Scope:	Operating Room (OR)/Perioperative Services		
New policy proposal Minor/technical revision of existing policy  Major revision of existing policy Reaffirmation of existing policy			

## (A) Policy Statement

Patients undergoing an elective surgery are evaluated by Pre-Admissions Testing (PAT) staff either by clinic visit or a telephone call.

## (B) Purpose of Policy

Scheduling patients for a PAT appointment may be completed at the same time a surgical procedure is scheduled with the Operating Room scheduling employee.

## (C) Procedure

- 1. At the time a call is made to schedule a surgical case, the PAT appointment may be made.
- 2. The scheduler will require the following information to schedule an appointment:
  - a. Day and time convenient for patient.
  - b. 30 or 60 minute appointment time.
- 3. The PAT appointment will then be 'linked' to the scheduled surgical procedure electronically if scheduled at the same time.
- 4. Changes in the scheduled case will flag the appointment for any needed changes.
