Terminating the Emergency 47
I. INTRODUCTION

A. PURPOSE

The Emergency Action Plan (EAP) has been designed as a strategic plan to provide the administrative procedures necessary to cope with most campus emergencies. The University of Toledo’s overall ability to respond to an emergency will depend upon tactical plans and the business continuity plans developed by its individual departments.

The purpose of any plan is to enable emergency responders and staff to perform essential emergency planning and response functions that will save lives; establish responsibilities necessary to performing these functions; prevent, minimize and repair damage; and ensure continuity of operations so that essential services may continue to be provided to the University and its clients.

This plan assigns roles and responsibilities to departments and individuals that are directly responsible for emergency response efforts and critical support services, and provides a management structure for coordinating and deploying essential resources.

B. LEGAL COMPLIANCE

This Plan is intended to be a comprehensive administrative plan for the protection of life and property on The University of Toledo’s campuses. It is compatible with the doctrines and methods expressed in the National Incident Management System (NIMS), the Incident Command System (ICS), the National Response Plan (NRP), Homeland Security Presidential Directive-5 (HSPD-5), and Homeland Security Presidential Directive-8 (HSPD-8), and other similar directives.

Public Laws (PL)
- Federal Civil Defense Act, as amended (50 USC 2251 et seq.), 1950
- Disaster Relief Act, PL 93-288, as amended (42 USC 5121 et seq.), 1974
- Superfund Amendment and Reauthorization Act (also known as the Emergency Planning and Community Right to Know Act), PL 99-499, 1986
- Robert T. Stafford Disaster Relief and Emergency Assistance Act, PL 100-707, as amended (42 USC 5131 et seq.), 1988
- Disaster Mitigation Act, PL 106-390, 2000

United States Code (USC), Title 42, Public Health and Welfare
- Chapter 68, Disaster Relief
- Chapter 116, Emergency Planning and Community Right-To-Know (EPCRA)

State Statutes
- Chapter 3345 Ohio Revised Code State Universities General Powers
- Chapter 107 Powers, Duties, Function of the Governor
- Chapter 161 Continuity of Government, emergency interim government
C. AUTHORITY STATEMENT

The Leadership at UT REC recognizes that during emergency situations special procedures must be followed to control and mitigate an emergency. Therefore, the Leadership, by the acceptance of this Emergency Action Plan (EAP), grants authority to those responsible individuals and/or positions named in these procedures to implement and carry out the Plan. The Administration also recognizes that those individuals authorized to respond to emergency situations shall be properly trained in those procedures and emergency techniques.
D. EMERGENCY PHONE CHAIN

In an emergency the appropriate professional staff needs to be notified. The REC Manager (RM) should follow the following procedure to notify professional staff at UT REC:

1. **Call UTPD** at 419-530-2600 to advise them of the situation taking place.

2. **Call Associate Director of Facility Operations.** The Associate Director of Facility Operations will call the Director of UT RECREATION to let them know of the situation taking place.

3. If the Associate Director of Facility Operations doesn’t answer the phone then the **Program Coordinator of Aquatics and Challenge.** The Program Coordinator of Aquatics and Challenge then will call the Director of UT RECREATION.

4. If neither the Associate nor the Program Coordinator answers the phone then directly the REC Manager **calls the Director of UT RECREATION** to advise them of the situation taking place in the building.

5. Throughout the situation taking place in the building keep the Associate Director and/or the Program Coordinator informed.

E. EMERGENCY PHONE NUMBERS

UTPD: 419-530-2600  
Plant Operations: 419-530-1000  
Infection Prevention and Control 419-393-5006  
Environmental Health and Radiation Safety 419-530-3600

F. WHEN TO CALL 2600 – CAMPUS POLICE

UTPD (2600) should be called for all emergencies not 911! The 2600 Operator will contact the proper authorities.

Call 2600 for Emergency Medical Services. If the victim:

- Becomes unconscious.
- Has chest pain or pressure
- Has pressure or pain in the abdomen that does not go away.
- Has a seizure.
- Has an injury to the head, neck, or back.
- Is pregnant and becomes ill
- Down electrical wires.
- Vehicle collisions.
- Is vomiting blood
- Is bleeding severely.
- Has trouble breathing or is breathing in a strange way.
- Appears to have been poisoned.
- Has possible broken bones
- Fire or explosion.
- Presence of poisonous gas.
- Victims who cannot be moved easily.
II. EMERGENCIES IN THE FACILITY

A. Injuries and Accidents in the facility

The following procedure is to be used when a person has an accident/injury at UT REC. For further detail refer to emergency specific EAP.

1. Identify the emergency, grab rescue bag, and AED; assess the situation; ensure that it is safe for you to enter

2. Stop all activity around the injured person to prevent further injury.

3. Assess the situation. If the injury appears life threatening, call 2600.

4. Do not move the injured person(s) unless they are in immediate danger (fire, down power line, puddle of water, etc).

5. Do not attempt to treat the injury unless it is necessary to ensure the health and well-being of the injured person(s), AND YOU HAVE RECEIVED THE PROPER MEDICAL TRAINING, be sure to protect yourself from a possible exposure to Bloodborne Pathogens through the use of personal protective equipment (latex gloves, etc.). Write up an injury report and then get follow up care.

6. Notify appropriate professional staff. If the victim is an employee call the Worker Compensation office.

   Main Campus Workers Compensation: 419-530-3655
   Health Science Workers Compensation: 419-383-4567

B. Building Evacuation Plan

The following procedure is to be used in a building evacuation at UT REC. For the detailed evacuation plan, refer to page 42-44.

1. Announce the evacuation of facility on the PA system.

2. Student Employees are to assist in the evacuation process by following the direction of the REC Manager.

3. If campus police are not already involved, call them at ext. 2600. Notify appropriate professional staff.

4. Secure the office doors, customer service window, and all pool doors. Secure the door to the office with the safe.

5. All guests and staff should meet in parking lot 9 or 18 at least 250 feet away from the building.

6. Do not give out any information to any public agency, e.g.: press, radio, TV, etc.

7. Complete an Incident Report form. The original incident report is to be given to the director of recreation.
III. COMMUNICATION

A. Public Address System

The Public Address system has two microphones:

Front Office
Back Counter
Control Desk

When using the Public Address system, all of the switches (1-12) should be flipped up and hold down the button on the base of the microphone. Speak slowly and clearly. In some areas, such as the auxiliary gym, it is difficult to hear the announcement.

