PURPOSE OF THE MANUAL

GUIDING PRINCIPLES

THE RELATIONSHIP OF THE OHIO BOARD OF REGENTS TO ACCREDITORS AND STATE AGENCIES

1. Regional, National and Professional Accreditors
2. Approval of Education Programs Leading to a License or an Endorsement
3. State Board of Career Colleges and Schools

REQUIREMENTS

1. General Standards for Academic Programs
   a. Accreditation
   b. Mission and Governance
   c. Resources and Facilities
   d. Academic Policies
   e. Student Support Services
   f. General Education
   g. Program Operations
   h. Faculty Credentials
   i. Faculty Capacity
   j. Program Curriculum
   k. Assessment
   l. Distance Learning
   m. Evidence of Workforce Need and Student Interest
   n. Program Budget, Resources and Facilities
   o. Dual Enrollment
2. Additional Requirements for Ohio Public Colleges and Universities
3. Additional Requirements for Programs Leading to an Education License or Endorsement (Educator Preparation)
PROCEDURES FOR REQUESTS REQUIRING THE CHANCELLOR’S APPROVAL

1. Request for Initial Authorization

2. Requests for New Degrees
   a. New Undergraduate Degrees at Ohio Public Colleges and Universities
   b. New Graduate Degrees at Ohio Public Universities, and the University of Dayton and Case Western Reserve University
   c. New Undergraduate and Graduate Degrees at Authorized Institutions
   d. New Undergraduate and Graduate Degrees at Authorized Institutions (Option for Continuously Authorized Institutions)

3. Requests for New Majors or Degree Programs within Approved Degrees
   a. New Undergraduate Majors or Degree Programs at Ohio Public Colleges and Universities
   b. New Graduate Majors or Degree Programs at Ohio Public Universities and the University of Dayton and Case Western Reserve University
   c. New Undergraduate or Graduate Majors or Degree Programs at Authorized Institutions
   d. New Undergraduate or Graduate Majors or Degree Programs at Authorized Institutions (Option for Continuously Authorized Institutions)

4. Requests for New Programs Leading to Education Licenses or Endorsements when Awarded Independently from a Degree (all public and private institutions)

5. Requests for Ohio On-Ground Field and Clinical Experiences for Students Enrolled in Out-of-State Institutions

6. Requests for Solicitation of Ohio Students by Out-of-State For-Profit Institutions

PROCEDURES FOR REQUESTS REQUIRING ADMINISTRATIVE APPROVAL (CHANGE REQUESTS)

1. Requests to Change Undergraduate Degrees or Majors at Ohio Public Colleges and Universities

2. Requests to Change Graduate Degrees or Majors at Ohio Public Universities and the University of Dayton and Case Western Reserve University

3. Requests to Change Undergraduate or Graduate Degrees at Authorized Institutions

4. Requests to Change Programs that Lead to Education Licenses and Endorsements
PROCEDURES FOR MAINTAINING APPROVAL

1. Periodic Review
   a. Periodic Review of Ohio Public Institutions
   b. Periodic Review of Authorized Institutions
   c. Periodic Review of Authorized Institutions (Option for Continuously Authorized Institutions)
   d. Periodic Review of Educator Preparation Programs

2. Reporting Regional, National and Specialized Accreditation Outcomes (all public and private institutions)

3. Requirements for Authorized Institutions Undergoing a Major Change

Guidelines and Procedures for Academic Program Review

APPENDICES

Appendix A: Definitions

Appendix B: Terminology and Requirements for Degrees, Certificates and Educator Preparation Licenses and Endorsements Offered by Colleges and Universities

Appendix C: General Education Guidelines

Appendix D: Institutions Operating As “Bible Colleges” And “Bible Institutes”

Appendix E: Required Actions for Institutional Closure

Appendix F: Program Approval Forms and Staff Contact Information

Appendix F: Links to Related Documents and Sites

Appendix H: Program Approval and Authorization Records Retention Policy
PURPOSE OF THE MANUAL

The Chancellor of the Ohio Board of Regents is charged by the Ohio General Assembly with approving academic programs at public institutions of higher education and authorizing independent (not-for-profit and for-profit) institutions and out-of-state institutions to provide academic credit in Ohio. Links to the relevant sections of the Ohio Revised Code and Ohio Administrative Code are included in the appendix materials.

The manual provides institutions of higher education with guidelines and procedures for academic program approval. It describes the minimum requirements that must be met to ensure that students are participating in academic programs that meet basic standards of academic quality. The manual also describes the conditions requiring approval and the associated processes used to obtain approval for academic programs.

The review process is designed to allow institutions to demonstrate alignment with the general standards of academic programs through descriptive information and supporting documentation. The process of review and approval is complementary to the institution’s own academic review processes. The process is also complementary to accreditation review by a United States Department of Education (USDOE)-recognized or Council for Higher Education Accreditation (CHEA)-recognized regional or national accrediting agency and to the reviews of professional accreditors.
GUIDING PRINCIPLES

The program review and approval process is based on the following guiding principles.

1. Institutions seeking approval must have or be in the process of obtaining regional or national accreditation from an accreditor approved by the U.S. Department of Education or the Council for Higher Education Accreditation. Out-of-state institutions must also have state approval in the home state.

2. All colleges and universities operating in the state must meet the academic standards outlined in this document. Institutions must provide evidence through the proposal process that all standards are met or will be met within a reasonable time as determined by the Chancellor.

3. Ohio’s approval process is designed as a consumer-protection mechanism to ensure that minimum expectations for academic programs are met and are consistent across all colleges and universities operating under the Chancellor’s purview.

4. Institutions are responsible for maintaining all academic programs in accordance with the standards and for notifying the Chancellor of the Ohio Board of Regents of any substantive changes.

5. Ohio public institutions are expected to maximize collaboration and assure that public resources are being used in an efficient and effective manner to educate more Ohioans in fields that lead to employment.

6. Ohio public institutions are expected to maintain academic programs and courses that are consistent with Ohio’s articulation and transfer policies. Ohio public institutions are expected to maximize the opportunities for students to begin study anywhere in the University System of Ohio with guaranteed transfer and articulation within the system.

7. Students at off-site locations, in flexibly delivered programs, or in academic programs offered online must have access to appropriate academic and student support services.

8. The review process for all institutions is designed to be transparent and to provide opportunities for substantive independent expert comment. Public comment is solicited prior to a final decision by the Chancellor of the Ohio Board of Regents.
THE RELATIONSHIP OF THE OHIO BOARD OF REGENTS TO ACCREDITORS AND OTHER STATE AGENCIES

1. Regional, National and Professional Accreditors

Regional and national accreditation uses a peer review and quality improvement model for the evaluation of governance and administration, financial stability, student services, resources, student academic achievement, organizational effectiveness, and relationships with outside constituencies.

Ohio’s approval process is intended to be complementary to regional or national accreditation by focusing on the specific degree program being proposed rather than on the institution as a whole. Reports for and by regional and national accrediting associations are part of the review process.

Professional accreditation, where available, focuses on nationally-recognized standards for the discipline and the specific knowledge and skill requirements of the field. Professional accreditation is encouraged as an additional assurance that faculty credentials and the learning outcomes established for students are consistent with national standards.

2. Approval of Educator Preparation Programs Leading to a License or Endorsement

The Chancellor has the authority to approve all educator preparation programs, including degree programs, licensure programs and endorsement programs. This includes the approval of two-year, four-year and graduate programs leading to a license in teaching, administration and other school personnel.

The Chancellor works in collaboration with the Ohio Department of Education on all P-16 initiatives. This includes serving on advisory committees related to educator preparation and residency programs. As the Board of Education adopts new educator standards and licensure requirements, the Chancellor adapts program approval requirements to address those changes.

3. The State Board of Career Colleges and Schools

The State Board of Career Colleges and Schools (SBCCS) issues certificates of registration to proprietary institutions offering training, certificates, diplomas and degree programs within the state of Ohio. SBCCS also regulates the advertising of these programs to Ohio residents. The Chancellor and SBCCS share dual authority for the approval of proprietary institutions that offer programming in the state at the baccalaureate level or higher, or advertise to Ohio residents for such programs. In addition, SBCCS-approved institutions may request a certificate of authorization from the Chancellor to allow students enrolled in associate degree programs to be eligible to use certain needs-based state grants at the institution.
REQUIREMENTS

1. General Standards for Academic Programs

All colleges and universities seeking approval or authorization to offer instruction must demonstrate that the following institutional and program standards are met.

a. Accreditation

- The institution is accredited and in good standing with the Higher Learning Commission (HLC) or other regional accrediting agency, or a national accrediting agency recognized by the U.S. Department of Education (USDOE) or Council for Higher Education Accreditation (CHEA).
- Institutions offering programs that lead to Ohio educator licenses and endorsements are accredited and in good standing with the Council for the Accreditation of Educator Preparation (CAEP), formerly National Council for the Accreditation of Teacher Education (NCATE), or Teacher Education Accreditation Council (TEAC).
- Institutions that are not accredited at the time of the initial request must provide evidence that the process for obtaining regional or national accreditation has been initiated and must also provide a plan and timeline for completing the steps required for accreditation.
- Professional accreditation is encouraged when available for the program area.

b. Mission and Governance

- The institution has a clearly articulated mission.
- The institution has an organizational structure that supports the achievement of its mission and the success of its students, faculty and staff.
- The institution’s policies and practices are described clearly and consistently in all publications.
- Policies regarding the resolution of student, faculty and staff grievances are readily available to students, faculty and staff and are consistently followed.
- The institution follows applicable local, state and federal laws.
- The institution has mechanisms for assessment and evaluation of success and provides evidence of how data informs institutional success.

c. Resources and Facilities

- The institution’s financial resources are sufficient to support its mission.
- The institution has the human resources needed to meet its mission.
- The institution’s physical facilities (e.g., classrooms, laboratories) are adequate to support the student population and the programs offered.
• The institution’s library resources and services support the academic programs offered and are consistent with the Association of College and Research Libraries’ (ACRL’s) Standards for Libraries in Higher Education: (http://www.ala.org/ala/mgrps/divs/acrl/standards/standardslibraries.cfm).

• The institution’s technology resources (e.g., hardware, software and professional development) advance teaching and learning, including distance education.

• Policies are in place to ensure the safety and security of students, faculty and staff.

• Services are in place to assist students, faculty and staff in the responsible and lawful implementation of research activities.

d.  Academic Policies

• Academic planning includes input from faculty and other stakeholders (trustees, advisory boards, expert consultants, staff, students, faculty councils, faculty committees, department/college committees, etc.).

• Academic policies for the delivery of instruction are clearly articulated and are consistent with the Chancellor’s guidelines and definitions, including:
  o Required credit, where specified, for degrees, degree programs, majors, certificates; if professional accreditation and licensing requirements exceed these general expectations, those requirements supersede the general requirements.
  o Semester credit hour definition (or the equivalent for quarters)
  o Length of semester and academic year (or the equivalent for quarters)
  o Ohio’s Articulation and Transfer Policy (for Ohio public institutions)

• Policies for the appointment and evaluation of faculty and administrators are clear and consistently followed. At a minimum, policies address the following subjects:
  o Definitions of faculty type (full-time, part-time/adjunct, tenure-track/non tenure-track, supervisory, clinical, etc.)
  o Appointment
  o Orientation and mentoring
  o Evaluation, including promotion and tenure guidelines, as appropriate
  o Termination
  o Definitions of faculty load

e.  Student Support Services

• The institution provides student administrative services according to established policies in the following areas:
  o Student recruitment
  o Admissions and matriculation
  o Financial aid, scholarship and grant applications, coordination of awards and counseling regarding repayment options
  o Transfer credit and prior learning evaluations
Guidelines and Procedures for Academic Program Review

- Graduation audits
- Student records management

- The institution provides student academic support services, including:
  - Advising and assessment as needed for placement\(^1\) into college-level courses
  - Student advising related to the successful completion of developmental education courses, college-level courses and degree programs
  - Student advising related to the transferability of credits earned at the institution
  - Advising and assessment for students seeking academic credit for prior learning
  - Academic support for students with disabilities and other learning needs
  - Physical or mental health counseling and/or external referrals
  - Environmental support on-site or through external referrals (e.g., for transportation, child care, personal finance)
  - Career counseling

f. General Education

- General education is required within every undergraduate degree and is guided by a mission and specific learning outcomes
- General education requirements reflect the degree designation (e.g., applied associate degree vs. associate of arts or associate of science; bachelor of arts vs. bachelor of science)
- At a minimum, general education comprises no fewer than 36 semester hours for baccalaureate degrees and associate of arts and associate of science degrees and no fewer than 15 semester hours for applied associate degrees
- The general education curriculum reflects a breadth of study (the minimum number of hours in each general education area for baccalaureate, associate of arts, associate of science and applied associate degrees is outlined in Appendix C)
- General education includes a focus on “21\(^{st}\)-Century” skills and knowledge\(^2\), including:
  - Knowledge of human cultures and the physical and natural world
  - Intellectual and practical skills including: inquiry and analysis; critical and creative thinking, oral and written communication, quantitative literacy, information literacy; teamwork and problem solving

---

\(^1\) Public institution placement policies must be consistent with the statewide placement policy: [https://www.ohiohighered.org/college-readiness](https://www.ohiohighered.org/college-readiness)

\(^2\) The Essential Learning Outcomes from the LEAP initiative: [http://www.aacu.org/leap/vision.cfm](http://www.aacu.org/leap/vision.cfm)
Guidelines and Procedures for Academic Program Review

- Personal and social responsibility, including civic knowledge and engagement, intercultural knowledge and competence, ethical reasoning and action; and foundations and skills for lifelong learning
- Remedial or developmental education courses are not considered part of general education and are not counted toward degree requirements.

g. Program Operations

- The administrative structure for the proposed program is clearly defined
- Cooperative arrangements for the delivery of the proposed program are clearly described and approved by the identified partners

h. Faculty Credentials

The following expectations apply to all full-time and part-time instructors, including graduate teaching assistants and high school teachers who serve as adjunct faculty members for dual enrollment courses.

1) For general education courses:

- Faculty members teaching general education courses must hold a master’s degree in the discipline or a master’s degree and a cohesive set\(^3\) of at least 18 semester credit hours of graduate coursework relevant to the discipline.

- Individuals who are making substantial progress toward meeting the faculty credentialing requirements and who are mentored by a faculty member who does meet the minimum credentialing requirements may serve as instructors during their educational programs. Examples of such individuals include graduate teaching assistants (GTAs), adjunct faculty members and dual enrollment faculty members.

2) For courses other than general education courses:

- Faculty members must hold a terminal degree or a degree at least one level above the degree level in which they are teaching:
  - At least a bachelor’s degree if teaching in an associate degree program
  - At least a master’s degree if teaching in a bachelor’s degree programs
  - A terminal degree if teaching in a graduate program.

