every step of his amazing 2,160 mile Appalachian Trail adventure filled with humor and inspiration. Now, he includes practical advice to plan your own hiking adventure. Alt takes you along on an entertaining walk with bears, bugs, blisters, skunk bedmates and hilarious food cravings. Jeff dedicated his journey to his brother who has cerebral palsy inspiring an annual fund-raiser which has raised over $400,000 for the disabled home in which his bother resides. Recommended by: Keith Henson

**Snakes! Guillotines! Electric Chairs! My adventures in the Alice Cooper Group** by Dennis Dunaway and Chris Hodfen (ISBN: 978-1-250-04808-0)

From the Jacket: For a fan of the Alice Cooper band, as I have been since my adolescence in the 1970's Cooper bassist Dennis Dunaway’s firsthand account of the group’s humble beginnings, heady triumphs, and arguable inevitable implosion is gripping stuff.” Recommended by: John Rogacki

How do you know your U.S. States?

Test your knowledge by correctly matching. (answers appear on page 2)

1. Which is the only state with a different design on the front and back of its flag?
   - New York
   - Montana
   - Colorado
   - Idaho

2. What is the smallest state by area in America?
   - New Jersey
   - Delaware
   - Connecticut
   - Rhode Island

3. “The people rule” is the motto of which state?
   - Maine
   - West Virginia
   - Pennsylvania
   - Washington

4. Which state is the most thickly forested?
   - Arkansas
   - Missouri
   - Oregon
   - Kentucky

5. The Mountain Bluebird is the official bird of which state?
   - Colorado
   - Idaho
   - Montana
   - West Virginia

6. Which city was known as New Amsterdam?
   - New Orleans
   - Los Angeles
   - Seattle
   - New York

7. How old is the United States of America?
   - 204
   - 138
   - 238
   - 239

**What is EMV?**

You probably have heard about the new EMV credit cards, you might be wondering how it will impact you. EMV stands for Europay, MasterCard-Visa; these companies jointly developed a standard for credit/debit cards with embedded computer chips (smart cards). Today, this standard is managed by EMVCo; a consortium comprised of MasterCard, Visa, JCB, American Express, China UnionPay and Discover Card. The introduction of EMV technology in Europe and other parts of the world has successfully reduced fraud.

Today, the EMVCo, is working diligently on deploying new cards in the United States that contain the EMV chip. These new cards will no longer be swiped during a transaction, instead the credit card will be inserted into the card reader and left until the transaction is complete. In addition to educating the millions of credit card consumers, businesses will also need to be educated.

EMV technology provides the consumer a much more secure and less risky environment in which to use their credit cards. Regardless of how often you use your credit cards, the EMV technology helps to protect you. It is the first major payment security initiative that is entirely visible to consumers.

For more information on EMV, you can visit www.emvconnection.com/emv-faq.

**Let’s talk about MFDS**

Auxiliary Services oversees the multifunctional devices on campus. The term is used to describe our printer, copier, facsimile and scanning equipment. Changes are many of you have used one of these devices and most of you have an opinion regarding the device in your area, the services of your device or the method in which you request a move, new device or servicing. We would really like to hear from you through an online survey, as we prepare for the start of the fall 2015 term and begin preparations for our upcoming RFP. The online survey will evaluate the functionality and quality of the devices from the perspective of you, our end-user. We would like to hear how your device is performing today, how it has historically performed and your desires for enhanced features.

We understand that this is a busy time of year for everyone and are optimistic that you will be able to find a few minutes to participate in this brief web survey. To complete the survey, please go to this URL: http://bit.ly/1kgqhb.

Your answers will be completely confidential; moreover, the results will ensure that all equipment is functioning properly. In addition, this information will be used to develop the specifications for our upcoming RFP for equipment this fall. We will publish the results in a future newsletter.

Thank you in advance for your participation in this survey. If you have any questions about the administration of the survey, please contact Joy Seifert (director) or Michael Byrd (manager) of Auxiliary Services.

The Copy Center values your feedback. We are pleased to announce the following changes to the Storefront since our last newsletter edition. Please continue to contact us with your suggestions; telephone 419.630.7351 or email our director at joy.seifert@utoledo.edu.

New additions:

• CBS Order Form
• No Specimen label
• Code Blue Form
• Addition of Family Physicians (Talmadge Rd.) and Glendale Medical East
• Patient Menus
• Meal Ticket Card
• New forms; FM054, EN023, RB122, NU370, EF001, SU079,
• Lab—Process Flow 3x3 Directional Card

EXPIRED!!!!

Does your UT ID Card have an expiration date on the face of the card that reads “Valid through 06/2015”? If so, then it is time for you to take a moment and order your new UT ID. Whether you have an employee ID or a student ID, your card must be replaced in order to avoid random service inter-
ruptions. Cards with the expiration date will ultimately stop functioning in systems such as API, door readers, food ven-
ues and in our vending machines.

Order online at www.utoledo.edu/RocketCard. Your replacement card will be free upon exchange of the expired card.

Our new tool will allow designated departments the ability to assign and remove door access plans for students throughout the term. Student plans will still be removed at the end of the term in accordance with UT prac-

over 3,000 new Rockets

Launched this Summer

The month of June and into July was bluster-

ing with activity, as many departments were involved with welcoming over 3,000 new stu-

ents during the 20 days of Rocket Launch. Rocket Launch is a day long event where stu-

ents and families are greeted by various de-

partments. They learn about the wonderful opportunities and services available to them as a member of the UT family. Rocket Launch is comprised of information sharing sessions, campus tours, an information fair, as well as meetings with Advisors and Success Coaches. Auxiliary Services had three tables and was the champion of the UT Caching game that awarded daily prizes and placed students in one of two grand prize drawings for an iPad Air. The winner of the first half of the program was Victoria Peacock. The second half drawing will be held on August 17th.

Creamy Burrito Casserole

(recommended by Cassandra Johnson from Rocket Wireless)

Ingredients:

1 lb ground beef or 1 lb ground turkey
1/2 medium yellow onion, chopped
1 package taco seasoning
6 large flour tortillas
16 ounce shredded taco cheese or cheddar cheese
10 3/4 ounces cream of mushroom soup
4 ounces sour cream
1 jar of hot sauce/salsa, if desired

Instructions:

Warm oven to 350° then brown and drain the meat adding the taco seasoning and refried beans. In a separate bowl, mix the soup and the sour cream then spread 1/2 of the mixture in the bottom of a 9x13 cas-

serole dish. Shred the tortillas and lay on top of the sour cream mixture then add 1/2 of the meat/bean mixture followed by a layer of cheese. If you desire hot sauce/salsa, add it here and spread. Now repeat the layers; ending with cheese on the top. Bake at 350° for 20 to 30 minutes then enjoy!
