

The University of Toledo - Main Campus Policy

III-1 Responsibility

The overall responsibility of the University Office of Research is to provide leadership in setting the research agenda and to facilitate and oversee research and sponsored programs, technology transfer, and economic development efforts of the University. This is accomplished by strategic planning, acquisition and allocation of resources, identification of target areas for investment, enhancement of the infrastructure and implementation of University policies.

Adopted by the UT Board of Trustees, February 10, 1999