B. 2-Way Radios

Radios are an integral part of responding to customer service issues, emergencies and staffing issues. The department’s goal is to enhance communication between work stations in a variety of circumstances. Employees should use the radios as much as possible to avoid unnecessarily leaving their work station vacant. These radios are to be used in case of emergencies to insure that EAPs are being followed. They will also help work stations reach a supervisor much easier. The radios are for work purposes only; please do not use them inappropriately. Remember that other staff, and in some cases patrons, may be able to hear what you say over the radio, so do not use foul language or speak derogatorily. At the start of your shift, please make sure the radio in your area is turned on and working properly.

When the facility closes, please turn OFF the radio and place it in the charger. DO NOT place the radio in the charge while it is ON. Occasionally, radio batteries will go dead. In the event that a work stations radio needs to be recharged, inform a REC Manager as soon as possible to and they will attempt to locate an extra radio can be used as a temporary replacement.

Channel 1 = All UT Recreation Employees
Channel 2 = For Emergency Communication

C. University of Toledo Emergency Code System

Radio Protocol: In the instance of an emergency, the primary responder should call the corresponding code to notify the REC Manager, professional staff and emergency responders within UT Rec. Individuals involved in the emergency should switch to channel 2 to relay confidential information.

Code System
RED: Fire
GRAY: Severe weather
BLACK: Bomb or bomb threat
BLUE 1: Life Threatening Medical
BLUE 2: Non-Life Threatening Medical
ADAM -- Missing child
VIOLET -- Violent Situation
BROWN – Fecal Matter/Body Fluids
ALPHA -- Active Shooter
D. Important Telephone Numbers

**Health Education Center**
Rec Manager Office
Pool Office
ROTC Offices
IV. DOCUMENTATION

Appropriate documentation is essential when responding to emergencies. In the Office of Recreation, the following forms are used to document accidents and incidents. Use these forms only as trained by your supervisor. All forms must be completed in ink and be legible. Report only what you have heard, seen, or smelled. Do not make a medical diagnosis on reports.

Accident Report Form
- Used to document any injury of patron or employee. DO NOT MAKE A DIAGNOSIS such as “broken bone” or “sprained ankle”. Just report and treat the symptoms.
- An individual who refuses care must sign the accident report form on the “refusal of services” line.

Incident Report Form
- Used to document anything at all that is outside normal, routine occurrence. This documentation becomes very valuable if a patron brings up an issue from some time in the past.

Equipment Repair Notice
- Used to document any equipment or part of the facility that may need repair or servicing. Please be specific.
V. CONFIDENTIALITY AND PUBLIC INFORMATION

Staff members of the Office of Recreation may encounter situations and incidents that will be of a sensitive nature. Staff members are to maintain appropriate confidentiality in the following ways:

- Only the Director of Recreation should handle questions regarding injuries. Never answer anyone’s questions about the condition of a person who suffered an injury at the SRC.
- Addresses and telephone numbers of all students, staff and members may never be shared with non-staff members.
- All information regarding Banner and the Rocket Card System is also confidential.
- The taking of photos or videos inside the building requires a photo pass. Photo passes may be obtained in the Student Recreation Center. Individuals taking photos are to be sensitive to and have the approval of the people being photographed. In addition, the use of a flash may be disruptive and even dangerous during some recreational activity.
- Never leave staff phone lists, schedules, or reports with guest’s information on them in plain sight.

VI. DEALING WITH THE MEDIA

There will be times when reporters from the community will come into our facility and want to talk to someone in regards to either a program that we are offering, an emergency situation that has occurred, or about our opinion on a certain issue. At University Recreation we want to ensure that our department’s reputation continues to be held in high regard. To help ensure that our public relation efforts for the department are fulfilled, the procedures for handling media inquiries are listed below.

*Step One:* Ask what the topic and/or nature of the article is about.

*Step Two:* Refer them to the Director of the Office of Recreation

If media asks to interview a student, they need to communicate with Director of the Office of Recreation first.
VII. EMERGENCY EQUIPMENT

A. Automated External Defibrillator Unit (AED)

VIII. INSTRUCTIONS FOR CALLING UTPD

A. Calling UTPD

In the instance of an emergency, the Guest Service Agent will call 2600. The secondary rescuer or REC Manager will relay necessary information over channel 2.

Call Campus Police at Extension 2600
1. State: "This is an emergency".

2. Give the dispatcher
   a. The nature of the emergency
   b. The number and conditions of victims
   c. Your name
   d. The number for the Recreation Center (419-530-3700)
   e. Your location
   f. The location of the situation
   g. The area that a staff person will meet emergency medical personnel
      i. University of Toledo, Student Recreation Center
      ii. Near the corner of Douglas and Oakwood - 2800 East Rocket Drive

3. DO NOT HANG UP until you are told to do so or unless there is an immediate threat to your safety.

4. If the injured guest is conscious, seek permission before calling 911. If the injured guest is a minor (under 18 years) and accompanied by a parent or adult guardian, obtain the parent or guardian's permission to make the emergency call.

5. If the injured guest is unconscious, consent is assumed – Call 2600. SRC staff should never sign any forms from the Emergency Medical Services that may make you liable for payment of emergency services.