---

\(^3\) A “cohesive set” of courses is a program of study that includes disciplinary content comparable to that which would be obtained in a master’s degree in the discipline. The program of study should be planned in collaboration with experts in the discipline and preferably completed at a single institution.
• Individuals who are making substantial progress toward meeting the faculty credentialing requirements and who are mentored by a faculty member who does meet the minimum credentialing requirements may serve as instructors during their educational programs. Examples of such individuals include graduate teaching assistants (GTAs) or adjunct faculty members who are working toward meeting the faculty credentialing requirements.

• Faculty members teaching technically- or practice-oriented courses must have practical experience in the field and hold current licenses and/or certifications, as applicable.

• For programs involving clinical faculty (e.g., student teaching supervisors, clinical practicum supervisors), the credentials and involvement of clinical faculty are described and meet applicable professional standards for the delivery of the educational experiences.

3) The following expectations apply to all faculty members:

• Faculty members must hold a degree from a regionally or nationally accredited institution recognized by the U.S. Department of Education or the Council for Higher Education Accreditation or equivalent as verified by a member of the National Association of Credential Evaluation Services.

• Where professional accreditation or licensing standards for faculty exceed these standards, faculty members are expected to meet the higher standards.

• Faculty members must show evidence of continuing professional development in the discipline.

• Faculty members who teach online courses must be prepared for teaching in an online environment.

• Faculty members within a program should have received their degrees from a variety of institutions. Faculty members who received their degrees from a single institution should not constitute the majority of the program’s faculty.

4) Exceptions

Certain individuals may be qualified to teach college-level courses yet not meet the faculty qualification criteria presented here. In such circumstances, it is the responsibility of each institution’s chief academic officer to make decisions in
consultation with program faculty regarding exceptions and to maintain a record of the justification of those exceptions. Documentation that could be used to support exceptions can include, but is not limited to: publications, licensure, certification, evidence of years of professional experience and/or professional reputation.

Examples of individuals meriting an exception and institutional justification would include:

- A faculty member who has extraordinary practical or tested experience in a field that has been validated through publication and/or public recognition (such as in creative writing, painting, music, foreign language, or other areas of performance)

- Faculty members in fields where a degree one level above the degree that students are seeking is not be widely available (e.g., for instructors of certain technically-, professionally-, or occupationally-related courses). In those instances, the Chief Academic Officer, in collaboration with the faculty, determines appropriate qualifications and apply them consistently

- Faculty members who possess the appropriate credential in their discipline but who teach in related disciplines; for example, engineering faculty members teaching math or business faculty members teaching economics

- Faculty members with extraordinary professional experience brought in to teach a single course in a professional or technical area; for example a successful entrepreneur teaching a course on commercialization

5) **Responsibility for determining faculty qualifications**

Chief academic officers are ultimately responsible for ensuring the following: a) that faculty credentialing requirements are met; b) that instructors who are working toward meeting credentialing requirements are appropriately mentored and making substantial progress in their coursework; c) that exceptions to the requirements are carefully considered and justified; and d) that exceptions are reserved for a small number of uniquely qualified individuals.

i. **Faculty Capacity**

- Faculty resources are sufficient to meet the teaching, scholarship, service and advising needs of the program and the expectations of the institution.
- Each degree program is led by a full-time faculty member.
- Students have access to full-time faculty members at each location where more than 50% of an academic program can be completed (e.g., main campus, regional campus, additional locations) and in online programs.
• Students can expect to have 60% of their degree programs taught by full-time employees of the institution. Portions of the degree program that are taught by individuals who are not employees of the institution (e.g., internships, clinical practicum experiences, field experiences, and student teaching) are not included in the calculations for this standard.

• At a minimum, the equivalent of one full-time faculty member (one FTE) is required for the equivalent of every 30 full-time students (30 FTE) in a degree program.

• Faculty members reflect the racial, ethnic and gender diversity of the community and the student body.

• Students interact with numerous faculty members within the degree program to encourage exposure to a diversity of experiences and perspectives.

Exceptions to Faculty Capacity Requirements
Institutions are expected to meet the standards outlined above. In instances where the expectations of faculty capacity are not being met (e.g., newly formed programs with limited student enrollment, existing programs that historically have not met the standards, programs that have experience unexpected increases in student population), the Chancellor’s staff works with the institution to develop a plan to move the institution toward compliance with the standards.

j. Program Curriculum
• Alignment between the proposed program and the institution’s mission is clearly articulated.

• Planning for new academic programs includes input from faculty and other stakeholders (e.g., business leaders, trustees, advisory boards, consultants, staff, students, faculty councils, faculty committees, department/college committees).

• The academic program has specific learning outcomes that are designed to meet the program’s intended purpose and, where applicable, meet state and national standards.
  o Learning outcomes are appropriate for the degree designation (i.e., associate degree vs. bachelor’s degree vs. master’s degree vs. doctoral degree).
  o Course requirements and delivery mechanisms provide sufficient opportunities for students to meet learning outcomes.
  o The learning outcomes address the major issues and concerns in the discipline or professional area.

• All field and clinical experiences are overseen by faculty members in the program.

• Where appropriate, programs include the following:
  o A capstone experience or a culminating project that reflects both the preparation of the student and an understanding of the needs of the workforce
  o Internship/co-op opportunities that provide opportunities for students to combine knowledge and skill acquisition with real-world practice
k. Assessment

- Multiple assessments are used to inform continuous program improvement.
  - Assessments are linked to the program’s mission and purpose.
  - Faculty members are involved in defining the expected outcomes for the program and in determining whether the outcomes are achieved.
  - Assessments include multiple direct and indirect measures and provide faculty with the opportunity to examine student performance in the context of progressively more challenging problems, projects, and standards for performance.
  - Professional credentialing examinations, when available, are used to measure program success.
  - Faculty and administrators regularly review the effectiveness of the assessment system, including student performance in courses, labs and clinical experiences, and alumni performance in the workforce.
  - Assessment results are available to stakeholders, including faculty members and students.

- Assessments inform faculty members and students of student progress in the program.
  - Multiple formative assessments (e.g., pre-collegiate; course examinations; lab, practicum and internship evaluations) are used at various points throughout the student’s program.
  - Summative assessments (e.g., capstone projects, portfolios, comprehensive examinations) provide feedback to students and faculty.
  - Professional credentialing examinations, when available, should be used as one measure of student success.
  - Results are communicated regularly to students in ways that enable the student to improve.
  - Results are communicated to others as appropriate (e.g., faculty, advisors).

I. Online Learning

- Institutions have written technology plans for online education, which include components such as:
  - A description of the institution’s processes and procedures for developing and supporting the technology infrastructure for online education
  - Evidence that electronic security measures (including failsafe backup systems) are in place to support the integrity and security of data
  - Mechanisms to ensure that faculty have the appropriate hardware, software and IT support to be successful

- Institutions ensure successful online experiences for students and faculty by:
Guidelines and Procedures for Academic Program Review

- Ensuring that courses meet contemporary instructional design standards for synchronous, asynchronous, fully online and hybrid experiences
- Offering ongoing professional development for faculty members who teach online courses
- Offering ongoing academic and technology support for students, including availability of the support services beyond the normal 40-hour work week
- Employing processes to ensure that students are aware of the technology, competencies and costs associated with online education
- Providing necessary ADA accommodations to ensure the success of all learners

m. Evidence of Workforce Relevance, Need and Student Interest

All institutions are required to provide evidence of the need for the proposed program in Ohio. Proposals or change requests should include data-driven market research that addresses the collaboration with employers, potential for employment upon graduation, competitive advantage of the submitting institution, reasonable non-duplication\(^4\) with other programs (for public institutions), and alignment with the University System of Ohio initiatives (for public institutions). Ohio’s public institutions are also expected to investigate opportunities for sharing programs through the University System of Ohio Program Share initiative\(^5\) when it makes economic sense to do so.

Evidence may include but is not limited to:

- Local, state and national labor market research
- Local, state and national demographic information demonstrating trends linked to education
- Evidence of partnerships with business and industry, e.g.,
  - collaboration in the development of curriculum
  - enrollment guarantees
  - opportunities for co-ops and internships
  - provision of adjunct faculty or mentors for students
- Reengineering of an existing program to meet changing market needs based on workforce shifts, licensure or certification changes from external organizations, or alignment with specialized accrediting agencies or organizations
- Partnerships, including program sharing, with other colleges and universities to leverage the strengths of each and serve multiple locations in the state

\(^4\) Duplication of programs is not in and of itself unreasonable. In fact, duplication of programs may be necessary in response to state and local workforce needs and economic development initiatives. Institutions are encouraged to investigate and pursue avenues of student-centered collaboration

\(^5\) [https://www.ohiohighered.org/programshare](https://www.ohiohighered.org/programshare)
• Longitudinal data demonstrating the need for a higher-level degree (e.g., a proven associate degree leading to a bachelor’s degree)
• Pilot courses or certificate programs with a history of success, demonstrating the need and opportunity for a full degree
• Establishment of an endowed chair, addition of nationally recognized faculty or other parallel staffing that indicates a competitive “attraction” to the proposed program

n. Program Budget, Resources and Facilities

• The program budget supports the implementation of the program and its continuing operation, including laboratory, field and clinical work.
• The program budget provides information on 1) projected enrollment; 2) program income; and 3) projected program expenses for a four-year time span. The budget includes sufficient explanation of income and expenses for evaluation.
• The program facilities (classrooms, offices, clinical space, and research laboratories) are accessible, appropriate, safe and sufficient to achieve the program’s mission and purpose.
• Information technology services are current and available to students, faculty and staff.
• Library resources are sufficient to provide students and faculty with access to the materials and information needed to meet the program’s mission and purpose.
• Library staffing is sufficient to provide instruction in the use of library materials and information.

o. Dual Enrollment

Courses offered to high school students for college credit, whether offered in the high school, on the college or university campus, or via distance education must adhere to the following principles:

• The student who participates in a dual enrollment learning experience is academically prepared to begin college-level (non-remedial) work in the area in which credit is to be awarded.
• The course is delivered at the college level, as indicated by the rigor of course content, the level of the textbook and the level of the assessments used to ensure the mastery of learning outcomes.
• The faculty member teaching the course possesses the credential required for a faculty member teaching the course at a college or university (see section “h” on faculty credentials).
• The courses offered are those that could reasonably be expected to count toward a student’s post-secondary degree or certificate.
ADDITIONAL REQUIREMENTS FOR OHIO PUBLIC COLLEGES AND UNIVERSITIES

Ohio’s Articulation and Transfer Policy

The University System of Ohio’s Articulation and Transfer Policy guides the transfer of courses and the application of those courses to degrees. Academic programs should maximize the number of courses guaranteed for transfer in the curriculum, as appropriate to the proposed major. Currently (2013) only public institutions are required to abide by the Articulation and Transfer Policy. Ohio independent institutions may have the opportunity to join the statewide guaranteed articulation system at some point in the future.

Evidence of Workforce Need and Student Interest

Ohio public institutions must provide sufficient market research to demonstrate the need for the proposed program and that student interest in the program has been fully assessed.

Collaboration, Coordination and Program Duplication

Ohio public institutions are encouraged to collaborate with other institutions through the University System of Ohio Program Sharing Initiative6 or other mechanisms to effectively and efficiently use state resources and to maximize the talents and resources of faculty and programs at all University System of Ohio schools.

3. ADDITIONAL REQUIREMENTS FOR PROGRAMS LEADING TO AN EDUCATION LICENSE OR ENDORSEMENT (EDUCATOR PREPARATION)

In addition to the General Standards for Academic Programs, any institution that is seeking approval for an educator license preparation program or endorsement preparation program must meet the applicable standards set forth by Ohio statute and the Ohio Department of Education. Education units with the institution must also meet national accreditation standards as set forth by the Council for the Accreditation of Educator Preparation (CAEP).

6 https://www.ohiohighered.org/programshare
PROCEDURES FOR REQUESTS REQUIRING THE CHANCELLOR’S APPROVAL

1. Requests for Initial Authorization by Independent Institutions and Out-Of-State Public and Independent Institutions

2. Requests for New Degrees by Ohio Public, Ohio Independent and Out-Of-State Institutions, to Include
   - Academic degrees (e.g., PhD, MA, MS, BA, BS, AS, AA)
   - Professional degrees (e.g., EdD, DBA, DPT, AuD, DNP, MSN, MBA, LLM)
   - Technical degrees (e.g., BAS, AAB, AAS, ATS)

3. Requests for New Majors or Degree Programs Within an Approved Degree by Ohio Public, Ohio Independent and Out-Of-State Institutions

4. Requests for Education Licenses or Endorsements When Awarded Independent of a Degree or Degree Program by Ohio Public, Ohio Independent and Out-Of-State Institutions

5. Requests for On-Ground Field and Clinical Experiences by Out-Of-State Public and Independent Institutions

6. Requests for Solicitation by Out-Of-State For-Profits Institutions

Procedures for seeking the Chancellor’s approval vary by program type: undergraduate programs in public institutions; graduate programs in public institutions, the University of Dayton and Case Western Reserve University; or undergraduate and graduate programs in Ohio independent institutions or out-of-state institutions. Educator preparation programs leading to an Ohio license or endorsement have additional requirements. Approval procedures are described in the following pages.
1. Initial Authorization

Independent institutions (for-profit or not-for-profit) and out-of-state public or independent institutions with a physical presence in Ohio must seek a certificate of authorization from the Chancellor of the Ohio Board of Regents to operate in the state.

- **Initial Inquiry Survey.** The institution submits an Initial Inquiry Survey to begin the authorization process.
  - The link to the Initial Inquiry Survey is included in Appendix F.
  - If the institution will be offering programs that lead to Ohio educator licensure or endorsement, the completed Survey must include that information.
  - Once the completed Survey is received, a member of the Chancellor’s staff contacts the institution to clarify the request, provide the necessary forms and discuss the steps in the approval process.

- **Letter of Commitment.** The institution’s president or chief academic officer submits a Letter of Commitment and the required fees at least six months prior to the planned program start date.
  - The link to the Letter of Commitment template is included in Appendix F.
  - If the institution will be offering programs that lead to Ohio educator licensure or endorsement, the Letter of Commitment must indicate the areas of licensure or endorsement that the institution intends to offer.

**Posting of Request.** Once the Letter of Commitment and fees are received, the institution and names of proposed degree programs are posted on the Ohio Board of Regents’ website: [http://regents.ohio.gov/programapproval/pending.php](http://regents.ohio.gov/programapproval/pending.php)

**Proposal.** The institution’s president or chief academic officer submits a Proposal at least six months prior to offering programming in Ohio. The Proposal provides information to demonstrate that the program meets the General Standards for Academic Programs.

