Spring commencement

It was a day of hugs and photos. Dr. Theresa Cluse-Tolar, associate professor and chair of social work, gave a hug to a graduate, while an alumna loaned her mortar board and borrowed another and posed for a photo with two possible future Rockets. There were 2,612 candidates for degrees, including those who will finish classes this summer.

CWA votes to accept contract offer

The Communications Workers of America Local 4530 voted to accept a contract offer with The University of Toledo Wednesday.

The contract was approved 314-105.

“We’re relatively satisfied with the contract,” said Rick Seward, CWA Local 4530 vice president. “In the present economic time, all in all, it’s a pretty good contract for our members.”

The three-year contract is retroactive to Jan. 1 and contains a $300 lump sum payment to each CWA member. There are more than 600 members in the union.
Faculty Senate elects new leaders, focuses on prioritization

P

rioritization and the University’s financial state were the key issues when Faculty Senate elected a new chair and leadership committee as it concluded business for the 2004-05 academic year last month.

"We have a tough year ahead and I want to emphasize the need for the administration to treat the faculty," said Jon Strunk, acting chair.

"Faculty are UT’s most precious resource and I promise to do the best possible job to represent the faculty in an appropriate way."}

Jorgensen praised the Senate’s leadership for formulating the framework for prioritization but said the details and implementation will be very difficult. That implementation process calls for the establishment of a University Prioritization Committee, which will make prioritization recommendations for academic years programs and administrative services to the president. Each college will elect faculty members to College-Prioritization Committee, which will offer recommendations to the UPC.

"Off-site officers elected at the meeting were:"

- Dr. Walter Olson, professor of mechanical, industrial and manufacturing engineering, vice chair;
- Dr. Debra Stoudt, associate professor of German, executive secretary; and
- Barbara Floyd, director of the Canadian Center and professor of library administration, executive committee member.

- Joel Lipman, professor of English and director of the Stranahan Arboretum; and
- Dr. Carter Wilson, professor of political science, board of trustees representative;
- Dr. Alice Moore, associate professor of psychology, alternate board of trustees representative; and
- Rubina Kennedy, associate professor of law, University Athletic Committee.

by Jon Strunk

CWA contract continues on page 1

Additionally, members are slated to negotiate several other provisions in the contract. One such area is the contract's non-discrimination section.

"We are encouraging all departments to consider training for employees so that they can be fairly evaluated when Web users search our pages," said Skip Hoyt, manager of Web services in Marketing and Communications. "Web services can provide assistance during this process and help officials and department make a change that will benefit both the areas and the user."

"In probability, it will be London, England. We go there quite often, as my wife’s family is from there."

— Dr. Wendell McConnaha, associate professor and assessment coordinator of curriculum and instruction sciences at part of the government’s National Assessment Stays fun and motivating, yet teaches children the skills and concepts fundamental to reading." Kaderavek said the book-reading interaction benefits of one approach.

"The University of Toledo has received a grant of more than $1 million from the U.S. Department of Education’s Institute for Education Sciences as part of the government’s Reading-Scale-Up Program.

"I’m working all summer — we have course and technical workshops that start June 13 and go through August,” said Carol Dennis, secretary, curriculums and instruction department.

"If I have to go to Canada — I’m working on my dissertation.

— Joanna Jeffers, assistant director of student services, College of Education

In memoriam

Dr. Frederick L. Kittredge, Spencerville, Ill., who was a faculty member in the psychology department for 40 years, died May 4 at age 83. He was an assistant professor of psychology at UT in 1952, was promoted to associate professor in 1959 and to professor in 1978. An expert in the field of school psychology, Kittredge took a parting leave of absence from the University in 1979 to serve as associate director of the Sylvania Physiological and Perception Program in the Behavioral and Social Sciences Division of the National Science Foundation in Washington, D.C. The experimental psychologist served as chair of the department from 1985 to 1990.

Dareyl A. Kroggel, Toledo, a lecturer in the mathematics department, died May 9 at age 63. He joined the faculty as a part-time instructor in 1986 and became a lecturer in 2003. Kroggel was a UT alumnus, receiving a bachelor’s degree in education and mathematics in 1964 and a master’s degree in education in 1986.

