Faculty Grant Writing Workshop in Two Weeks!

The third of the five Faculty Grant Writing Workshops will be held on March 25, 2016.

Focus: Social Science, Business and Education

View SPIN Training Tip

This short training video will help you become more familiar with the view and email programs in SPIN.

Training Time: 2 minutes, 7 seconds

Limited Submission Notice

Training and Technical Assistance (TTA) providers who will deliver TTA to state and local law enforcement agencies, and other criminal justice system agencies in jurisdictions selected to participate in the Violence Reduction Network (VRN).

Under this program, the Bureau of Justice Assistance is seeking applications for two Training and Technical Assistance Program (TTAP) cooperative agreements to provide Training and Technical Assistance (TTA) to the participating jurisdictions selected to be part of the Violence Reduction Network (VRN). The VRN aims to provide support to non-federal criminal justice agencies (i.e., state, local, urban, and rural agencies) to reduce violent crime in their jurisdictions. The VRN will consist of two sub-grantees, each providing TTA to different VRN subcomponents. The VRN will be designed to assist in the development and implementation of effective violence reduction strategies.

The VRN will be divided into two subcomponents:

1. The VRN National TTA subcomponent: This subcomponent will be responsible for providing TTA to the participating jurisdictions selected to participate in the VRN National TTA subcomponent. The TTA provider will coordinate the virtual and in-person peer exchanges.

2. The VRN State TTA subcomponent: This subcomponent will be responsible for providing TTA to the participating jurisdictions selected to participate in the VRN State TTA subcomponent. The TTA provider will coordinate the virtual and in-person peer exchanges.