6. If not already on the scene, call the appropriate professional staff member.

Following is what you use when calling UTPD (just fill in the blanks)**

THIS IS _____ CALLING FROM THE UNIVERSITY OF TOLEDO'S __________________.
THERE HAS BEEN AN ACCIDENT IN THE _____ BUILDING/ROOM/GYM THAT
REQUIRES AN EMS. THERE ARE ____ PEOPLE INJURED. THE CONDITION OF
THE INJURED IS/ARE ____. THE FIRST AID BEING GIVEN IS ____. PLEASE
COME TO THE _____ DOOR. THE VICTIM IS LOCATED ____. THERE WILL BE
SOMEONE TO MEET YOU AT THE DOOR. THE PHONE NUMBER HERE IS ____.
(DO NOT HANG UP – LET UTPD POLICE/EMS HANG UP FIRST!!)
B. Meeting Emergency Medical Services

1. STUDENT RECREATION CENTER

Student Recreation Center Lower Level

- Aquatics Center
  
  Direct to Door 2, Delivery ramp on West side of building across from the Glass Bowl

- Locker Rooms: Direct To Door 6/ Weight Rooms/Climb Wall/Raquetball Courts/Cycle Studio/Basketball Courts/Auxiliary Gym
  
  Direct to the Door 6 delivery ramp on Northeast side of the building, drive is right after the Meter and Handicap Parking

Student Recreation Center Main Level

- Main Offices/ Oak/Sycamore/Hickory/Willow/Elm/Maple Rooms/Cardio Area/Game Room

  Direct to east side entrance across from Computer Center. Can drive on sidewalk to get closer to the entrance.

Student Recreation Center Track Level

- Track

  Direct to the Door 6 delivery ramp on Northeast side of the building, drive is right after the Meter and Handicap Parking. Take Elevator to third floor.

2. HEALTH EDUCATION CENTER

Health Education Center Main Level

- Pool/ Locker Rooms/ Gym/Classrooms

  Direct to Savage Arena Parking (Lot 5) and into Lot 6 to the back entrance on the North side of the building across from the track and field facilities.

Health Education Center 2nd Level

- Dance Studio/ ROTC Offices

  Direct to front of the building across from Lot 10. Drive onto sidewalk. Take elevator to second floor.
BLOODBORNE PATHOGENS EXPOSURE CONTROL PLAN

The Exposure Control Plan (ECP) is a key document to assist our organization in implementing and ensuring compliance with the standard, thereby protecting our employees. Those employees who are determined to have occupational exposure to blood or other potentially infectious materials (OPIM) must comply with the procedures and work practices outlined in this ECP. Occupational exposure is defined by OSHA as: "reasonably un-anticipated skin, eye, mucous membrane, non-intact skin, or parenteral contact with blood and other potentially infectious materials that may result from the performance of an employee's duties."

Universal Precautions/Standard Precautions

All employees will utilize universal precautions/Standard precautions

Exposure Control Plan

Employees covered by the Bloodborne Pathogens standard receive an explanation of this ECP during their initial training session. It will also be reviewed in their annual online refresher training. All employees can review this plan at any time during their work shifts by contacting their department director or by accessing the policy website at http://www.utoledo.edu/policies/. If requested, we will provide an employee with a copy of the ECP free of charge and within 15 days of the request. The Infection Prevention and Control and Environmental Health and Radiation Safety departments are responsible for reviewing and updating the ECP annually or more frequently if necessary to reflect any new or modified tasks and procedures that affect occupational exposure and to reflect new or revised employee positions with occupational exposure.

Work Practices

Work practice controls will be used to prevent or minimize exposure to Bloodborne Pathogens. A sample of the specific work practice controls used is listed below:
- Hand washing sinks
- Face shields
- Hospital-approved sharps disposal containers

Personal Protective Equipment (PPE)

PPE is provided to our employees at no cost to them. Training in the use of the appropriate PPE for specific tasks or procedures is provided by Environmental Health and Radiation Safety, Family Medicine, Infection Prevention and Control Departments or the department managers.

Examples of the types of PPE available to employees are as follows: Disposable gloves, utility gloves, hypoallergenic gloves, sterile gloves, facemasks, face shields, eye shields, resuscitation devices, isolation gowns, fluid resistant gowns, lab coats, aprons, surgical caps, shoe covers, mouthpieces, and goggles.

All employees using PPE must observe the following precautions:
- Wash hands immediately or as soon as feasible after removing gloves or other PPE.
- Remove PPE after it becomes contaminated and before leaving the work area.
- Used PPE may be disposed of in regular garbage, unless contaminated to the point of saturation or removed after use in isolation rooms.
- Wear appropriate gloves when it is reasonably anticipated that there may be hand contact with blood or (OPIM), and when handling or touching contaminated items or surfaces; replace gloves if torn, punctured or contaminated, or if their ability to function as a barrier is compromised.
- Utility gloves may be decontaminated for reuse if their integrity is not compromised; discard utility gloves if they show signs of cracking, peeling, tearing, puncturing, or deterioration.
- Never wash or decontaminate disposable gloves for reuse.
- Wear appropriate face and eye protection when splashes, sprays, spatters, or droplets of blood or OPIM pose a hazard to the eye, nose, or mouth.
- Remove immediately or as soon as feasible, any garment contaminated by blood or OPIM, in such a way as to avoid contact with the outer surface. The procedure for handling used PPE is as follows: PPE contaminated with blood or OPIM is disposed of in red bag (regulated) waste receptacles. Isolation gowns are placed in blue containers for transport to the contract laundry facility. Disposable isolation gowns are disposed of in the red bag waste receptacles near the point of use. See The UT Infection Prevention and Control web page: http://www.utoledo.edu/depts/infectioncontrol/ for donning and doffing PPE instructions

**Hepatitis B Vaccination**

The Infection Prevention and Control Environmental Health and Radiation Safety and/or Family Medicine will provide training to employees regarding hepatitis B vaccinations, addressing safety, benefits, efficacy, methods of administration, and availability at the time of hire.

The hepatitis B vaccination series is available at no cost after initial employee training and within 10 days of initial assignment to all employees identified in the exposure determination section of this plan.

Vaccination is encouraged unless:

1) Documentation exists that the employee has previously received the series;
2) Antibody testing reveals that the employee is immune; or
3) Medical evaluation shows that vaccination is contraindicated. If an employee declines the vaccination, the employee must sign a declination form. Employees who decline may request and obtain the vaccination at a later date at no cost. Documentation of refusal of the vaccination is kept in Family Medicine Clinic files. Vaccination will be provided by Family Medicine Clinic.

