Messages sent using Starfish appear to have come from the sender's personal UTOLEDO email account. When the student replies to the message, their email will go back to the sender's personal email account. Emails sent through Starfish have a read receipt function to determine if the student read the email.

- 1. ADD SUBJECT This will be the subject of the email message sent to the Student's Rockets Email. This Subject is displayed when viewing messages on the Student Folder.
- 2. ADD EMAIL DETAILS This will be the body of the email sent to the student. Therefore, direct the narrative toward the student.
- ADD GREETING If sending to an individual student, personalize the message and put the student's name. (EX: Hello John,) If sending to multiple students, do not personalize and put a generic greeting, not the student's name.
- ADD SALUTATION/ SIGNATURE Although the email will appear to have come from your UTOLEDO email account, it is still important to input your name & title, so the student is aware of the sender.
- 5. OPTIONAL checkmark the box if you want to send a copy of the message to yourself.

SENDING A MESSAGE TO MULTIPLE STUDENTS:

- <u>NEVER</u> send a mass message to all students in the "All My Students" or "General" role because this will pull in students not in your caseload. You must filter down to your specific student caseload prior to sending the message.
- The message will be Blind Carbon Copy, so other students are unaware of recipients.
- <u>DO NOT</u> personalize the message with any student information if sending to multiple students.

STEP #3 – CLICK SUBMIT TO SEND THE MESSAGE