- The link to the Proposal template is included in Appendix F, but institutions should discuss proposal format with the Chancellor’s staff before proceeding to ensure that the appropriate forms are completed.
- If any of the programs offered lead to an Ohio education license or endorsement, the Proposal must also include the materials required for review of the educator licensure or endorsement program; Chancellor’s staff members assist institutions in determining the required forms for the review process.
- In cases where graduate degrees are preparing P-12 educators for work in schools, institutions may need to complete additional forms even if the program does not lead to an Ohio education license or endorsement.
- A Proposal must be submitted within one year of the submission of the Letter of Commitment or a new Letter of Commitment is required.
• **Staff Review of Proposal.** Chancellor’s staff members review the proposal for completeness prior to scheduling a site visit.

• **Site Visit and Preparation of Consultant’s Report.**
  - The proposing institution, in consultation with the Chancellor’s staff, identifies dates for the review.
  - A team of consultants selected by the Chancellor’s staff visits the institution to ensure that the institution and proposed degree programs meet the *General Standards for Academic Programs*. If the institution offers programs that lead to Ohio educator licensure or endorsement, the team includes experts in the area of the license or endorsement. One or more members of the Chancellor’s staff also attend the review.
  - The fees and expenses for the consultants are paid by the proposing institution; the fees submitted with the *Letter of Commitment* cover the expenses of the Chancellor’s staff.
  - During the site visit, consultants determine suggestions and recommendations for the institution and prepare a draft *Consultants’ Report*; the consultants present the draft report during the exit interview.
  - A final *Consultants’ Report* is sent to the institution within three weeks of the visit.

• **Institutional Response.** The proposing institution prepares an *Institutional Response* to the recommendations in the *Consultants’ Report*
  - Institutions have up to 60 days to prepare an *Institutional Response*, but the response must be received by the Chancellor’s staff at least three months prior to the planned start date.
  - The *Institutional Response* must demonstrate compliance with the consultants’ recommendations, which are binding items; in the case of recommendations that can only be complied with over time, the institution must present a plan and a timeline for compliance as part of the *Institutional Response*.
  - The Chancellors’ staff, with input from the consultants as needed, reviews the *Institutional Response* to determine whether all recommendations have been satisfied.

• **Public Comment Period.** Once the recommendations have been satisfied, a background summary is posted on the Ohio Board of Regents’ web site ([http://regents.ohio.gov/programapproval/pending.php](http://regents.ohio.gov/programapproval/pending.php)) for a 10-day public comment period.

• **Chancellor’s Approval.** The request and public comments are forwarded to the Chancellor for final consideration and approval; the length and conditions of approval are stipulated in the background summary.
Guidelines and Procedures for Academic Program Review

- **Certificate of Authorization Issued.** A Certificate of Authorization is issued to the institution; if the institution is incorporated, the institution shall file a copy of the certificate of authorization with the secretary of state as required by section 1713.02 of the Revised Code.

  - **Progress Reports.** Initial authorization is typically granted for a three-year period with an annual progress report due each year. The link to the instructions and template for the Progress Report is included in Appendix F, but institutions should discuss progress report requirements with the Chancellor’s staff before proceeding to ensure that all requirements are met.

2. Requests for New Degrees

   a. **New Undergraduate Degrees at Ohio Public Colleges and Universities**

   - **Initial Inquiry Survey.** The institution submits an Initial Inquiry Survey to begin the approval process.
     - The link to the Initial Inquiry Survey is included in Appendix F.
     - If the new degree includes programs that lead to Ohio educator licensure or endorsement, the completed Survey must include that information.
     - Once the completed Survey is received, a member of the Chancellor’s staff contacts the institution to clarify the request, provide the necessary forms and discuss the steps in the approval process; the Chancellor’s staff also shares the information with the individuals charged with oversight of the Ohio Board of Regents Course and Program Sharing Network.

   - **Letter of Commitment.** The institution’s president or chief academic officer submits a Letter of Commitment at least six months prior to the planned implementation of the new degree. The Letter of Commitment may be submitted prior to the completion of internal institutional approval processes.
     - The link to the Letter of Commitment template is included in Appendix F.
     - If the new degree contains a program that leads to an education license or endorsement, the Letter of Commitment must indicate the specific license or endorsement that the institution intends to offer; each license and endorsement requires a review and may require a site visit.

   - **Posting of Request.** Once the Letter of Commitment is received, the institution and name of proposed degree is posted on the Ohio Board of Regents’ website: [http://regents.ohio.gov/programapproval/pending.php](http://regents.ohio.gov/programapproval/pending.php).

   - **Proposal.** After the new degree has received all required internal approvals, the institution’s president or chief academic officer submits a Proposal to the Chancellor at least four months prior to the planned implementation of the new degree. The
Proposal provides information to demonstrate that the program meets the General Standards for Academic Programs.

- The link to the Proposal template is included in Appendix F, but institutions should discuss the requirements with the Chancellor’s staff before proceeding to ensure that the appropriate forms are completed.
  - If the new degree contains a program that leads to educator licensure or endorsement, the educator preparation program review are coordinated with staff members in the educator preparation program approval area.
- A Proposal must be submitted within one year of submission of the Letter of Commitment or a new Letter of Commitment is required.

- **Staff Review of Proposal.** Chancellor’s staff members review the proposal for completeness prior to presentation for expert comment from peer institutions.

- **Peer Review of Proposal.**
  - The proposal are circulated to a listserv of campus contacts to solicit comments from experts within the discipline.
  - The peer review should focus on the qualifications, experience and sufficiency of faculty, the curriculum and its alignment with expectations for the discipline, the need for the degree and the resources (e.g., classrooms, libraries, technology, laboratory, equipment) available to support the degree.
  - Peer institutions have 30 days to submit comments to the listserv.

- **Consultant Review of Educator Preparation Programs.**
  - If the degree includes new educator licensure or endorsement programs, the licensure and endorsement programs may be reviewed by external consultants.

- **Resolution of Concerns.** The Chancellor’s staff members work with the institution proposing the program to address questions or concerns raised during the peer comment period.

- **Public Comment Period.** If the program is recommended to the Chancellor for approval, a background summary are posted on the Ohio Board of Regents’ web site (http://regents.ohio.gov/programapproval/pending.php) for a 10-day public comment period.

- **Chancellor’s Approval.** The request and public comments are forwarded to the Chancellor for final approval.
b. New Graduate Degrees at Ohio Public Universities (and University of Dayton and Case Western Reserve University)

The Regents’ Advisory Committee on Graduate Studies (RACGS) oversees the peer review of new graduate degree requests. The members of RACGS are the graduate deans (or designees) of each of Ohio’s public research institutions and the University of Dayton and Case Western Reserve University.

The process for the approval of new graduate degrees at Ohio public universities and at the University of Dayton and Case Western Reserve University are described in the Guidelines and Procedures for the Review and Approval of Graduate Degree Programs, which are available online at: https://www.ohiohighered.org/sites/ohiohighered.org/files/uploads/racgs/documents/RACGS_Guidelines_113012.pdf

Individuals at Ohio public universities and the University of Dayton and Case Western Reserve University interested in seeking approval for new graduate degrees should begin by contacting the institution’s representative to RACGS. A listing of current RACGS members is available online at: https://www.ohiohighered.org/racgs/roster
https://www.ohiohighered.org/racgs/roster
c. New Undergraduate and Graduate Degrees at Authorized\textsuperscript{7} Institutions

- **Initial Inquiry Survey.** The institution submits an *Initial Inquiry Survey* to begin the approval process.
  - The link to the *Initial Inquiry Survey* is included in Appendix F.
  - If the new degree includes programs that lead to Ohio educator licensure or endorsement, the *Survey* must provide that information.
  - Once the *Survey* is received, a member of the Chancellor’s staff contacts the institution to clarify the request, provide the necessary forms and discuss the steps in the approval process.

- **Letter of Commitment.** The institution’s president or chief academic officer submits a *Letter of Commitment* and the required fees at least six months prior to the planned implementation of the new degree; the *Letter of Commitment* may be submitted prior to the completion of internal institutional approval processes.
  - The link to the *Letter of Commitment* template is included in Appendix F.
  - If the new degree contains a program that leads to educator licensure or endorsement, the *Letter of Commitment* must indicate the areas of licensure or endorsement that the institution intends to offer. Each area of licensure requires a review and may require a site visit.

- **Posting of Request.** Once the *Letter of Commitment* and fees are received, the institution and name of proposed degree is posted on the Ohio Board of Regents’ website: [http://regents.ohio.gov/programapproval/pending.php](http://regents.ohio.gov/programapproval/pending.php)

- **Proposal.** After the new degree has received all of the required internal approvals, the institution’s president or chief academic officer submits a *Proposal* at least six months prior to the planned implementation of the new degree. The *Proposal* provides information to demonstrate that the program meets the General Standards for Academic Programs.
  - The link to the *Proposal* template is included in Appendix F, but institutions should discuss proposal format with the Chancellor’s staff before proceeding to ensure that the appropriate forms are completed.
  - If the new degree contains a program that leads to an educator license or endorsement, the *Proposal* must also include the materials required for review of the educator licensure or endorsement program.

\textsuperscript{7} As noted in Ohio Administrative Code Rule 3333-1-08, a non-profit institution that has been continuously authorized by the Chancellor and continuously accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools (HLC) for more than 20 years may choose to follow the approval process described in section 1.d., *Option For Continually Authorized Institutions*.
Guidelines and Procedures for Academic Program Review

- In cases where graduate degrees are preparing P-12 educators for work in schools, additional forms may need to be completed even if the program does not lead to an education license or endorsement
- A Proposal must be submitted within one year of the submission of the Letter of Commitment or a new Letter of Commitment is required

- **Staff Review of Proposal.** Chancellor’s staff members review the proposal for completeness prior to scheduling a site visit

- **Site Visit and Preparation of Consultant’s Report.**
  - The proposing institution, in consultation with the Chancellor’s staff, identifies dates for the review
  - A team of consultants selected by the Chancellor’s staff visits the institution to ensure that the proposed degree meets the General Standards for Academic Programs. If the new degree contains a program that leads to educator licensure or endorsement, the team includes experts in the area of the license or endorsement. One or more members of the Chancellor’s staff also attend the review
  - The fees and expenses for the consultants are paid by the proposing institution; the fees submitted with the Letter of Commitment cover the expenses of the Chancellor’s staff
  - During the site visit, consultants identify suggestions and recommendations for the institution and prepare a draft Consultants’ Report; the consultants present the draft report during the exit interview
  - A final Consultants’ Report is sent to the institution within three weeks of the visit

- **Institutional Response.** The proposing institution prepares an Institutional Response to the recommendations in the Consultants’ Report
  - Institutions have up to 60 days to prepare an Institutional Response, but the response must be received by the Chancellor’s staff at least three months prior to the planned implementation of the new degree
  - The Institutional Response must demonstrate compliance with the consultants’ recommendations, which are binding items; in the case of recommendations that can only be complied with over time, the institution must present a plan and a timeline for compliance as part of the Institutional Response.
  - The Chancellors’ staff, with input from the consultants as needed, review the Institutional Response to determine whether all recommendations have been satisfied

- **Public Comment Period.** Once the recommendations have been satisfied, a background summary are posted on the Ohio Board of Regents’ web site (http://regents.ohio.gov/programapproval/pending.php) for a 10-day public comment period
• **Chancellor’s Approval.** The request and public comments are forwarded to the Chancellor for final consideration and approval; the length and conditions of the approval are stipulated in the background summary.

• **Certificate of Authorization Issued.** A new or a revised *Certificate of Authorization* is issued to the institution; if the institution is incorporated, the institution shall file a copy of the certificate of authorization with the secretary of state as required by section 1713.02 of the Revised Code.

• **Progress Reports.** New degrees are typically approved for a three-year period with an annual progress report due each year; the link to the instructions and template for the *Progress Report* is included in Appendix F, but institutions should discuss progress report requirements with the Chancellor’s staff before proceeding to ensure that all requirements are met.
d. **New Undergraduate or Graduate Degrees at Authorized Institutions (Option for Continuously Authorized\(^8\) Institutions)**

**New General Undergraduate and Graduate Degrees.** An institution seeking authorization to offer a new degree level, either general undergraduate degrees such as the associate of arts, associate of science, bachelor of arts and bachelor of science or general graduate degrees such as master of arts, master of science, or PhD, beyond those listed on its current Certificate of Authorization may choose to obtain an amended Certificate of Authorization using the steps outlined below.

- **Initial Inquiry Survey.** The institution submits an *Initial Inquiry Survey* to begin the approval process.
  - The link to the *Initial Inquiry Survey* is included in Appendix F.
  - If the new degree contains a program that leads to educator licensure or endorsement, the educator preparation program review are coordinated with staff members in the educator preparation program approval area.
  - Once the Survey is received, a member of the Chancellor’s staff contacts the institution to clarify the request, provide any necessary forms and discuss the steps in the approval process.

- **Letter of Commitment.** The institution’s president or chief academic officer notifies the Chancellor of the institution’s intent to seek approval for a new degree level from HLC by submitting a *Letter of Commitment* (see Appendix F) and the required fees at least two months prior to the HLC visit.
  - The *Letter of Commitment* must include a section attesting that the new degree meets the *General Standards for Academic Programs*.
  - If the new degree contains a program that leads to educator licensure or endorsement, the *Letter of Commitment* must indicate the areas of licensure or endorsement that the institution intends to offer, as additional reviews will be coordinated with staff members who oversee the approval of educator preparation programs.

- **Posting of Request.** Once the *Letter of Commitment* and fees are received, the institution and name of proposed degree is posted on the Ohio Board of Regents’ website: [http://regents.ohio.gov/programapproval/pending.php](http://regents.ohio.gov/programapproval/pending.php).

- **Proposal Materials.** The Chancellor’s staff accepts materials prepared for HLC in lieu of the standard Board of Regents proposal. The institution coordinates with the

---

\(^8\) Continuously authorized institutions are non-profit institutions that have been continuously authorized by the Chancellor and continuously accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools (HLC) for more than 20 years.
Chancellor’s staff to ensure that the office receives the materials received by the HLC and the HLC site visit team prior to the visit.

- **Site Visit.** A representative of the Chancellor accompanies the HLC site visit team and observes the HLC accreditation team’s site visit activities; if the proposed new degree contains a program that leads to educator licensure or endorsement, the institution must coordinate the degree approval with the approval of education licenses and endorsements.

- **Documentation of HLC Approval.** The institution is responsible for submitting evidence, including HLC team reports, institutional responses and final determinations, demonstrating that the new degree has been approved by HLC; the Chancellor must be informed immediately if accreditation is denied so that the standard review process (Section 1.c.) can be initiated.

- **Public Comment Period.** Once HLC approval has been obtained, a background summary is posted on the Ohio Board of Regents’ web site (http://regents.ohio.gov/programapproval/pending.php) for a 10-day public comment period.