Following the medical evaluation, a copy of the health care professional's written opinion will be obtained and provided to the employee within 15 days of the completion of the evaluation. It will be limited to whether the employee requires the hepatitis vaccine and whether the vaccine was administered.

**Post-Exposure Evaluation and Follow-Up**

Should an exposure incident occur, employees should report the incident to their supervisor, then report to the Emergency Department for assessment, screening and treatment if needed, immediately or as soon as feasible.
IX. BEHAVIOR RELATED AND MENTAL HEALTH EMERGENCIES

A. Violent/Dangerous Conduct

Due to the nature of the activities that take place at the Student Recreation Center, disturbances may occur when aggression overtakes rational judgment. An aggressive dispute can often be resolved with a few words from a person of authority. The following procedure is for disturbances which have escalated to be potentially dangerous to property or people.

1. Code VIOLET -- Violent Situation
2. Assess the situation; determine if a resolution can be found by you intervening. Never put yourself in harm’s way.
3. If the situation is dangerous, call 2600 immediately and inform them of the location and actions of the individuals creating the disturbance.
4. If you intervene, and they refuse to cooperate, call 2600.
5. If it is unsafe to intervene, stand at a safe distance away from the altercation, verify that 2600 has been called.
6. Do your best to ensure that other patrons do not join or walk into the altercation.
7. Keep mental notes of the offending patron(s) appearance. Height, weight, gender, race, clothing and hair color, etc.
8. Assist UTPD as needed upon their arrival
9. After the situation has been dissipated by UTPD, meet with an officer to obtain all needed documentation of the incident
10. Allow normal operations to resume

Resources: iPad, two-way radios
B. Suicidal Emergency

Below are basic procedures to follow when students, parents, faculty or staff are seriously concerned about a student’s health or safety (e.g., threat to self or others, unable to care for oneself, noticeable change in one’s appearance or behavior, verbal statements.) The purpose of these procedures is to provide assistance to concerned “individuals” in their efforts to support a student’s health, safety and academic success, and to promote the safety and the well-being of others.

1. Code BLUE 1 – Life threatening medical emergency

2. If there is concern about a student/faculty/staff/ or guest, call 2600 as soon as possible

3. Assess the situation; determine if the scene is safe. Attempt to establish rapport with the victim if possible.

4. To establish rapport, talk directly with the student, share your concern, offer your support and assistance, and inform the student that help is available.

5. Students/faculty/staff and guests may be referred to the counseling center on main campus located in Rocket Hall Room 1810. Services are free and confidential for students. They may be reached by phone at 419.530.2426

Resources: iPad, two-way radios, counseling center
C. Alcohol Related Emergencies

The following procedure is for alcohol related situations that could be harmful to the individual or bystanders that may be in the building.

Signs and symptoms of alcohol poisoning include: confusion, unconsciousness, vomiting, seizures, slow breathing (less than 8 breaths per minute), irregular or shallow breathing, low body temperature, and incontinence of urine/feces. This is a medical emergency.

1. Use your best judgment whenever approaching an individual who is under the influence. Do not put yourself in harm’s way.

2. Ask to see the individual’s ID. Try to get the individual’s name and Rocket number

3. If the person becomes confrontational, does not exit the facility when asked, is clearly under the influence, continues to be disruptive, or exhibits the signs of alcohol poisoning, call Code VIOLET

   - Do not leave an unconscious person alone and offer your help to a person who is vomiting.

4. Send staff to meet EMS/UTPD.

5. Obtain proper documentation

Resources: iPad, two-way radios
D. Anxiety/Panic Attacks

The following procedure is for anxiety and panic attack situations that could be harmful to the individual or bystanders that may be in the building.

Due to the nature of many Challenge Activities, many anxiety and panic attacks occur on the high ropes course. Challenge staff is trained to lower participants to the ground, be prepared to assist with care as needed.

1. **Code BLUE 1** – Non-life threatening medical emergency

2. If you suspect a person to be victim to a panic attack, calmly approach the victim.

3. Introduce yourself by your name and level of training; assure them that you are here to help and that they are safe here.

4. Keep the victim’s environment as low stimulus as possible by keeping bystanders and gawkers away from the scene. Escort them to a small, low-stimulus room or area if possible to do so. Maintain a calm demeanor.

5. If the victim’s anxiety level does not subside or if it begins to worsen, call 2600 and tell them you have a victim with the symptoms of an anxiety attack.

6. Stay with the victim until help arrives.

7. Obtain proper documentation.

Resources: iPad, two-way radios
E. Bomb Threats

A bomb threat shall be known as a **Code Black**.

Bomb threats are generally a “hoax” which is made in an effort to disrupt normal business operations. However, **NO** bomb threat should be treated as a hoax. The following procedure is to be used if you are the recipient of a bomb threat over the telephone.

**Threat given by phone:**

In the event a telephone call is received, and the caller announces there is or will be a bomb placed in any University of Toledo facility, the person receiving the call should:

1. Alert another staff member without caller knowing. This can be done by use of writing or gestures.
2. Staff Member not on phone, call **Code BLACK and call Campus Police at x2600**
3. Do not hang up, try to keep the caller on the line for as long as possible.
4. Remain calm and refer to the Bomb Threat Phone Checklist.
5. Attempt to gain as much information as possible while being kind and courteous to the caller.
6. Do not allow the caller to know that police are being contacted.
7. UTPD will decide if evacuation procedures are necessary. The REC Manager will initiate and manage such procedures. Refer to page 42 for evacuation procedures.

**Suspicious parcel or package:**

As with a package or letter bomb, a bomb which has been placed in or around the facility may not have the outward appearance of a bomb. A bomb placed by an individual is normally placed in an inconspicuous location and is generally followed by a telephone threat, though not in all cases. A bomb that has been placed can have any or all of the characteristics of a package or letter bomb. If you notice a suspicious object in an area that it does not belong, or has never been before, use the following procedure.

