

Joshua Daniel Archer  
Explanation of Artwork

Dr. Martin Luther King Jr. put together one of the most inspirational and prolific speech's I have ever heard, the famous "I've been to the Mountain Top" speech was my point of reference for this work. I wanted to reflect on the ongoing mission that Dr. Martin Luther King Jr. presented us with on April 3<sup>rd</sup>, 1968. I believe the artwork should show a positive view of the progress of this country since that day and at the same time the continued determination necessary to completely fulfill the dream of Dr. Martin Luther King Jr.