- **Chancellor’s Approval.** The request and public comments are forwarded to the Chancellor for final consideration and approval; the length and conditions of the approval are stipulated in the background summary.

- **Certificate of Authorization Issued.** A new or a revised Certificate of Authorization is issued to the institution; if the institution is incorporated, the institution shall file a copy of the certificate of authorization with the secretary of state as required by section 1713.02 of the Revised Code.

- **Progress Reports.** If progress or follow-up reports are required as part of the HLC accreditation process, the institution is responsible for sending all such communication to the Chancellor’s staff when it is sent to HLC and for immediately sending the Chancellor all communication received from HLC.
• **New Technical or Professional Undergraduate and Graduate Degrees for Which Specialized Accreditation is Available and HLC Approval is Not Required**

An institution seeking authorization to expand specialized undergraduate technical or professional education programs (e.g., the associate of applied business in accounting, associate of applied science in respiratory therapy, bachelor of music, bachelor of science in nursing, bachelor of fine arts) or to expand graduate degrees in specialized fields of study (e.g., master of business administration, master of social work, master of fine arts, doctor of education or the doctor of business administration) beyond those listed on its current Certificate of Authorization may obtain an amended Certificate of Authorization using the steps outlined below.

- **Initial Inquiry Survey.** The institution submits an *Initial Inquiry Survey* to begin the approval process.
  - The link to the *Initial Inquiry Survey* is included in Appendix F.
  - If the new degree contains a program that leads to educator licensure or endorsement, the educator preparation program review are coordinated with staff members in the educator preparation program approval area.
  - Once the Survey is received, a member of the Chancellor’s staff contacts the institution to clarify the request, provide any necessary forms and discuss the steps in the approval process.

- **Letter of Commitment.** The institution’s president or chief academic officer notifies the Chancellor of the institution’s intent to seek accreditation of the new program from a professional accreditor recognized by the US Department of Education or CHEA by submitting a *Letter of Commitment* (Appendix F) and the required fees prior to the initiation of the accreditation process.
  - The *Letter of Commitment* includes a section attesting that the new degree meets all standards outlined in the *Requirements of Academic Programs* section of this manual.
  - If the new degree contains a program that leads to educator licensure or endorsement, the *Letter of Commitment* must indicate the areas of licensure or endorsement that the institution intends to offer, as additional reviews will be coordinated before the program can be offered.

- **Posting of Request.** Once the *Letter of Commitment* and fees are received, the institution and name of proposed degree is posted on the Ohio Board of Regents’ website: [http://regents.ohio.gov/programapproval/pending.php](http://regents.ohio.gov/programapproval/pending.php)

- **Proposal Materials.** The Chancellor’s staff accepts materials prepared for the professional accreditor in lieu of the standard Board of Regents proposal. The

---

9 If approval for offering the program is required by HLC, the approval process for new general undergraduate and graduate degrees outlined will be followed.
institution coordinates with the Chancellor’s staff members to ensure that the office receives all materials received by professional accreditor

- **Documentation of Accreditor’s Approval.** The institution is responsible for submitting evidence, including team reports, institutional responses and final determinations, demonstrating that the new degree has been approved by the accreditor; the Chancellor must be informed immediately if accreditation is denied so that the standard review process (Section 1.c.) can be initiated

- **Public Comment Period.** Once approval has been received from the accreditor, a background summary are posted on the Ohio Board of Regents’ web site (http://regents.ohio.gov/programapproval/pending.php) for a 10-day public comment period

- **Chancellor’s Approval.** The request and public comments are forwarded to the Chancellor for final consideration and approval; the length and conditions of the approval are stipulated in the background summary

- **Certificate of Authorization Issued.** A new or a revised Certificate of Authorization is issued to the institution; if the institution is incorporated, the institution shall file a copy of the certificate of authorization with the secretary of state as required by section 1713.02 of the Revised Code

- **Progress Reports.** If progress or follow-up reports are required as part of the accreditation process, the institution is responsible for sending all such communication to the Chancellor’s staff when it is sent to the accreditor and for immediately sending the Chancellor all communication received from the accreditor
Guidelines and Procedures for Academic Program Review

- **New Technical or Professional Undergraduate and Graduate Degrees for which Professional Accreditation is Available Only After a Period of Program Operation**

  If a specialized accreditor will not accredit a program until a period of operation has passed and if prior approval for offering the program is not\(^ {10} \) required by HLC, the institution may offer the program while specialized accreditation is pending using the steps outlined below.

  - **Initial Inquiry Survey.** The institution submits an *Initial Inquiry Survey* to begin the approval process.
    - The link to the *Initial Inquiry Survey* is included in Appendix F.
    - If the new degree contains a program that leads to educator licensure or endorsement, the educator preparation program review are coordinated with staff members in the educator preparation program approval area.
    - Once the *Survey* is received, a member of the Chancellor’s staff contacts the institution to clarify the request, provide any necessary forms and discuss the steps in the approval process.

  - **Letter of Commitment.** The institution’s president or chief academic officer notifies the Chancellor of the institution’s intent to seek accreditation of the new program from a professional accreditor recognized by the US Department of Education or CHEA by submitting a *Letter of Commitment* (Appendix F) and the required fees prior to the initiation of the accreditation process.
    - The *Letter of Commitment* includes a section attesting that the new degree meets all standards outlined in the *Requirements of Academic Programs* section of this manual.
    - The *Letter of Commitment* provides an estimate of the date that professional accreditation will be sought.
    - If the new degree contains a program that leads to educator licensure or endorsement, the *Letter of Commitment* must indicate the areas of licensure or endorsement that the institution intends to offer, as additional reviews must occur before the program can be offered.

  - **Posting of Request.** Once the *Letter of Commitment* and fees are received, the institution and name of proposed degree is posted on the Ohio Board of Regents’ website: [http://regents.ohio.gov/programapproval/pending.php](http://regents.ohio.gov/programapproval/pending.php).

  - **Proposal Materials.** Once the program has reached the time when professional accreditation can be sought, the Chancellor’s staff accepts materials prepared for the professional accreditor in lieu of the standard Board of Regents proposal;\(^ {10} \)

---

\(^ {10} \) If prior approval for offering the program is required by HLC, the approval process for new general undergraduate and graduate degrees outlined will be followed.
the institution coordinates with the Chancellor’s staff members to ensure that the office receives all materials received by the professional accreditor

- **Documentation of Accreditor’s Approval.** The institution is responsible for submitting evidence, including team reports, institutional responses and final determinations, demonstrating that the new degree has been approved by the accreditor. The Chancellor must be informed immediately if the institution decides not to seek professional accreditation or if accreditation is denied so that the standard review process (Section 1.c.) can be initiated.

- **Public Comment Period.** Once approval has been received from the accreditor, a background summary are posted on the Ohio Board of Regents’ web site (http://regents.ohio.gov/programapproval/pending.php) for a 10-day public comment period.

- **Chancellor’s Approval.** The request and public comments are forwarded to the Chancellor for final consideration and approval; the length and conditions of approval are stipulated in the background summary.

- **Certificate of Authorization Issued.** A new or a revised Certificate of Authorization is issued to the institution; if the institution is incorporated, the institution shall file a copy of the certificate of authorization with the secretary of state as required by section 1713.02 of the Revised Code.

- **Progress Reports.** If progress or follow-up reports are required as part of the accreditation process, the institution is responsible for sending all such communication to the Chancellor’s staff when it is sent to the accreditor and for immediately sending the Chancellor all communication received from the accreditor.
• **New Technical or Professional Undergraduate and Graduate Degrees for which Professional Accreditation is Not Available**

If the specialized degree does not have a specialized accreditor and if prior approval for offering the program is not\(^{11}\) required by HLC, the institution may obtain an amended Certificate of Authorization using the steps outlined below:

- **Initial Inquiry Survey.** The institution submits an *Initial Inquiry Survey* to begin the approval process.
  - The link to the *Initial Inquiry Survey* is included in Appendix F.
  - If the new degree contains a program that leads to educator licensure or endorsement, the educator preparation program review are coordinated with staff members in the educator preparation program approval area.
  - Once the *Survey* is received, a member of the Chancellor’s staff contacts the institution to clarify the request, provide any necessary forms and discuss the steps in the approval process.

- **Letter of Commitment.** The institution’s president or chief academic officer notifies the Chancellor of the institution’s intent to offer a new degree program for which professional accreditation is not available.
  - The *Letter of Commitment* attests that a specialized accreditor does not exist for the degree.
  - The *Letter of Commitment* includes a section attesting that the new degree meets all standards outlined in the *Requirements of Academic Programs* section of this manual.
  - The Letter of Commitment includes a formal request to the Chancellor, which includes the rationale for the degree and evidence of formal institutional approval of the degree.
  - If the new degree contains a program that leads to educator licensure or endorsement, the *Letter of Commitment* must indicate the areas of licensure or endorsement that the institution intends to offer, as additional reviews must be conducted before the program can be offered.

- **Public Comment Period.** Once the Letter of Commitment has been approved, a background summary are posted on the Ohio Board of Regents’ web site ([http://regents.ohio.gov/programapproval/pending.php](http://regents.ohio.gov/programapproval/pending.php)) for a 10-day public comment period.

---

\(^{11}\) If prior approval for offering the program is required by HLC, the approval process for new general undergraduate and graduate degrees outlined will be followed.
○ **Chancellor’s Approval.** The request and public comments are forwarded to the Chancellor for final consideration and approval; the length and conditions of approval are stipulated in the background summary.

○ **Certificate of Authorization Issued.** A new or a revised *Certificate of Authorization* is issued to the institution; if the institution is incorporated, the institution shall file a copy of the certificate of authorization with the secretary of state as required by section 1713.02 of the Revised Code.
3. Requests for New Majors or Degree Programs within Approved Degrees

Majors and degree programs are defined as a course of study within a discipline, which contain more than 30 semester (or 45 quarter) hours

a. New Undergraduate Majors or Degree Programs at Ohio Public Colleges and Universities

   o Initial Inquiry Survey. The institution submits an Initial Inquiry Survey to begin the approval process
     o The link to the Initial Inquiry Survey is included in Appendix F
     o If the new major contains a program that leads to educator licensure or endorsement, the educator preparation program review are coordinated with staff members in the educator preparation program approval area
     o Once the Survey is received, a member of the Chancellor’s staff contacts the institution to clarify the request, provide any necessary forms and discuss the steps in the approval process; the Chancellor’s staff also shares the information with the individuals charged with oversight of the Ohio Board of Regents Course and Program Sharing Network

   ▪ Letter of Commitment. The institution’s president or chief academic officer submits a Letter of Commitment at least six months prior to the planned implementation of the new major or degree program; the Letter of Commitment may be submitted prior to the completion of internal institutional approval processes
     o The link to the Letter of Commitment template is included in Appendix F
     o If the new major or degree program leads to educator licensure or endorsement, the Letter of Commitment must indicate the areas of licensure or endorsement that the institution intends to offer; each area of licensure requires a separate review and may require a site visit.

   ▪ Posting of Request. Once the Letter of Commitment is received, the institution and name of proposed major or degree program is posted on the Ohio Board of Regents’ website: http://regents.ohio.gov/programapproval/pending.php

   ▪ Submission of Proposal. After the new degree has received all of the required internal approvals, the institution’s president or chief academic officer submits a Proposal at least three months prior to the planned implementation of the new major or degree program. The Proposal provides information to demonstrate that the major or degree program meets the General Standards for Academic Programs.
     o The link to the Proposal template is included in Appendix F, but institutions should discuss proposal format with the Chancellor’s staff before proceeding to ensure that the appropriate forms are completed
     ▪ If the new major or degree program leads to an education license or endorsement, approval for the license or endorsement must also be obtained.
Guidelines and Procedures for Academic Program Review

- A Proposal must be submitted within one year of submission of the Letter of Commitment or a new Letter of Commitment is required

- **Staff Review of Proposal.** Chancellor’s staff members review the proposal for completeness prior to presentation for expert comment from peer institutions

- **Peer Review of Proposal.**
  - The proposal are circulated to a listserv of campus contacts to solicit comments from experts within the discipline
  - The peer review focuses on the qualifications, experience and sufficiency of faculty, the adequacy of the curriculum and its alignment with expectations for the discipline, the need for the degree and the resources (e.g., classrooms, libraries, technology, laboratory, equipment) available to support the degree
  - Peer institutions will have 30 to submit comments to the listserv

- **Resolution of Concerns.** The Chancellor’s staff members work with the institution proposing the program to address questions or concerns raised during the peer comment period

- **Public Comment Period.** If the program is recommended to the Chancellor for approval, a background summary is posted on the Ohio Board of Regents’ web site (http://regents.ohio.gov/programapproval/pending.php) for a 10-day public comment period.

- **Chancellor’s Approval.** The background piece and public comments are forwarded to the Chancellor for final approval; the length and conditions of the approval are stipulated in the background summary
b. New Graduate Majors or Degree Programs at Ohio Public Graduate Universities (and University of Dayton and Case Western Reserve University)

The Regents’ Advisory Committee on Graduate Studies (RACGS) oversees the peer review of new graduate program requests. The members of RACGS are the graduate deans (or designees) of each of Ohio’s public research institutions and the University of Dayton and Case Western Reserve University.

The process for the approval of new graduate programs at Ohio public universities and at the University of Dayton and Case Western Reserve University are described in the *Guidelines and Procedures for the Review and Approval of Graduate Degree Programs*, which is available online at: https://www.ohiohighered.org/sites/ohiohighered.org/files/uploads/racgs/documents/RACGS_Guidelines_113012.pdf

Individuals at Ohio public universities and the University of Dayton and Case Western Reserve University interested in seeking approval for new graduate programs should begin by contacting the institution’s representative to RACGS. A listing of current RACGS members is available online at: https://www.ohiohighered.org/racgs/roster

https://www.ohiohighered.org/racgs/roster
c. **New Undergraduate or Graduate Majors or Degree Programs at Authorized**\(^{12}\) **Institutions**

Institutions that have been authorized to offer general undergraduate degrees such as the associate of arts, associate of science, bachelor of arts or bachelor of science are ordinarily granted authorization for the liberal arts and sciences majors and degree programs commonly recognized by award of these degrees. Thus, a request for authorization of new majors or programs within these general degrees is normally not required.

Requests for an expansion of authorization is required, however, when an institution intends to offer new majors or degree programs in specialized technical or professional fields at the undergraduate level or when the institution intends to offer any new major or degree program at the graduate level.

An authorized institution seeking to expand its scope of authorization to areas beyond those listed on its current Certificate of Authorization may obtain an amended Certificate of Authorization using the steps outlined below.