1. Call **Code BLACK** and Campus Police at x2600
2. **DO NOT**
   - Attempt to touch or move a suspicious object
   - Remove or permit anyone else to remove materials which may aid in the investigation of the crime
   - Smoke in the vicinity of a suspected bomb. Do not permit others to smoke.
   - Accept markings, names, etc., as being legitimate. Explosives can be put in any type container. Bombs are usually camouflaged in some way to prevent detecting them before the explosion.
   - Use the telephone and tie up lines unnecessarily.
3. **Exit the area cautiously and quickly.** Refer to page 42-44 for evacuation procedures

Resources: iPad, two-way radios
Bomb Threat Checklist
F. Active Shooter

These safety procedures and guidelines are not all inclusive, but if understood, and executed properly, can increase your chances of surviving an Active Shooter and/or Hostage incident.

An active shooter is a person, or persons, actively engaged in killing or attempting to kill people in a populated area. In most cases the active shooters have no pattern or method to the selection of their victims. An active shooter situation evolves at a very rapid pace and can be described as being dynamic and chaotic. It is the upmost importance that you protect yourself by putting as much distance as possible between you and the shooter(s), allowing yourself to be out of sight.

These types of situations demand an immediate response by law enforcement and persons in the proximity of the shooter. The following will outline the proper protocol to take in the event of an active shooter.

Note: The after effects of an Active Shooter and/or Hostage incident can be very shocking and traumatic. The university will arrange for counseling services after such an incident for all employees.

ALICE TRAINING

UT Recreation will follow the ALiCE system for reacting to active shooter situations

A. Alert
L: Lockdown
I: Inform
C: Counter
E: Evacuate

Inside the Student Rec Center:

1. Code ALPHA -- Active Shooter

2. Use your training to protect yourself and to lead as many people to safety as possible.

3. Call UTPD at 2600. Call even if you hear an unidentified noise that sounds like gun fire.

4. Evacuate the facility if possible.

5. If evacuation is not an option, barricade yourself and be aware of alternative exits.

6. Mentally prepare and arm yourself to attack the intruder if your barricade is breached.

7. Remember that humans flinch if something is thrown towards their face and eyes.

8. Get out and away to safety if you can. Fighting back is always the last option. Try to escape if possible.

9. Never hold onto a gun if you disarm it from the intruder. Place it in a bucket or trashcan and assign someone to stand by the covered weapon.

10. Use your first aid knowledge to help the injured if it is safe
Outside the Student Rec Center:

1. Code ALPHA -- Active Shooter

2. **Use your training to protect yourself and to lead as many people to safety as possible.**

3. Call UTPD at 2600

4. Lock all entry doors and arm the building if it is safe to do so. Extra dog keys are located in the drawer at control and in floor staff’s hip packs. The Rec Manager can ask other staff members to help lock the doors. Only do this if the shooter is at a reasonable distance from UT Recreation and being in view from the windows does not put staff members in danger.

5. Calmly announce over the PA system that an active shooter has been spotted on campus. Patrons are to report to the nearest UT Recreation staff person in view.

6. UT Recreation Staff will direct all patrons who come to them to the nearest safe room. Safe rooms are rooms that can be locked to prevent entry from an outsider or view from the outside.

7. Turn off the lights and remain silent. Stay alert and mentally prepare and arm yourself in case your hideout is breached. UT Recreation Staff are to do their best to keep other calm while hiding.

8. Remain in hiding until the all clear has been given by the Rec Manager over the radio, until the hiding place is no longer safe or until UTPD comes to let you out of the room.

**Resources:** iPad, two-way radios, zip ties, PA system

If the Active Shooter has entered your **IMMEDIATE AREA**

1. **Code ALPHA -- Active Shooter**

2. **Use your training to protect yourself and to lead as many people to safety as possible.**

3. Remain Calm & Stay Alert

4. DO NOT do anything to provoke the assailant(s) (i.e. sudden movements)

5. Follow the assailant(s) EXACT directions

6. If you or someone else is on the phone with the police DO NOT hang up. Leave the line open so the call can be traced and the dispatcher can hear what is going on

7. If the assailant(s) begin shooting and there is no place for cover or hiding, only then, should you try the following*:
   1. Negotiate with the assailant(s)
   2. Try to overpower the assailant(s)
3. Flee the immediate area
4. Make sure you have an escape route path in mind before you begin fleeing
5. DO NOT run in a straight line. A zigzagging target is much harder to hit.
6. Do not attempt to carry anything that would slow you down during the fleeing process.

*The decision to negotiate, overpower or flee will have to be made quickly based on which option gives you the best chance at survival. Only you will know when to make one of these decisions. All of these last resort decisions are very dangerous and may risk the lives of other persons nearby, but certainly no more dangerous than doing nothing.

Note: The after effects of an Active Shooter and/or Hostage incident can be very shocking and traumatic. The university will arrange for counseling services after such an incident for all employees.

Note: These safety procedures and guidelines are not all inclusive, but if understood, and executed properly, can increase your chances of surviving an Active Shooter and/or Hostage incident.
G. Safe Cover Positions

Persons in Primary Safe Cover Positions should always remember to:
- Try to position yourself and others behind any object that could disrupt bullet penetration (i.e. desks, file cabinets, concrete walls, etc.)
- Stay low. Keep your head down.

Note: Secondary Safe Cover Positions should be taken ONLY when:
- You are out in an open area and you determine trying to reach your Primary Safe Cover Position (or any locked/barricaded area) would be too dangerous.
- You reach your Primary Safe Cover Position but the door has already been locked/barricaded.
- You are in your Primary Safe Cover Position and you have determined the immediate area has become too hostile to remain in (i.e. the Active Shooter(s) have entered your immediate area and opened fire). Remember to keep your head down and to run in a zigzagging pattern (if being shot at) while proceeding to your Secondary Safe Cover Position.

