(A) Policy Statement

The University of Toledo Medical Center ("UTMC") is committed to ensuring the security and privacy of protected health information ("PHI") of its patients. In line with this commitment, UTMC, through its Health Information Management ("HIM") department, has developed and implemented a system of tracking, monitoring and documenting disclosures of PHI. This system of documentation will enable UTMC to respond to individual requests for accounting of disclosures in a timely and efficient manner as the law requires.

(B) Purpose of Policy

To ensure appropriate monitoring and documentation of disclosures of PHI in order to fully comply with individual requests for accounting of disclosures as required by law.