- **Initial Inquiry Survey.** The institution submits an *Initial Inquiry Survey* to begin the approval process
  - The link to the *Initial Inquiry Survey* is included in Appendix F
  - If the new major contains a program that leads to educator licensure or endorsement, the educator preparation program review is coordinated with staff members in the educator preparation program approval area
  - Once the Survey is received, a member of the Chancellor’s staff contacts the institution to clarify the request, provide any necessary forms and discuss the steps in the approval process

- **Letter of Commitment.** The institution’s president or chief academic officer submits a *Letter of Commitment* and the required fees at least six months prior to the planned implementation of the new degree; the *Letter of Commitment* may be submitted prior to the completion of internal institutional approval processes
  - The link to the *Letter of Commitment* template is included in Appendix F.
  - If the new degree program leads to educator licensure or endorsement, the *Letter of Commitment* must indicate the areas of licensure or endorsement that the institution intends to offer; each area of licensure or endorsement requires a review

---

\(^{12}\) As noted in Ohio Administrative Code Rule 3333-1-08, a non-profit institution that has been continuously authorized by the Chancellor and continuously accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools (HLC) for more than 20 years may choose to follow the approval process described in section 2.d. below, *Option for Continuously Authorized Institutions.*
Guidelines and Procedures for Academic Program Review

- **Posting of Request.** Once the Letter of Commitment and fees are received, the institution and name of proposed major or program is posted on the Ohio Board of Regents’ website: [http://regents.ohio.gov/programapproval/pending.php](http://regents.ohio.gov/programapproval/pending.php)

- **Proposal.** After the new degree has received all of the required internal approvals, the institution’s president or chief academic officer submits the Proposal at least six months prior to the planned implementation of the new major or degree program; the Proposal provides information to demonstrate that the program meets the General Standards for Academic Programs
  - The link to the Proposal template is included in Appendix F, but institutions should discuss proposal format with the Chancellor’s staff before proceeding to ensure that the appropriate forms are completed
  - If the new degree program leads to an education license or endorsement, the Proposal must also include the materials required for review of the educator licensure or endorsement program
  - A Proposal must be submitted within one year of the submission of the Letter of Commitment or a new Letter of Commitment is required

- **Staff Review of Proposal.** Chancellor’s staff members review the proposal for completeness prior to scheduling the document review.

- **Document Review and Preparation of Consultants’ Report.**
  - A team of consultants selected by the Chancellor’s staff completes a “document review” of the Proposal to ensure that the proposed major or degree program meets the General Standards for Academic Programs
  - If the new degree program leads to educator licensure or endorsement, the team includes experts in the area of licensure or endorsement; licensure and endorsement programs may require a site visit by program experts and a member of the Chancellor’s staff
  - The proposing institution pays the fees and expenses for the consultants; the fees submitted with the Letter of Commitment cover the expenses of the Chancellor’s staff
  - The consultants determine suggestions and recommendations for the institution and prepare a Consultants’ Report, which is sent to the institution within three months of the receipt of a complete proposal.

- **Institutional Response.** The proposing institution prepares an Institutional Response to the recommendations in the Consultants’ Report
  - Institutions have up to 60 days to prepare an Institutional Response, but the Institutional Response must be received by the Chancellor’s staff at least three months before the proposed start date of the program

---

13 The Chancellor’s staff members reserve the right to schedule an abbreviated site visit if the consultants call into question the institution’s resources to mount the new major or degree program.
Guidelines and Procedures for Academic Program Review

- The Institutional Response must demonstrate compliance with the consultants’ recommendations, which are binding items; in the case of recommendations that can only be complied with over time, the institution must present a plan and a timeline for compliance as part of the Institutional Response.

- The Chancellor’s staff, with input from the consultants as needed, review the Institutional Response to determine whether all recommendations have been satisfied.

- **Public Comment Period.** Once the recommendations have been satisfied, a background summary is posted on the Ohio Board of Regents’ web site (http://regents.ohio.gov/programapproval/pending.php) for a 10-day public comment period.

- **Chancellor’s Approval.** The request and public comments are forwarded to the Chancellor for final consideration and approval; the length and conditions of approval are stipulated in the background summary.

- **Certificate of Authorization Issued.** A new or a revised Certificate of Authorization is issued to the institution; if the institution is incorporated, the institution shall file a copy of the certificate of authorization with the secretary of state as required by section 1713.02 of the Revised Code.

- **Progress Reports.** New majors and degree programs are typically approved for a three-year period with an annual progress report due each year; the link to the instructions and template for the Progress Report is included in Appendix F, but institutions should discuss progress report requirements with the Chancellor’s staff before proceeding to ensure that all requirements are met.
d. New Undergraduate or Graduate Majors or Degree Programs at Authorized Institutions (Option for Continuously Authorized\textsuperscript{14} Institutions)

Institutions that have been authorized to offer general undergraduate degrees such as the associate of arts, associate of science, bachelor of arts or bachelor of science are ordinarily granted authorization for the liberal arts and sciences majors and degree programs commonly recognized by award of these degrees. Thus, a request for authorization of new majors or programs within these general degrees is normally not required.

Requests for an expansion of authorization is required, however, when an institution intends to offer new majors or degree programs in specialized technical or professional field at the undergraduate level or when the institution intends to offer any new major or degree program at the graduate level.

A continuously authorized institution seeking to expand its scope of authorization to areas beyond those listed on its current Certificate of Authorization may obtain an amended Certificate of Authorization using the steps outlined below.

\textsuperscript{14} Continuously authorized institutions are non-profit institutions that have been continuously authorized by the Chancellor and continuously accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools (HLC) for more than 20 years.
Guidelines and Procedures for Academic Program Review

- **New Technical or Professional Majors or Programs for which Specialized Accreditation is Available**

  An institution seeking authorization to add technical or professional majors or programs at the undergraduate or graduate level beyond those listed on its current Certificate of Authorization may obtain an amended Certificate of Authorization using the steps outlined below

  o **Initial Inquiry Survey.** The institution submits an *Initial Inquiry Survey* to begin the approval process
  
  o The link to the *Initial Inquiry Survey* is included in Appendix F
  
  o If the new degree contains a program that leads to educator licensure or endorsement, the educator preparation program review is coordinated with staff members in the educator preparation program approval area
  
  o Once the *Survey* is received, a member of the Chancellor’s staff contacts the institution to clarify the request, provide any necessary forms and discuss the steps in the approval process

  o **Letter of Commitment.** The institution’s president or chief academic officer notifies the Chancellor of the institution’s intent to seek accreditation of the new program from a professional accreditor recognized by the US Department of Education or CHEA by submitting a *Letter of Commitment* (Appendix F) and the required fees prior to the initiation of the accreditation process
  
  o The *Letter of Commitment* includes a section attesting that the new program meets all standards outlined in the *Requirements of Academic Programs* section of this manual
  
  o If the new program leads to educator licensure or endorsement, the Letter of Commitment must indicate the areas of licensure or endorsement that the institution intends to offer, as additional reviews must be coordinated

- **Posting of Request.** Once the *Letter of Commitment* and fees are received, the institution and name of proposed program is posted on the Ohio Board of Regents’ website: [http://regents.ohio.gov/programapproval/pending.php](http://regents.ohio.gov/programapproval/pending.php)

- **Proposal Materials.** The Chancellor’s staff accepts materials prepared for the professional accreditor in lieu of the standard Board of Regents proposal; the institution coordinates with the Chancellor’s staff members to ensure that the office receives all materials received by professional accreditor

- **Documentation of Accradiator’s Approval.** The institution is responsible for submitting evidence, including team reports, institutional responses and final determinations, demonstrating that the new program has been approved by the accreditor; the Chancellor must be informed immediately if accreditation is denied so that the standard review process (Section 2.c.) can be initiated
• **Public Comment Period.** Once approval has been received from the accredditor, a background summary is posted on the Ohio Board of Regents’ web site ([http://regents.ohio.gov/programapproval/pending.php](http://regents.ohio.gov/programapproval/pending.php)) for a 10-day public comment period.

• **Chancellor’s Approval.** The request and public comments are forwarded to the Chancellor for final consideration and approval; the length and conditions of approval are stipulated in the background summary.

• **Certificate of Authorization Issued.** A new or a revised *Certificate of Authorization* is issued to the institution; if the institution is incorporated, the institution shall file a copy of the certificate of authorization with the secretary of state as required by section 1713.02 of the Revised Code.

  o **Progress Reports.** If progress or follow-up reports are required as part of the accreditation process, the institution is responsible for sending all such communication to the Chancellor’s staff when it is sent to the accredditor and for immediately sending the Chancellor all communication received from accredditor.
• **New Technical or Professional Majors or Degree Programs for which Professional Accreditation is Available Only After a Period of Program Operation**

If a specialized accreditor will not accredit a program until a period of operation has passed, the institution may offer the program while specialized accreditation is pending using the steps outlined below

- **Initial Inquiry Survey.** The institution submits an *Initial Inquiry Survey* to begin the approval process
  - The link to the *Initial Inquiry Survey* is included in Appendix F
  - If the new degree contains a program that leads to educator licensure or endorsement, the educator preparation program review is coordinated with staff members in the educator preparation program approval area
  - Once the *Survey* is received, a member of the Chancellor’s staff contacts the institution to clarify the request, provide any necessary forms and discuss the steps in the approval process

- **Letter of Commitment.** The institution’s president or chief academic officer notifies the Chancellor of the institution’s intent to seek accreditation of the new program from a professional accreditor recognized by the US Department of Education or CHEA by submitting a *Letter of Commitment* (Appendix F) and the required fees prior to the initiation of the accreditation process
  - The *Letter of Commitment* includes a section attesting that the new program meets all standards outlined in the *Requirements of Academic Programs* section of this manual
  - The *Letter of Commitment* provides an estimate of the date that professional accreditation will be sought
  - If the new program leads to educator licensure or endorsement, the *Letter of Commitment* must indicate the areas of licensure or endorsement that the institution intends to offer, as additional reviews must be conducted prior to program implementation

- **Posting of Request.** Once the *Letter of Commitment* and fees are received, the institution and name of proposed program is posted on the Ohio Board of Regents’ website: [http://regents.ohio.gov/programapproval/pending.php](http://regents.ohio.gov/programapproval/pending.php)

- **Proposal Materials.** Once the program has reached the time when professional accreditation can be sought, the Chancellor’s staff accepts materials prepared for the professional accreditor in lieu of the standard Board of Regents proposal; the institution coordinates with the Chancellor’s staff members to ensure that the office receives all materials received by professional accreditor

- **Documentation of Accreditor’s Approval.** The institution is responsible for submitting evidence, including team reports, institutional responses and final
determinations, demonstrating that the new program has been approved by the accredditor. The Chancellor must be informed immediately if the institution decides not to seek professional accreditation or if accreditation is denied so that the standard review process (Section 2.c.) can be initiated

- **Public Comment Period.** Once approval has been received from the accredditor, a background summary is posted on the Ohio Board of Regents’ web site (http://regents.ohio.gov/programapproval/pending.php) for a 10-day public comment period

- **Chancellor’s Approval.** The request and public comments are forwarded to the Chancellor for final consideration and approval; the length and conditions of approval are stipulated in the background summary

- **Certificate of Authorization Issued.** A new or a revised *Certificate of Authorization* is issued to the institution; if the institution is incorporated, the institution shall file a copy of the certificate of authorization with the secretary of state as required by section 1713.02 of the Revised Code

- **Progress Reports.** If progress or follow-up reports are required as part of the accreditation process, the institution is responsible for sending all such communication to the Chancellor’s staff when it is sent to the accredditor and for immediately sending the Chancellor all communication received from the accredditor
Guidelines and Procedures for Academic Program Review

- **New Technical or Professional Majors or Degree Programs for which Professional Accreditation is Not Available**

  If the new program does not have a specialized accreditor, the institution may obtain an amended Certificate of Authorization using the steps outlined below

  - **Letter of Commitment.** The institution’s president or chief academic officer notifies the Chancellor of the institution’s intent to offer a new program for which professional accreditation is not available
    - The *Letter of Commitment* attests that a specialized accreditor does not exist for the degree
    - The *Letter of Commitment* includes a section attesting that the new program meets all standards outlined in the Requirements of Academic Programs section of this manual
    - The *Letter of Commitment* includes a formal request to the Chancellor, which includes the rationale for the program and evidence of formal institutional approval of the program
    - If the new program leads to educator licensure or endorsement, the *Letter of Commitment* must indicate the areas of licensure or endorsement that the institution intends to offer, as additional reviews must be conducted before the program can be implemented

  - **Public Comment Period.** Once the *Letter of Commitment* has been approved, a background summary is posted on the Ohio Board of Regents’ web site ([http://regents.ohio.gov/programapproval/pending.php](http://regents.ohio.gov/programapproval/pending.php)) for a 10-day public comment period

  - **Chancellor’s Approval.** The request and public comments are forwarded to the Chancellor for final consideration and approval; the length and conditions of approval are stipulated in the background summary

  - **Certificate of Authorization Issued.** A new or a revised *Certificate of Authorization* is issued to the institution; if the institution is incorporated, the institution shall file a copy of the certificate of authorization with the secretary of state as required by section 1713.02 of the Revised Code
4. Requests for New Programs Leading to Education Licenses or Endorsements When Awarded Independent of a Degree or Degree Program (All Institution Types)

All requests for new education licenses or endorsements awarded independent of a degree or degree program must be reviewed. Reviews of requests for licenses and endorsements are conducted periodically based on a schedule determined by the Ohio Department of Education and the Ohio Board of Regents and do not normally require a site visit. The review process is the same for Ohio public institutions, Ohio private institutions and out-of-state institutions.

- **Initial Inquiry Survey.** The institution submits an *Initial Inquiry Survey* to begin the approval process
  - The link to the *Initial Inquiry Survey* is included in Appendix F
  - Once the Survey is received, a member of the Chancellor’s staff contacts the institution to clarify the request, provide any necessary forms and discuss the steps in the approval process

- **Letter of Commitment.** The institution’s president or chief academic officer submits a *Letter of Commitment* at least six months prior to the planned implementation of the new program. The *Letter of Commitment* may be submitted prior to the completion of internal institutional approval processes.

- **Posting of Request.** Once the *Letter of Commitment* and fees (required for independent and out-of-state institutions) are received, the institution and name of proposed program is posted on the Ohio Board of Regents’ website: [http://regents.ohio.gov/programapproval/pending.php](http://regents.ohio.gov/programapproval/pending.php)

- **Proposal.** The institution’s president or chief academic officer submits the applicable *Proposal* at least four months prior to the planned implementation of the new licensure or endorsement program; the *Proposal* provides information to demonstrate that the program meets the standards set forth by the Ohio Department of Education and the Chancellor of the Ohio Board of Regents
  - The link to the *Proposal* template is included in Appendix F, but institutions should discuss proposal format with the Chancellor’s staff before proceeding to ensure that the appropriate forms are completed and the review schedule is understood
  - All internal institutional approvals must be obtained before the *Proposal* is submitted

---

15 The Chancellor’s staff reserves the right to schedule an abbreviated site visit, if the consultants call into question the institution’s resources to mount the license or endorsement.
• **Staff Review.** Chancellor’s staff members review the *Proposal* for completeness prior to the review.