Note: All Secondary Safe Cover Positions provide you with the nearest place of exit according to your current location in the facility. The nearest exit will not always be the safest for you to exit. If the assigned Secondary Safe Cover Position route, for your area, proves to be unsafe you will then be forced into making a quick personal decision about what exit you will attempt to reach. Remember to take into account the current position, and the direction of travel of the Active Shooter(s) before making any haste decisions. UT Recreation discourages exiting the facility if you are locked/barricaded in a safe area due to the unknowns that could possibly be waiting outside the facility, but if the above circumstances take place please do not hesitate to take action that will give you the best chance at survival.

1. STUDENT RECREATION CENTER

Student Recreation Center Main Level

- **Control**
  
  **Primary**: All persons should proceed to the Oak/Double Meeting room make sure doors are shut and locked/barricaded, proceed to the wall out of sight of the doors, and get down on the floor.

  **Secondary**: All persons should proceed to the nearest and safest exit in the immediate area.

- **Oak/Sycamore/Hickory Room**
  
  **Primary**: All persons should proceed to the Oak/Double Meeting room make sure doors are shut and locked/barricaded, proceed to the wall out of sight of the doors, and get down on the floor.

  **Secondary**: All persons should proceed to the nearest and safest exit in the immediate area.

- **Cardio Area**
  
  **Primary**: All persons should proceed to the Oak/Double Meeting room make sure doors are shut and locked/barricaded, proceed to the wall out of sight of the doors, and get down on the floor.

  **Secondary**: All persons should proceed to the nearest and safest exit in the immediate area.
- **Willow Room/Elm Room/Game Room**

  **Primary:** All persons should proceed to the Oak/Double Meeting room make sure doors are shut and locked/barricaded, proceed to the wall out of sight of the doors, and get down on the floor.

  **Secondary:** All persons should proceed to the nearest and safest exit in the immediate area.

- **Maple Room:**

  **Primary:** All persons should remain in the room make sure doors are shut and locked/barricaded, proceed to the wall out of sight of the doors, and get down on the floor.

  **Secondary:** All persons should proceed to the nearest and safest exit in the immediate area.

- **Professional Offices**

  **Primary:** All persons should proceed to the closest room that can be locked/ barricaded.

  **Secondary:** All persons should proceed to the nearest and safest exit in the immediate area.

- **Observation Deck:**

  **Primary:** All persons should proceed to the Oak/Double Meeting room make sure doors are shut and locked/barricaded, proceed to the wall out of sight of the doors, and get down on the floor.

  **Secondary:** All persons should proceed to the nearest and safest exit in the immediate area.

**Student Recreation Center Lower Level**

- **Lower Level East Fitness/Weight Room**

  **Primary:** *Weight Training Floor Supervisor* will shut and lock/barricade the both South Doors of the Weight Room, shut off the lights and advise all persons in the immediate area to proceed to the west wall of the Weight Room and get down on the floor.

  **Secondary:** *Weight Training Floor Supervisor* will advise all persons in the immediate area to proceed out the west emergency exit at the end of the hallway.

- **Cycle Studio**

  **Primary:** *Instructor* will shut and lock the doors of the Cycling room, and direct all persons in the immediate area to proceed to the West wall of the Cycling Room and get down on the floor.

  **Secondary:** *Instructor* will advise all persons in the immediate area to proceed to the west emergency exit at the end of the hallway.

- **Basketball Courts/Racquetball**
Primary: Weight Training Floor Supervisor will shut and lock/barricade the both South Doors of the Weight Room, shut off the lights and advise all persons in the immediate area to proceed to the west wall of the Weight Room and get down on the floor.

Secondary: All persons should proceed to the west emergency exit at the end of the hallway.

- Lower Level West Fitness/Volleyball/Badminton/Racquetball

Primary: Weight Training Floor Supervisor will shut and lock/barricade the both South Doors of the Weight Room, shut off the lights and advise all persons in the immediate area to proceed to the west wall of the Weight Room and get down on the floor.

Secondary: All persons should proceed to the east emergency exit at the end of the hallway.

- Fitness Studio/TRX Area

Primary: Instructor will shut and lock the doors of the Fitness Studio, and direct all persons in the immediate area to proceed to the East or West wall of the Fitness Studio and get down on the floor.

Secondary: Instructor will advise all persons in the immediate area to proceed to the door 6 area and exit the building.

- Wellness Center/Boulder Wall

Primary: All persons should proceed into the Wellness Center, make sure doors are shut and locked/barricaded, proceed to the west wall and get down on the floor.

Secondary: All persons should proceed to the east emergency exit at the end of the hallway

- Natatorium

Primary: All persons should proceed into pool storage, make sure doors are shut and locked/barricaded, proceed to the west wall and get down on the floor.

Secondary: All persons should proceed to the door 2 emergency exit.

Student Recreation Center Track Level

- Ropes Course

Primary: Facilitators should remove participants from course as quickly and as safely as possible and proceed into the challenge storage. Lock and barricade doors.

Secondary: All persons should proceed to the nearest and safest exit in the immediate area.

- Track

Primary: All persons should proceed to the exit door corners, and remain out of sight.

Secondary: All persons should proceed to the nearest and safest exit in the immediate area.
H. Armed Robbery

The following procedures are to follow when there is robbery taking place in the building.

1. Remain calm, follow the robber’s orders, do not make any sudden movements

2. Give the robber what they want

3. Hit the panic button underneath the CSA desk if possible to do so.

4. Do your best to note the robber’s description (height, weight, hair color, race, gender, clothing and which way they exited the building).

5. Call UT PD at 2600 as soon as the robber leaves

Resources: iPad, two-way radios, panic button at CSA desk
I. Hostage Situations

1. Remain Calm and stay alert

2. Be patient (time is on your side)

3. Do not do anything to provoke the hostage taker(s) (i.e. sudden movements)

4. Follow the hostage taker(s) exact directions

5. Do not speak unless you are spoken to and only when necessary

6. Avoid arguments with the hostage takers

7. Be observant. If you are released you may be able to help others with your observations

8. Be prepared to speak with police on the phone

Resources: iPad, two-way radios

Note: The after effects of an Active Shooter and/or Hostage incident can be very shocking and traumatic. The university will arrange for counseling services after such an incident for all employees.

