**Adding Accommodation Request(s)**

Please note that the Student Disability Services SAM system has been upgraded with new features. You no longer need to enter CRN’s to request academic accommodations in a course. SAM will automatically pull a list of your courses. You can select each course and then select your academic accommodations. (Remember: data is refreshed nightly and it may take up to 24 hours after you register for your class for the class to show up on the list).

**See steps below:**

1. Select each class in which you wish to utilize an academic accommodation from the list of your classes. Then click **Continue to Customize Your Accommodations** (Remember: data is refreshed nightly and it may take up to 24 hours after you register for your class for the class to show up on the list).

---

**Step 1: Select Class(es)**

- **Fall 2010 - ST 511.610 - METHODS OF DATA ANALYSIS (CRN: 40231)**
- **Fall 2010 - ST 511.612 - METHODS OF DATA ANALYSIS (CRN: 40233)**

**Step 2 - Continue to Customize Your Accommodations**
2. Select appropriate academic accommodations for each class and click **Submit Your Accommodation Requests**.