• **Document Review and Preparation of Consultants’ Report.**
  o A team of consultants selected by the Chancellor’s staff reviews the *Proposal* to ensure that the proposed program meets the licensure or endorsement standards
  o The consultants prepare a report, which includes suggestions and recommendations, and indicates whether the program is approved

• **Public Comment Period.** A background summary is posted on the Ohio Board of Regents’ web site ([http://regents.ohio.gov/programapproval/pending.php](http://regents.ohio.gov/programapproval/pending.php)) for a 10-day public comment period

• **Chancellor’s Approval.** The request and public comments are forwarded to the Chancellor for final consideration and approval; the length and conditions of approval are stipulated in the background summary
5. Requests for On-Ground Field and Clinical Experiences by Out-Of-State Public and Independent Institutions

Out-of-state institutions offering online programs that contain components (e.g., internships, externships, practicum, clinical placements, field placements, student teaching) that are completed in the state of Ohio may submit a request to the Chancellor of the Ohio Board of Regents to offer such experiences within the state.

- **Submission of form:**
  - A link to the form may be found in Appendix F. A separate form must be submitted for each program that contains an experience that Ohio residents must complete in Ohio.
  - If multiple programs of study are embedded within a single degree designation (e.g., multiple majors within a Bachelor of Science degree), the institution is required to submit a separate form and fee for each program of study within the degree that contains a component that must be completed in Ohio.

- **Submission of fees:**
  - Fees are assessed pursuant to Chapter 3333-1-13 of the Ohio Administrative Code.

- **Staff review:**
  - The submission of a request is not considered complete until all materials and fees are received. Once complete, the staff reviews the request and provides a determination within thirty days of receiving a complete request.

- **Authorization:**
  - Authorization of the request is limited to the experience being completed on-ground in Ohio. If the institution intends to offer additional coursework or entire degree programs on-ground in Ohio, the institution must complete the standard program authorization process.
  - Authorization of the request is issued for a period of three years.
  - The institution may submit subsequent requests for authorization after initial authorization is granted. The institution should attain authorization for new experiences in existing or additional programs prior to an Ohio resident completing the on-ground experience.
  - Authorization of the request does not make the institution eligible to participate in Ohio state aid programs.
  - Authorization of the request does not guarantee that the experience will meet other state licensing board requirements for professional certification and licensure. The institution is encouraged to contact those agencies where appropriate to determine if additional approval is needed to offer the experience in Ohio.
• **Note to for-profit institutions:**
  o For-profit institutions requesting authorization for programming at-or-below the associate degree level are not required to attain authorization from the Chancellor for the aforementioned activities. However, institutions of this type are encouraged to contact the Ohio State Board of Career Colleges and Schools to determine if approval is needed from that agency to engage in such activities in Ohio.
6. Requests for Solicitation by For-Profit Institutions

For-profit institutions that intend to engage in advertising and/or recruitment activities in the state of Ohio for instruction at-or-above the baccalaureate level may submit a request to the Chancellor of the Ohio Board of Regents to solicit Ohio residents.

- **Submission of form:**
  - A link to the form may be found in Appendix F. A separate form must be submitted for each program that the institution will solicit for in Ohio.
  - For-profit institutions that advertise and/or recruit within the state may also be required to be registered with the State Board of Career Colleges and Schools (SBCCS).
    - Institutions are encouraged to contact SBCCS to determine if approval is needed from that agency to engage in such activities in Ohio.
    - For-profit institutions that intend to solicit Ohio residents for programming at-or-below the associate level are not required to seek authorization from the Chancellor of the Ohio Board of Regents.

- **Submission of fees:**
  - Fees are assessed pursuant to [Chapter 3333-1-13](#) of the Ohio Administrative Code.

- **Staff review:**
  - The submission of a request is not considered complete until all materials and fees are received. Once complete, the staff reviews the request and provides a determination within thirty days of receiving a complete request.

- **Authorization:**
  - Authorization of the request is limited to solicitation activities for the program(s) submitted. Materials made available to Ohio residents must explicitly state that authorization is limited to such activities.
  - Authorization of the request is issued for a period of three years.
  - The institution may submit subsequent requests for authorization after initial authorization is granted.
  - Authorization of the request does not make the institution eligible to participate in Ohio state aid programs.
  - Authorization is not granted until the institution demonstrates that it has the approval of, or exemption from, the Ohio State Board of Career Colleges and Schools to engage in such activities.
  - Authorization of the request does not guarantee that the program to be advertised and/or recruited for will meet other state licensing board requirements for professional certification and licensure. The institution is encouraged to contact those agencies where appropriate to determine if
additional approval is needed to advertise and/or recruit for the program in Ohio.
Guidelines and Procedures for Academic Program Review

PROCEDURES FOR REQUESTS REQUIRING ADMINISTRATIVE APPROVAL (CHANGE REQUESTS)

The following requests, known as “change requests,” whether from Ohio public, Ohio private or out-of-state institutions, are normally handled through administrative (i.e., staff) approval:

- A request to change the name or title of the academic program when there is not a substantive change to the requirements for the program.
- A request for a substantive change to the curriculum of a degree, major, or education license or endorsement.
- A request to open a new off-campus location where more than 50% of the requirements of an approved degree or major will be delivered.
- A request to offer more than 50% of an approved degree or major at an existing off-campus location.
- A request to deliver more than 50% of the requirements for an approved degree or major in an online/blended format.
- A request to offer a new certificate program when the certificate is free standing, does not require enrollment in a concurrent degree program, and does not lead to an education license or endorsement.

The Chancellor’s staff members are able to handle most requests for changes to existing academic programs; however, staff members reserve the right to send the requests to an external consultant (and may even schedule an abbreviated site visit) if concerns arise during the review. The procedures followed are essentially the same for changes to undergraduate programs in Ohio public institutions and changes to undergraduate and graduate programs in private institutions. The procedures do vary slightly for graduate programs in public institutions and the University of Dayton and Case Western Reserve University, as those changes are vetted by the Regents Advisory Committee on Graduate Education (RACGS). The procedures will also differ in cases where the change is to a program that leads to an education license or endorsement. In order to reduce duplicative review processes, the Chancellor’s staff accepts materials prepared for regional and national accreditors and coordinates review processes as needed.

---

16 Substantive change is defined as a modification of 50% or more of the requirements for the academic program.

17 A substantive change in a program that leads to an education license or endorsement is defined as a modification of 50% or more to any course, field experience or assessment within the program.
1. Requests to Change Undergraduate Degrees or Majors at Ohio Public Colleges and Universities

- **Submission of the Change Request.** The institution’s president or chief academic officer submits the appropriate Change Request at least three months prior to the planned implementation of the change.
  - The link to the Change Request templates is included in Appendix F, but institutions should discuss the requested change with the Chancellor’s staff before proceeding to ensure that the appropriate template is completed.
  - As noted in the template, materials prepared for a regional or national accreditor can be submitted in place of materials prepared separately for the Chancellor.
  - If the program leads to an education license or endorsement, a separate review is needed; the review will be coordinated with educator preparation program approval staff members.

- **Staff Review of Request and Resolution of Concerns.** The Chancellor’s staff members review the request for change to ensure that the proposed changes are in line with the General Standards for Academic Programs and work with the institution to resolve any concerns.

- **Letter of Acknowledgement.** A letter acknowledging the approval of the change is sent to the president or chief academic officer of the institution.

2. Requests to Change Graduate Degrees or Majors at Ohio Public Universities (and the University of Dayton and Case Western Reserve University)

The Regents’ Advisory Committee on Graduate Studies (RACGS) provides peer review of graduate program change requests. The members of RACGS are the graduate deans (or designees) of each of Ohio’s public research institutions and the University of Dayton and Case Western Reserve University.

The process for changes to approved graduate programs at Ohio public universities and at the University of Dayton and Case Western Reserve University is described in the Guidelines and Procedures for the Review and Approval of Graduate Degree Programs, which is available online at:

Individuals at Ohio public universities and the University of Dayton and Case Western Reserve University interested in seeking approval for changes to existing graduate programs should begin by contacting the institution’s representative to RACGS. A listing of current RACGS members is included at: [https://www.ohiohighered.org/racgs/roster](https://www.ohiohighered.org/racgs/roster)

[https://www.ohiohighered.org/racgs/roster](https://www.ohiohighered.org/racgs/roster)
3. Requests to Change Undergraduate or Graduate Degrees at Authorized Institutions

- **Submission of the Change Request.** The institution’s president or chief academic officer submits the appropriate Change Request (e.g., name change, additional location, distance education, flexibly scheduled curriculum, curricular change) and associated fees at least three months prior to the planned implementation the change.
  - The link to the Change Request templates is included in Appendix F, but institutions should discuss the requested change with the Chancellor’s staff before proceeding to ensure that the appropriate template is completed.
  - As noted in the template, materials prepared for a regional or national accreditor can be submitted in place of materials prepared separately for the Chancellor.
  - If the program leads to an education license or endorsement, a separate review is needed; the review is coordinated with educator preparation program approval staff members.

- **Staff Review of Request and Resolution of Concerns.** The Chancellor’s staff members review the request for change to ensure that the proposed changes are in line with the General Standards for Academic Programs and work with the institution to resolve any concerns.

- **Letter of Acknowledgement.** A letter acknowledging the approval of the change is sent to the president or chief academic officer of the institution; approved changes are incorporated on the Institution’s Certificate of Authorization, as appropriate.

4. Requests to Change Programs That Lead to Education Licenses and Endorsements

The Ohio Revised Code requires the Chancellor of the Ohio Board of Regents to approve changes to programs that lead to education licenses and endorsements. For the purposes of review, change is defined as a modification of 50% or more to any course, field experience or assessment within a program that leads to an education license or endorsement.

The following process is used when changes to education programs do not meet the threshold for change to a degree or degree program (e.g., a 50% change to the requirements or delivery), but do meet the threshold for change to a program leading to an education license or endorsement.

- **Submission of the Change Request.** The institution’s president or chief academic officer submits the appropriate Education Change Request at least three months prior to the planned implementation the change.
Guidelines and Procedures for Academic Program Review

- The link to the *Change Request* templates is included in Appendix F, but institutions should discuss the requested change with the Chancellor’s staff before proceeding to ensure that the appropriate template is completed.

- **Staff Review of Request and Resolution of Concerns.** The Chancellor’s staff members review the request for change to ensure that the proposed changes are in line with the *General Standards for Academic Programs* and the standards set by the Ohio Department of Education; staff members work with the institution to resolve any concerns.

- **Letter of Acknowledgement.** A letter acknowledging the approval of the change is sent to the president or chief academic officer of the institution; approved changes are incorporated on the Institution’s *Certificate of Authorization*, as appropriate.
PROCEDURES FOR MAINTAINING APPROVAL

1. Periodic Review

The purpose of periodic review is to ensure that institutions operating in the state are following the General Standards for Academic Programs. The procedures differ depending upon whether the institution is an Ohio public institution or is an institution authorized to operate in the state of Ohio.

In order to reduce duplicative review processes, the Chancellor’s staff accepts materials prepared for regional and national accreditors and coordinates review processes as needed.

a. Periodic Review of Ohio Public Institutions

- **Notifying the Chancellor of the Institution’s Upcoming HLC Reaffirmation Review.** At least 12 months before the institution’s reaffirmation with HLC, the president or chief academic officer will notify the Chancellor’s staff of the upcoming reaffirmation review.

- **Submission of Materials for the Review.** As the HLC review proceeds, the institution’s president or chief academic officer submits all materials, including the accreditation application, team reports, institutional responses and final determinations to the Chancellor’s staff.

- **Letter of Acknowledgement.** A letter acknowledging the Chancellor’s receipt of the HLC outcome is sent to the president or chief academic officer of the institution.
b. Periodic Review of Authorized\textsuperscript{16} Institutions

- **Planning for the Review.** At least 12 months before the institution’s re-accreditation with its regional or national accreditor, the president or chief academic officer contacts a member of the Chancellor’s staff to discuss the process that it will be using with its accreditor (for example: the specific HLC process; or the process used by the institution’s national accreditor—e.g., ACICS, ACCSC, ATS). The coordination of the Chancellor’s review with the re-accreditation review is planned and a letter confirming the plan is sent to the institution’s president or chief academic officer.

- **Submission of Materials for the Review.** The institution’s president or chief academic officer submits the materials agreed upon during the planning phase; normally this material will include: a) materials that are submitted to the regional or national accreditor in preparation for the visit; and b) a brief supplement validating the accuracy of the Chancellor’s records regarding the academic programming offered in the state.

- **Attendance at the Site Visit.** The Chancellor will designate a representative (either a member of the Chancellor’s staff or a consultant) to attend the regional or national accreditation visit at the institution’s expense.

- **Staff Evaluation.** The Chancellor’s staff will use the materials submitted prior to the visit, observations during the visit, and the final report of the regional or national accreditation agency to ensure compliance with the *General Standards for Academic Programs*.

- **Public Comment Period.** Assuming there are no substantive issues identified in the review, a background summary is posted on the Ohio Board of Regents’ web site ([http://regents.ohio.gov/programapproval/pending.php](http://regents.ohio.gov/programapproval/pending.php)) for a 10-day public comment period.

- **Chancellor’s Approval.** The request and public comments are forwarded to the Chancellor for final consideration and approval; the length and conditions of approval is stipulated in the background summary.

- **Certificate of Authorization Issued.** A new certificate of authorization is issued to the institution; if the institution is incorporated, the institution shall file a copy of the certificate of authorization with the secretary of state as required by section 1713.02 of the Revised Code.