Note: These safety procedures and guidelines are not all inclusive, but if understood, and executed properly, can increase your chances of surviving an Active Shooter and/or Hostage incident.
J. Terrorist Attack

The following procedure is to be used in the event that a terrorist attack occurs within the building and how to react to the situation.

1. Remain calm, stay alert and assess the situation. Assess the safety of yourself and others inside UT Recreation.

2. Evacuate or lockdown UT Recreation if needed

3. Observe and identify any victims. Give them the appropriate medical care if it is safe to do so.

4. Provide emotional support for staff or patrons if able to do so.

Resources: iPad, two-way radios
K. **“Call 2600” notification on card reader**

1. Remain Calm and do not allow the patron attempting entry into UT Recreation that you have been notified to contact UTPD

2. Hand the person’s Rocker Card back to them and grant them entry into the facility.

3. Notify your REC Center Manager

4. Call 2600 and inform them of the situation

5. Pay attention to which direction the person enters the facility

6. Continue to have a REC CENTER MANAGER or Floor worker monitor the person’s location without putting themselves in danger

7. Wait for the arrival of UTPD. Direct them to the person’s location upon their arrival.

Resources: iPad, two-way radios
L. **Sexual Assault**

If someone approaches you and wishes to report an incident of sexual assault ask them if they would like to speak with UTPD and call UTPD at 2600. You may refer them to the Counseling Center at or the Main Campus Medical Center

Suspect sexual assault or sexual assault in progress

1. Follow the procedure for disruptive behavior
2. Call UTPD at 2600
3. Assess the situation; determine if a resolution can be found by you intervening. *Never put yourself in harm’s way*
4. If it is unsafe to intervene, stand at a safe distance away from the assault, verify that 2600 has been called.
5. Do your best to ensure that other patrons do not join or walk into the assault
6. Keep mental notes of the offending patron(s) appearance. Height, weight, gender, race, clothing and hair color, etc. Make sure that you are aware of their location in the Rec Center
7. Assist UTPD as needed upon their arrival
8. After the situation has been dissipated by UTPD, meet with an officer to obtain all needed documentation of the incident
9. Allow normal operations to resume

Resources: iPad, two-way radios, Counseling Center
M. **Missing Child**

1. Look around the immediate area for the child. Ask other campers or patrons if they have seen the child.

2. If you are a counselor who is responsible for watching other children, do not leave the children you are watching alone without supervision to look for the lost child.

3. If the child cannot be found, call **CODE ADAM** to alert the building and inform them of the situation.

4. Give the Rec Center Manager a detailed description of the child

5. Call UTPD at 2600

6. The Rec Center Manager should then make an announcement stating that there is a missing child and give a description of the child.

7. The Rec Center Manager and other staff members should walk around the building and look for the child until the child is found. Note: Day Camp may have a photo of the child that may be used in the search.

8. Fill out an incident report after the child has been found.

Resources: iPad, two-way radios, camp photo of child
X. Weather Related Emergencies

A. Tornado/Severe Weather

**Tornado WATCH**: Conditions are favorable for a tornado to develop. The weather radio in the office area will notify the Guest Service Associate of the weather conditions. The REC Manager and CSA will keep in contact with the 2-way radio if conditions for a tornado exist by monitoring the weather radio, television, and internet.

1. CSA will:
   - Notify Rec Manager
   - All professional staff on duty

2. The REC Manager will then inform all employees that a watch has been issued and instruct them to review the procedures to be followed and be prepared to move all users to the lower level.

**Outdoor Intramural Facilities**

In the event of a severe weather watch, the UT Rec professional staff or REC Manager shall contact the Intramural Supervisor, to notify the staff of the current weather situation.

If the weather becomes potentially dangerous during the watch, professional staff or the Intramural Supervisor should make the decision to cancel the games and clear the Intramural Facilities immediately. Intramural Supervisors should inform the UT Rec staff of this decision.

**Tornado WARNING**: Tornado has been seen in the area.

When a **Tornado WARNING** occurs, Lucas County will sound the alarms for approximately 3 minutes will sound long continuous sirens.

1. Call Code Gray over the 2 way radio

2. Make a PA Announcement

   *Attention UT REC members and guests. The National Weather Service has issued a Tornado WARNING for Lucas County until ___am/pm. Our staff will immediately begin directing all users to designated shelter space which is located in the lower level of the building. Please calmly follow our directions to seek safe shelter.*

3. Direct and accompany patrons into the locker rooms

4. Building Manager needs to give a 2-way radio to the opposite sex so there is communication between staff in locker rooms

5. The Building Manager needs to lock all available doors, offices, storage rooms, and both locker room doors and accompany patrons into the locker room
6. Communicate with the Building Manager and Professional Staff to monitor the weather

7. Once the tornado warning is over allow patrons to go back into all areas of the facility.

8. Contact appropriate Professional Staff

9. Complete and file an incident report

Resources: 2-way radio, Emergency weather radio, Flashlights

B. Shelter Procedures

Note: In the event that a Tornado WARNING is issued, the following list describes where each area is to seek shelter. Generally, there is 3 minutes after a warning is issued before Tornado hits, so it is very important to be able to guide occupants to their specific shelter area as quickly and efficiently as possible.

All occupants of UT Recreation should proceed to the lower level. The Men's and Women's Locker room on the lower level are the designated Tornado Safe areas.

It may not be possible to move all occupants, into this area so it is necessary to be aware of specific things to AVOID if the shelter area cannot be reached. These include:

a. Wide expanse ceilings  
b. Areas containing windows, display cases, or other glass  
c. Large open areas  
d. Areas with a large amount of debris

*Note: If an area of proper protection cannot be reached, find the lowest point in the area and take cover under the most secure object you can find.

