(A) Policy Statement

The Rehab Services Department will collect and analyze data to assist in the operation, planning, resource allocation, and development of rehab programs.

(B) Purpose of Policy

To provide adequate information to allow for sound operating decisions for current and future programming.

(C) Procedure

1. Information will be collected under the direction of the Rehab Services Director. This information may include charges, patients seen, revenue generated, procedures completed, etc.

2. Data will be analyzed and used in program planning, resource allocation, and other operating decisions.

3. This information will be disseminated to staff and other stakeholders as appropriate.

It is the responsibility of the reader to verify with the responsible agent that this is the most current version of the policy.