UT Web site goes Google

The search function on The University of Toledo’s Web site is one powered by Google, the world’s leading search engine. After years of utilizing a “homemade” application, the University chose to enter into an agreement with Google Inc. that allows educational business to use the search engine free of charge.

"Many of our counterparts around the state and the nation have been utilizing this service, and this will greatly enhance our competitiveness as the Web becomes perhaps the most important recruitment and student services tool today," said Hoyt. "Students, interest in educational and information technology.

This is an exciting change for the UT Web site,” said Joanne Hartig, executive director and special assistant to the president for marketing and communications. "Today’s student is extremely technologically savvy. The Google search function will provide the speed and accuracy they have grown accustomed to in recent years.

The Google engine is now live; how-ever, like the previous search engine, UT pages that are not part of the UT domain (www.wright.edu) will not be found during a search.

"We are encouraging all departments to consider training for employees so that they can be fairly evaluated when Web users search our pages,” said Skip Hoyt, manager of Web services in Marketing and Communications. “Web services can provide assistance during this process and help officials and department make a change that will benefit both the areas and the user."

"In probability, it will be London, England. We go there quite often, as my wife’s family is from there."

Dr. Wendell McConnaha, associate professor and assessment coordinator of curriculum and instruction sciences, board of trustees representative; and

Rubina Kennedy, associate professor of law, University Athletic Committee.

UT receives $1 million grant to improve children’s reading skills

T

The University of Toledo has received a grant of more than $1 million from the U.S. Department of Education’s Institute for Education Sciences as part of the government’s Reading-Scale-Up Program.

Dr. Jean-Karoloski, associate professor of elementary education and special education, and the primary investigator on the project, is working with Dr. Laura Justice from the University of Virginia to evaluate the effectiveness of new techniques for teaching young children to read.

"We’re trying to help children learn the skills and concepts fundamental to the reading process,” Karlowski said. “But these skills are not the mechanical equivalent of teaching a child their ABCs."

Instead the book-based reading “intervention” is a specially designed teacher book-based technique focusing young children’s attention on certain aspects of words, meaning and concepts. Karlowski said the reading-based interaction that encourages reading those words, meanings and concepts, is one way to help children learn to read.

"What’s vacation? I am hoping to go to Alberta this summer; I’m not going to have one doctorate."

— Dr. Noela Haughton, assistant professor and director of the Stranahan Arboretum.

"By using all summer — we have course and technical workshops that start June 13 and go through August,” said Carol Dennis, secretary, curriculums and instruction department.

"If I have to go to Canada — I’m working on my dissertation.

— Joanna Jeffers, assistant director of student services, College of Education

Employees applaud family members at commencement

Laura Abu-Absi, daughter of Dr. Samir Abu-Absi, professor of English, received a bachelor of arts degree in humanities. Laura served as vice president of Student Government and was named the 2004-05 outstanding student leader. She also earned college and departmental honors. She plans to pursue professional opportunities before enrolling in law school in fall 2007.

Laura Laskey, daughter of Doris Laskey, executive secretary in the Office of Finance and Planning, graduated with high scholarship from the College of Health and Human Services with an associate degree in nursing. Laura has accepted a nurse internship that will lead to a registered nurse position in Toledo Hospital’s renal/vascular/urology department.

Joanna Bopp, daughter of Dr. Bernard Bopp, director of the Center for Teaching and Learning and professor of astronomy, received a bachelor of arts degree in women’s and gender studies. She plans to pursue a career in social services and advocacy work.

James Case, husband of Dr. Chutima Case, assistant director of student development in University College, received a doctor of philosophy degree in curriculum and instruction. His research agenda includes middle childhood education, social studies education and international education. He is an assistant professor of education at Defiance College.

Shelly Smallman, and her mother, Christine Smallman, director of college relations and facilities management in the College of Engineering, both graduated. Shelly received a bachelor of science degree in bioengineering, and Christine received a master of liberal studies degree in disabilities studies. The Dean’s Council voted Shelly outstanding senior leader for college contributions, and she was awarded the Co-op Medal Lion. She will work in tissue engineering at North American Science Associates in Northwood, Ohio. Christine plans to pursue a doctorate while continuing to work at the University.