\textsuperscript{16} As noted in Ohio Administrative Code Rule 3333-1-08, a non-profit institution that has been continuously authorized by the Chancellor and continuously accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools (HLC) for more than 20 years may choose to follow the approval process described in section 1.c. below.
c. **Periodic Review of Authorized Institutions (Option for Continuously Authorized Institutions)**

- **Notifying the Chancellor of the Institutions Upcoming HLC Reaffirmation.** At least 12 months before the institution’s reaffirmation with HLC, the president or chief academic officer will notify the Chancellor’s staff of the upcoming reaffirmation review process; the notification includes a statement attesting that the institution meets the *General Standards for Academic Programs*

- **Submission of Materials for the Review.** The institution’s president or chief academic officer submits all materials, including the accreditation application, team reports, institutional responses and final determinations to the Chancellor’s staff

- **Public Comment Period.** Assuming there are no substantive issues identified in the review, a background summary is posted on the Ohio Board of Regents’ web site ([http://regents.ohio.gov/programapproval/pending.php](http://regents.ohio.gov/programapproval/pending.php)) for a 10-day public comment period

- **Chancellor’s Approval.** The request and public comments are forwarded to the Chancellor for final consideration and approval; the length and conditions of approval are stipulated in the background summary

- **Certificate of Authorization Issued.** A new certificate of authorization is issued to the institution; if the institution is incorporated, the institution shall file a copy of the certificate of authorization with the secretary of state as required by section 1713.02 of the Revised Code

---

19 Continuously authorized institutions are non-profit institutions that have been continuously authorized by the Chancellor and continuously accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools (HLC) for more than 20 years.
d. Periodic Review of Educator Preparation Programs, Licenses and Endorsements (All Institutions)

- **Unit Review.** Institutions that offer educator preparation programs that lead to an education license or endorsement will undergo an onsite review on a schedule determined by the Ohio Board of Regents, the Ohio Department of Education and the national accreditor (CAEP).

- **License and Endorsement Program Review.**
  - Periodic review of license and endorsement programs will occur on a schedule determined by the Chancellor and to coincide with national unit review.
  - Institutions can choose either review by a specialized professional accreditor (SPA) or the CAEP “Review with Feedback” for continuing approval.
  - In cases where the SPA Review or CAEP Review with Feedback cannot be completed or result in negative outcomes, the institution’s education program liaison may petition the Chancellor for a State Review; if the petition is accepted the review process described below is used.
    - **State Review Process**
      - The education unit’s designee submits the appropriate Proposal materials; proposal templates is included in Appendix F, but institutions should discuss proposal format with the educator preparation program approval staff before proceeding to ensure that the appropriate forms are completed.
      - Fees and expenses for the review, when required, are paid by the proposing institution when the Proposal is submitted.
      - Consultants review the Proposal to ensure that the proposed program meets the education license or endorsement standards.
      - The consultants prepare a report and recommends whether or not the program should be approved.

- **Resolution of Concerns.** The Chancellor’s staff members reviews the outcome of a) the SPA review; b) the CAEP Review with Feedback; or c) the State Review and work with the institution to resolve questions or concerns.

- **Public Comment Period.** If the program is recommended to the Chancellor for approval, a background summary is posted on the Ohio Board of Regents’ web site (http://regents.ohio.gov/programapproval/pending.php) for a 10-day public comment period.

- **Chancellor’s Approval.** The request and public comments are forwarded to the Chancellor for final consideration and approval; the length and conditions of approval are stipulated in the background summary.
2. Requirements for Authorized Institutions Undergoing a Major Change

Private and out-of-state institutions must inform the Chancellor whenever major changes occur that might affect the institution’s ability to deliver its academic programs. Major changes include, but are not necessarily limited to, a change of status (public, private not-for-profit, private for-profit), a change of ownership, a change in regional or national accreditation status or a change in resources. Institutions are responsible for notifying the Chancellor when such changes occur so that the appropriate steps can be taken to ensure continuing authorization of the institution and its programs.

The necessary steps may range from a formal letter to the Chancellor explaining the change (for changes that are expected to have minimal impact on the institution’s ability to deliver its programs) to a re-authorization of the institution and its programs, including a proposal, site visit and provisional authorization period (for changes that are expected to impact substantially the institution’s ability to deliver its programs). The Chancellor’s staff members work with each institution on a case-by-case basis to determine the steps needed to maintain authorization and coordinates authorization activities with the appropriate accreditors and state agencies.
3. Reporting National, Regional Or Specialized Accreditation Outcomes

All institutions authorized or approved to operate in Ohio (Ohio public, Ohio private, or out-of-state) must inform the Chancellor’s staff, in writing, any time a regional, national or specialized accreditor informs the institution of a finding that could place the institution’s or the program’s accreditation in jeopardy. Such findings include, but are not necessarily limited to, being placed on probation, being asked to “show cause”, being asked to submit special reports or undergo special visits, or being given shortened accreditation periods. The Chief Academic Officer of the institution is responsible for notifying the Chancellor when such accreditation outcomes occur, so that the appropriate steps can be taken to ensure continuing authorization or approval of the institution’s programs.

The necessary steps may range from a formal letter to the Chancellor explaining the accreditation outcome and the steps being taken to correct the problem (for outcomes that are expected to be easily addressed) to greater involvement by the Chancellor’s staff members with the accreditor (for outcomes that are expected to substantially impact the institution’s ability maintain accreditation for its programs). The Chancellor will assign staff to work with each institution to determine the steps needed to maintain approval and to coordinate activities with the appropriate accreditors and state agencies.

The Chancellor reserves the right to review an institution holding a certificate of authorization if the Chancellor has reasonable belief that the General Standards for Academic Programs are not being met or that a major change, such as those outlined in section 2 (above) has occurred.

The Chancellor’s staff members work with institutions on a case-by-case basis to determine the steps needed to maintain authorization, or if necessary, the step needed to initiate an initial authorization review and coordinates activities with the appropriate accreditors and state agencies.
APPENDICES
Appendix A: Definitions

Approval: The terminology applied to the approval of new degrees, new majors within degrees or substantive changes to existing educational programs within Ohio public colleges and universities. This terminology also applies to the approval of educator preparation licenses and endorsements at all institutions.

Authorization: The terminology applied to the approval of independent and out-of-state institutions to confer degrees or courses applicable to degrees in the state of Ohio or to substantively change existing education programs offered in Ohio.

Credit hour: A minimum of 750 minutes (semester credit hour) or 500 minutes (quarter credit hour) of formalized instruction that typically requires students to work at out-of-class assignments an average of twice the amount of time as the amount of formalized instruction. Credit hours may be calculated differently for other types of instruction (e.g., laboratory experience, directed practice experience, practicum experience, cooperative work experience, field experience, observation experience, seminar, and studio experience) as long as the credit hour calculations align with commonly accepted practices in higher education and with the regulations of regional accreditors and the federal financial aid program.

Credit instruction: Academic instruction in the context of a course or activity leading to the award of credit by a regionally or nationally accredited institution of higher education. Such credit is generally acknowledged as applicable toward the attainment of a degree or certificate.

Non-credit instruction: A course or activity for which the learner does not receive academic credit that applies to a degree, certificate or diploma.

Developmental/remedial education: Courses and services emphasizing academic skill development in preparation for college-level course work. Developmental education program components can be used to enhance access for underprepared students through the provision of both course work and supplemental services, such as tutoring, course placement assessment, advising, study skills and personal development. Developmental/remedial education courses cannot be applied toward the minimum requirements for a certificate or degree program.

Degree: A recognition or award for completion of a prescribed course of study in an institution of higher education designated by the customary titles of associate, bachelor, master, specialist or doctor.

---

20 Formalized instruction is defined as instruction for which the instructor bears the primary responsibility for delivery, acknowledging that the delivery may take place using a variety of modes and methodologies.
Guidelines and Procedures for Academic Program Review

**Major:** That portion of a degree that is made up of at least 30 semester hours (45 quarter hours) of specialized study leading to both breadth and depth in a particular discipline. The term major may be used interchangeably with the terms program or degree program.

**Technical Major:** That portion of an applied associate degree that at least 12 semester credit hours (18 quarter hours) of coursework and constitutes an area of specialization.

**Minor:** A program of study that is made up of at least 12 semester hours (18 quarter hours) in a particular discipline.

**Concentration:** An identified set of courses within a degree program indicating in-depth knowledge in a particular area of focus. Concentrations differ from majors in that the concentration must include a minimum of 50% of the curriculum within the major.

**General education:** The set of courses and experiences that provide students with a broad exposure to multiple disciplines within the arts and sciences with the aim of providing students with the knowledge and skills needed to succeed in the 21st century. In Ohio, the general education curriculum includes coursework in oral and written communication, mathematics and data analysis, arts and humanities, natural science and social science.

**Online Course:** A course where most (>80%) of the content is delivered online; typically the course will have no face-to-face meetings.

**Online Degree:** A degree in where most (>80%) of the degree can be completed online.

**Blended/Hybrid Courses:** A course that blends online and on-ground delivery; substantial content is available online and there are a reduced number of face-to-face meetings.

**Blended/Hybrid Degrees:** A degree that blends online and on-ground delivery; a substantial portion of the degree requirements are available online and there are a reduced number of face-to-face meetings.

**Dual enrollment:** A form of enrollment that enables a student to earn both high school and college credit for a course during high school as a result of participating in a college course offered at the high school, at a college or university, or via distance learning.

**Concurrent enrollment**\(^{21}\): A form of enrollment that occurs when an adult student is enrolled in two post-secondary educational institutions at the same time, receiving education programs, services and/or benefits from each.

**Regional campus:** A campus that is geographically apart from and independent of the main or home campus of the institution. It should have all or most of the following attributes: it is

\(^{21}\) Nationally, the term “concurrent enrollment” is used to describe dual credit opportunities between high schools and higher education institutions; however in Ohio the term “dual enrollment” is used to describe partnerships between secondary and post-secondary education.
permanent in nature; it offers at least one, but typically multiple degree programs; it has its own faculty and administrative structure, often including its own budgetary and hiring authority; and it houses academic resources, support services and operational services for the campus.

**Additional campus location:** a place, geographically separate from any main or regional campus, where instruction takes place and students can complete 50 percent or more of the courses leading to a degree program or to a Title IV eligible certificate. An additional location typically does not have a full range of administrative and student services; such services are typically provided by a home or regional campus.

**Community college:** term used to collectively identify any of the three types of two-year institutions defined in Ohio Revised Code (ORC)—community college (ORC 3354.), state community college (ORC 3358.), and technical college (ORC 3357.).
Appendix B: Terminology and Requirements Related to Post-Secondary Degrees, Certificates and Educator Preparation Programs

**Degree:** Any recognition or award for completion of a prescribed course of study in an institution of higher education designated by the customary titles of associate, bachelor, master, specialist or doctor.

**Associate Degree:** An award that requires completion of 60 semester credit hours (or 90 quarter credit hours); associate degree programs should not exceed 60 semester credit hours unless it can be shown that the additional coursework is required to meet professional accreditation or licensing requirements.

- **Associate of Arts and Associate of Science** degrees are designed for students wishing to complete the first two years of a bachelor’s degree, as well as those desiring two years of a liberal arts education.

- **Associate of Applied Business and Associate of Applied Science** degrees are awarded in recognition of successful completion of career technical education programs and prepare student for immediate employment upon graduation. The curricula for applied associate degree programs are described in terms of technical and non-technical studies. Non-technical studies include general education and courses that serve as a base for the technical field (sometimes referred to as “applied general education” or “basic” coursework). Non-technical studies should make up 50% of the curriculum.

- **Associate of Technical Study** degrees are awarded for successful completion of an individually planned program of study designed to respond to the need for specialized technical education not currently available in the formal degree programs available on a particular campus. The program must have an area of concentration which is equivalent to at least 30 semester credit hours (45 quarter credit hours) in technical studies and a clearly identifiable career objective. The area of concentration can either be formed by: Type A—a coherent combination of technical courses selectively drawn from two or more technical programs currently offered by the college to serve a career objective that would not be adequately addressed by one of the existing programs alone; or Type B—courses completed or training received by a student at other institutions of higher education, career centers, or other educational enterprises judged by the institution to be of college level and for which the institution awards degree credit.

- **Associate of Individualized Study** degrees are awarded for the satisfactory completion of an individually planned program designed to serve an educational objective that could not be served through another degree program of the awarding institution. The program, planned by the student and faculty advisor must contain an area of concentration consisting of a minimum of 20 semester credit hours (30 quarter credit hours), which is formed according to one of the following models: a) an interdisciplinary, but coherent combination of courses drawn from a minimum of two and a maximum of four instructional areas; b) up to forty semester credit hours (60 quarter credit hours) awarded by the institution for documentable educational experiences or courses.
completed at other institutions of higher education or educational enterprises judged by the institution to be of college level; or c) an unusual by academically coherent combination of technical and general studies courses.

**Bachelor’s Degree:** An award that requires completion of 120 semester credit hours (or 180 quarter credit hours); bachelor’s degree programs should not exceed 120 semester credit hours unless it can be shown that the additional coursework is required to meet professional accreditation or licensing requirements. Bachelor’s degrees may be awarded for general areas of study, such as those recognized by the Bachelor of Arts and the Bachelor of Science degrees or in specialized professional and technical fields such as those recognized by the Bachelor of Fine Arts, the Bachelor of Science in Nursing, the Bachelor of Education, and so on. Although bachelor’s degrees require completion of a specified number of credit hours, the length of the program can vary. For instance, bachelor’s degrees may be conferred for a five-year cooperative (work-study plan) program, which provides for alternate class attendance and employment in business, industry or government. They may also be conferred in instances where the full complement of credits is obtained in three years.

**Master’s Degree:** An award that requires the successful completion at least 30 semester credit hours (or 45 quarter credit hours) of work beyond the bachelor’s degree. Master’s degrees such as the Master of Arts and the Master of Science are typically considered research graduate degrees, and involve preparation to carry out research and to discover new knowledge—whether the field is pure or applied. Master’s degrees may also recognize preparation for professional practice. Examples of professional practice master’s degrees include the Master of Business Administration (MBA), Master of Science in Nursing (MSN), Master of Public Health (MPH) and the Master of Social Work (MSW).

**Specialist Degree:** An award that generally requires the successful completion of at least 30 semester credit hours (or 45 quarter credit hours) of work beyond the master’s degree. The specialist degree is typically considered a professional practice degree (e.g., the Education Specialist, or EdS) and may be pursued by individuals interested in furthering their education beyond a master’s degree, but who are not interested in pursuing a research or professional practice doctorate.

**Doctoral Degree:** The highest award a student can earn for graduate study. Doctoral degrees generally require the successful completion of at least 90 semester credit hours (or 135 quarter credit hours) of work beyond the bachelor’s degree. The Doctor of Philosophy (PhD) is typically considered a research degree and involves preparation for the conduct of independent research and the discovery of new knowledge. Doctoral degrees may also recognize preparation for professional practice. Examples of professional practice doctoral degrees include the Doctor of Nursing Practice (DNP), Doctor of Education (EdD) and Doctor of Physical Therapy (DPT).
Certificate: A formal award certifying the satisfactory completion of an organized program of study at the postsecondary level. Certificates should be designed as building blocks toward future degrees and with the intent of articulating the program into the next degree.

One Year Technical Certificate: Certificates awarded by community colleges for the completion of a minimum of 30 semester credit hours (45 quarter credit hours) of coursework, with the majority of the coursework completed in a prescribed technical area. These certificates should serve as building blocks to an associate degree, either at the student’s “home” campus, or through a partnership with another campus.

Short Term Technical Certificate: Certificates awarded by community colleges for the completion of less than 30 semester credit hours (45 quarter credit hours) that are designed for a specific employment situation.

Undergraduate Certificate: An award that requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree). These certificates are classified by IPEDs as either “at least one but less than two academic years” or “at least two but less than four academic years”.

Post-Baccalaureate Certificate: An award that requires completion of an organized program of study beyond the bachelor’s degree; designed for individuals who have completed a bachelor’s degree but have not met the requirements for a master’s degree.

Post-Master’s Certificate: An award that requires completion of an organized program of study beyond the master’s degree; designed for individuals who have completed a master’s degree but have not met the requirements for a doctoral degree.

Educator Preparation License: A document issued by the Ohio Department of Education to an individual who is deemed to be qualified to teach or practice in Ohio schools.

Educator Preparation Endorsement: The addition of a teaching area to the license after completion of an approved program of preparation.
Appendix C: General Education Guidelines

The guidelines for general education are divided into two sections—one for public institutions and one for private institutions. Although the general education credit hour expectations and breadth of experience are the same for public and private institutions, the general education requirements are more specific for public institutions because they must align their general education curriculum with the Ohio Transfer Module (OTM) and with Ohio’s Articulation and Transfer Policy22.

Throughout the document, the following definitions are used:

**General Education Courses**: Those courses in written and oral communication, quantitative principles, biological and physical sciences, social and behavior sciences and the arts and humanities that provide the foundation and common experience expected among individuals holding associate and baccalaureate degrees. These courses, along with courses within a major, provide opportunities for critical thinking, problem solving and analytic skills.

**Applied General Education (Basic Education) Courses**: Those courses within applied associate degrees that emphasize the application of general education to an occupational or technical area

- Courses such as technical communication, business mathematics, calculations for health professionals, study skills, applied computing, and practical psychology are examples that fall in this category. Applied general education coursework cannot be counted toward meeting the minimum requirements for general education courses in associate or baccalaureate degrees.

**General Education Courses in the Arts**: Courses in this category do not include “performance” courses such as painting, sculpting or dance, but may include courses in the history of art, dance, film or theater.

**General Education Courses in Technology and Innovation**: Courses in this area are related to the analysis and understanding of how discovery and invention impact society.

**Note**: Developmental (remedial) courses cannot be counted toward meeting the minimum requirements general education courses in associate or baccalaureate degrees.

Guidelines and Procedures for Academic Program Review

General Education Guidelines—Ohio Public Institutions

Applied Associate Degrees

Applied associate degrees (Associate of Applied Business, Associate of Applied Science, Associate of Technical Studies, and Associate of Individualized Studies), must include at least 30 semester hours of non-technical coursework, which includes both general education and applied general education (i.e., “basic”) courses. The general education portion of the non-technical coursework must include at least 15 semester credit hours. A minimum of six semester hours must be found in the following two categories:

- At least one course (three semester credit hours) in the English Composition and Oral Communication area (e.g., First Writing, Second Writing, Public Speaking)
- At least one course (three semester credit hours) in the Mathematics and Data Analysis area (e.g., Algebra, Trigonometry, Calculus, Statistics, Formal/Symbolic Logic)

A minimum of six semester hours must come from the following three categories, and at least two of the three categories must be represented.

- At least one course (three semester credit hours) in the Arts and Humanities area (e.g., Art History, Ethics, History, Literature, Philosophy, Religion, Ethnic or Gender Studies)
- At least one course (three semester credit hours) in the Social and Behavioral Sciences area (e.g., Communication, History, Economics, Political Science, Psychology, Sociology)
- At least one course (three semester credit hours) in the Natural Sciences area (e.g., Anatomy, Biology, Chemistry, Environmental Science, Physics, Physiology)

In order to assure maximum transferability, institutions are strongly encouraged to implement general education programs that include coursework in all five general education categories and to use a three semester hour First Writing course to fulfill the minimum requirement in the English composition and oral communication area.

Institutions are expected to use approved Ohio Transfer Module (OTM) courses and follow applicable Transfer Assurance Guides (TAGs) when developing general education requirements for their applied associate degrees. However, recognizing that the skills needed for some OTM courses in the mathematics and science areas exceed the skills needed for the successful completion of some applied degrees, OTM-approved courses are not required to fulfill the mathematics and science requirements.
Guidelines and Procedures for Academic Program Review

Associate of Arts (AA) and Associate of Science (AS) Degrees

Consistent with the belief that the AA and AS degrees serve as the first two years of a bachelor’s degree and to provide maximum transferability of courses from the associate level to the bachelor’s level, the general education component of the A.A. and the AS degrees at Ohio’s public institutions must fulfill the institution’s Ohio Transfer Module (OTM).

Ohio Transfer Module (OTM)\(^{23}\)

The Ohio Transfer Module contains 36-40 semester hours of coursework in general education. It is a subset or the complete set of general education requirements at each college or university. In order for general education courses to be a part of an institution’s transfer module, all coursework is subject to a review by the statewide transfer module panels against the Ohio Transfer Module Guidelines and learning outcomes.

Each transfer module must include a minimum of 24 semester hours of approved OTM courses as outlined below:

- At least three semester credit hours in **English Composition and Oral Communication** (e.g., *First Writing, Second Writing, Public Speaking*)
- At least three semester credit hours in **Mathematics and Data Analysis** (e.g., *College Algebra, Pre-Calculus, Trigonometry, Calculus, Statistics, Formal/Symbolic Logic*)
- At least six semester credit hours in **Arts and Humanities** (e.g., *Art History, Ethics, American History, Literature, Philosophy, Religion, Ethnic or Gender Studies*)
- At least six semester credit hours in **Social and Behavioral Sciences** (e.g., *Anthropology, Economics, Geography, Political Science, Psychology, Sociology*)
- At least six semester credit hours in **Natural Sciences** (e.g., *Astronomy, Biology, Chemistry, Environmental Science, Geology, Physical Geography, Physics*)

The additional 12-16 semester credit hours needed to complete the OTM are distributed\(^{24}\) among the same five categories but may be distributed differently in the Associate of Arts and the Associate of Science degrees. Typically an Associate of Arts degree would include more credit hours in the oral and written communication and arts and humanities areas, while an Associate of Science degree would include more credit hours in the mathematics and science areas.

---

\(^{23}\) The Ohio Transfer Module requirements are available on the Articulation and Transfer Policy website at [http://regents.ohio.gov/transfer/policy/transfer_policy_d2aa.php](http://regents.ohio.gov/transfer/policy/transfer_policy_d2aa.php)

\(^{24}\) The distributive model outlined above is not meant to discourage institutions from experimenting with thematically clustered or multidisciplinary general education courses, particularly when those courses are approved as OTM or TAG courses.
**Baccalaureate Degrees**

For bachelor’s degrees (e.g., Bachelor of Arts—BA, Bachelor of Fine Arts—BFA, Bachelor of Music—BM, Bachelor of Science—BS, or Bachelor of Applied Studies—BAS), the *minimum* general education requirements are the same as for the academic associate degrees. However, many baccalaureate programs require general education coursework beyond those minimum expectations, and students may be required to complete additional general education requirements beyond the minimum upon transfer.
General Education Guidelines—Private and Out-of-State Institutions

Applied Associate Degrees
Applied associate degrees (Associate of Applied Business, Associate of Applied Science, and Associate of Technical Studies), must include at least 30 semester hours of non-technical coursework, which includes both general education and applied general education (i.e., “basic”) courses. The general education portion of the non-technical coursework must include at least 15 semester credit hours. A minimum of six semester hours must be found in the following two categories:

- At least one course (three semester credit hours) in the English Composition and Oral Communication area (e.g., English Composition, Public Speaking)
- At least one course (three semester credit hours) in the Mathematics and Data Analysis area (e.g., Algebra, Trigonometry, Calculus, Statistics, Formal/Symbolic Logic)

A minimum of six semester hours must come from the following three categories, and at least two of the three categories must be represented.

- At least one course (three semester credit hours) in the Arts, Humanities, Culture and Diversity area (e.g., Art History, Ethics, American History, Literature, Philosophy, Religion, Ethnic or Gender Studies)
- At least one course (three semester credit hours) in the Social and Behavioral Sciences area (e.g., Communication, Economics, Political Science, Psychology, Sociology)
- At least one course (three semester credit hours) in the Natural Sciences, Technology and Innovation area (e.g., Anatomy, Biology, Chemistry, Environmental Science, Physics, Physiology)
Associate of Arts (AA) and Associate of Science (AS) Degrees

A.A. and A.S. degrees must include a minimum of 36 semester hours of general education coursework. Each A.A. and A.S. degree must utilize 15 of the required 36 semester credit hours as follows:

- At least one course (three semester credit hours) in Oral and Written Communication (English Composition, Public Speaking)
- At least one course (three semester credit hours) in Mathematics and Data Analysis (College Algebra, Pre-Calculus, Trigonometry, Calculus, Statistics, Formal/Symbolic Logic)
- At least one course (three semester credit hours) in Arts, Humanities, Culture and Diversity (e.g., History of Art, Dance, Film, Music, or Theater, Ethics, History, Literature, Philosophy, Religion, Ethnic or Gender Studies)
- At least one course (three semester credit hours) in Social and Behavioral Sciences (e.g., Communication, Economics, Political Science, Psychology, Sociology)
- At least one course (three semester credit hours) in Natural Sciences, Technology and Innovation (e.g., Anatomy, Biology, Chemistry, Environmental Science, Physics, Physiology)

The additional 21 semester credit hours needed to complete the 36 semester credit hour requirement may be distributed differently in the A.A. and A.S. degrees. Typically an A.A. degree would include more credit hours in the oral and written communication and arts and humanities areas, while an A.S. degree would include more credit hours in the mathematics and science areas.

---

25 The distributive model outlined above is not meant to discourage institutions from experimenting with thematically clustered or multidisciplinary general education courses.
Baccalaureate Degrees

For bachelor’s degrees (e.g., Bachelor of Arts—BA, Bachelor of Fine Arts—BFA, Bachelor of Music—BM, Bachelor of Science—BS, or Bachelor of Applied Studies—BAS), the minimum general education requirements are the same as for the academic associate degrees. However, many baccalaureate programs require general education coursework beyond those minimum expectations.
Appendix D: Institutions Operating As “Bible Colleges” or “Bible Institutes”

An institution that clearly identifies itself in its name with the phrase “bible college” or “bible institute” and has not received a certificate of authorization may confer diplomas and other written evidences of proficiency or achievement other than associate, baccalaureate, master’s, and doctoral degrees or any other type of degree and may identify itself as a “bible college” if such institution:

a. Prominently discloses on any transcripts, diplomas, or other written evidences of proficiency or achievement, and includes with any promotional material or other literature intended for the public, the statement: “this institution is not certified by the chancellor of the board of regents or the state of Ohio”

b. Limits its course of instruction to religion, theology, or preparation for a religious vocation, or is operated by a church or religious organization and limits its instruction to preparation for a service to churches or other religious organizations

c. Confers only diplomas and other written evidences of proficiency or achievement that bear titles clearly signifying the religious nature of the instruction offered by the institution

26 Institutions established prior to *** are not required to obtain a certificate of authorization to offer associate, bachelor’s, master’s and doctoral degrees provided that promotional material or other literature intended for the public includes the following statement: “this institution is not certified by the chancellor of the board of regents or the state of Ohio.” Institutions that choose not to obtain a certificate of authorization are not eligible for any program administered by the Board of Regents (e.g., Ohio College Opportunity Grants, Choose Ohio First scholarships, War Orphans Scholarships) or by other agencies that require Ohio Board of Regents authorization for participations (e.g., ***
Appendix E: Required Actions for Institutional Closure

1. When an authorized institution proposes to discontinue its operation, the institution must provide the Chancellor with a Notification of Commitment to Close within 24 hours of the final decision\(^\text{27}\). The Notification must include:
   
a. Official date of Board of Directors/Board of Trustees action;
   
b. Anticipated end date for teaching activity;
   
c. Anticipated end date for all operations; and
   
d. Verification of notification of all applicable regional, national and specialized/professional accrediting agencies.

2. Following notification, the institution must submit a Closure Plan to the Chancellor no less than 90 days prior to the anticipated end date of teaching. The Plan must include:
   
a) A listing of all degrees and degree programs in which students are currently enrolled
   
b) A listing of all students in each of the degrees/degree programs
      
      i. The list shall include the student’s name, social security number, address, phone number, email address, and estimated graduation date.
   
c) A documented plan to ensure that educational obligations are met for all of the currently enrolled students (i.e., a “teach out” plan)
      
      i. “Teach out” plans may be completed by the closing institution or by other institutions, as circumstances dictate.
      
      ii. The Chancellor may approve other authorized or approved institutions to “teach out” students who are enrolled in an institution which ceases operation. An approved “teach out” institution shall:

         • Agree to offer the course of study or a course of study similar to that in which the student was enrolled at the closed institution;

         • Accept any and all academic credit earned by the student at the closed institution;

         • Provide the student the opportunity to complete his/her program at a cost and in a timeframe similar to that which the student would have paid and fulfilled at the closed institution;

\(^{27}\) Institutions are encouraged to communicate with the Chancellor’s staff prior to a final decision.
iii. If the closed or closing institution fails to provide an acceptable plan to the Chancellor, the Chancellor’s staff may work toward effecting “teach out” arrangements with other authorized or approved institutions.

d) Submission of any other information or materials requested by the Chancellor’s staff

3. The institution shall maintain sufficient and qualified faculty, staff and equipment to teach all subjects to all currently enrolled students, regardless of the size of the class, until an approved “teach out” plan has been implemented.

4. The institution must make arrangements with an approved or authorized institution to secure the educational transcripts of its students and must provide the Chancellor with information on how students may access those records in the future.

5. The institution must provide evidence that the Ohio State Grants and Scholarships office has been contacted for appropriate dispensation of grants/scholarships and other forms of financial aid.

6. Institutions that close without proper notification to the Chancellor or that fail to comply with closure obligations may have their authorization retroactively revoked by the Chancellor.
Appendix F: Program Approval Forms and Staff Contact Information

Educator Licensure and Endorsement Preparation Programs

Appendix I: Program Approval Records Retention Policy

In adherence to, and in compliance with Ohio Revised Code 149.34 for records management and in accordance with the regulations set forth by the Ohio Department of Administrative Services, the offices of the Ohio Board of Regents shall comply in retaining paper files, electronic mail correspondence and electronically scanned documents. The program approval area retains Background Pieces and Certificates of Authorization permanently. Institutional files, which include materials related to the review and approval of degrees/degree programs generated by requesting institutions, the program approval area, and the Regents' Advisory Committee for Graduate Studies, shall be retained for a period of 10 years. A full listing of Ohio Board of Regents record retention schedules can be found using the Records Management System (RIMS) on the Department of Administrative Services website, www.das.ohio.gov