1. STUDENT RECREATION CENTER

Student Recreation Center Main Level

- Student Recreation Center Lobby/Oak/Sycamore/Hickory Room, Cardio Area and Observation Deck:

  Guest Service Associate should help direct all patrons in the Lobby, Oak/Sycamore/Hickory Room, Cardio area and observation deck down the stairs and to the locker rooms

- Willow Room/Elm Room/Game Room/Maple Room/Staff Lounge and Professional Offices:

  Guest Service Associate Staff should help direct all patrons in the Willow Room/Elm Room/Game Room/Maple Room/Staff Lounge and Professional Offices down the stairs and to the locker rooms
**Student Recreation Center Lower Level**

- **Student Recreation Center Lower Level Fitness/Weight Room**
  
  *Weight Training Floor Supervisor* should help direct all patrons in the lower level fitness area and weight room to the locker rooms.

- **Cycle Studio**

  *Rocket – Ex Instructor* should direct all patrons in their class to the locker rooms

- **Basketball Courts/Racquetball**

  *Rocket* should direct all patrons in the east racquetball courts and basketball courts to the locker rooms

- **Lower Level West Fitness/Volleyball/Badminton/Racquetball**

  *Climb Wall Supervisor/Issue Floor Supervisor* should direct all patrons in the lower west fitness area, volleyball, badminton court and west racquetball courts to the locker rooms.

- **Fitness Studio/TRX Area**

  *Instructor/Rocket* should direct all patrons in the fitness studio and TRX area to the locker rooms. Fitness instructors assume responsibility of their patrons if they are teaching a class. Rocket will take responsibility of this area if no classes are taking place.

- **Wellness Center/Boulder Wall**

  *Fitness Center Staff* and *Climb Wall* staff should direct patrons in the wellness center and boulder wall to the locker rooms

- **Natatorium/Outdoor Volleyball Courts**

  *Lifeguards* should direct patrons in the Natatorium and outdoor volleyball courts to the locker rooms

**Student Recreation Center Track Level**

- **Student Recreation Center Track Level**

  *Rec Manager* should direct patrons who are on track level downstairs to the locker rooms

- **Ropes Course**

  *Challenge Staff* should help patrons on the course to the track level and then escort them downstairs to the locker rooms
C. ALL CLEAR: The all clear siren is a series of short blasts. The UT Rec staff will also check with the UTPD to verify that the warning has expired.
XI. Facility Related Emergencies

A. Chemical Accident/Hazardous Material

Chemical releases can be classified into two distinct categories:

Incidental Releases
Incidental releases are small isolated releases of chemicals such as cleaning solvents that do not present or have the potential to cause injuries or require evacuation other than the immediate release area. Incidental releases can be cleaned up by personnel who have received proper training under the OSHA Hazard Communication Standard 29 CFR 1910.1200 and have the proper safety equipment. This type of incident would not require the response of the Local Fire Department, or outside agency.

Emergency Releases
Emergency releases are those incidents that involve large quantities of chemicals and/or have the potential to cause injuries. A release that requires the response of the Emergency Response Team and/or local fire department would be considered an emergency release. For the purpose of this Emergency Action Plan only Emergency Releases will be addressed.

Procedures for Emergency Chemical Releases

1. Clear the area of all guests, instruct staff and guests to evacuate the building and secure the area.
   - All persons should be at least 300 feet away from the suspected source of the leak
   - Prevent sources of ignition (cigarettes, electrical equipment, etc.)
   - If the situation appears to be a serious release, activate the fire alarm pull station and begin evacuation of the involved building.

2. Call UT Campus Police (2600) from another location
   a. Give them your name
   b. Inform them of the nature of problem
   c. Inform them of the exact location of the chemical release

3. Call Safety and Health (3600). After hours call Associate Director of Facility Operations.

4. Send one employee if available to meet the Emergency Response Team and lead them to the incident area.

5. Advise the Emergency Response Team on their arrival if all personnel are accounted for.
   - If an employee or visitor is missing, advice response team as to the last known location of the individual.

6. Provide assistance to the emergency response team as requested.
Resources: Eye wash and emergency shower station located in the pool receiving area in chlorine storage room, Chemical clean up gloves, Caution tape, Material Safety Data Sheet
B. Fire

The following will outline specific procedures that shall be addressed by the facilities staff to minimize the occurrence and impact from a fire emergency. There are no unusual fire hazards present at the facility. Special emphasis on housekeeping and storage procedures are practiced in the maintenance and custodial areas due to the fact that flammable and combustible materials are used and stored in these areas.

Any person suspecting or discovering a fire shall implement the actions described in the R.A.C.E. acronym:

RESCUE: any person in immediate danger from the fire if it does not endanger your own life.

ALARM: sound the alarm by calling extension x2600 (HSC, MC, SPC) to report the fire and activating the nearest pull station (these are red boxes located on the wall in main exit corridors). Please stay on the line until the building name and location has been repeated back to you by the telephone operator or police dispatcher.

CONFINE: confine the fire by closing all doors and windows. Turn off fans and air conditioners.

EXTINGUISH or EVACUATE: locate the nearest fire extinguisher and use it to extinguish the fire if it is small in size; if not, evacuate the area immediately. Remember to TURN LIGHTS ON . . . light aids in controlling the situation.

Follow the P.A.S.S. procedure for using a fire extinguisher:

PULL the pin after breaking the plastic seal on the extinguisher.

AIM the nozzle of the extinguisher at the base of the fire.

SQUEEZE the handles together.

SWEEP from side-to-side until the fire is extinguished.

NOTE: Under most circumstances, these procedures can be done together, if sufficient personnel are available and are clear in their duties.

A. Procedures when a fire is found

1. In the event that a fire is spotted in the facility, it is extremely important to know the evacuation procedure. It is also imperative that the following procedure be initiated. Immediately trigger the fire alarm by using one of the wall pull stations.

2. Call Code Red and give them the exact location of the fire. Guest Services will call 2600 and provide the location of the fire.

   When a Code Red is announced:

   - Do not use elevators: fire and smoke travel very quickly through elevator shafts.
   - Close doors and windows
   - Take direction from Security Officer on duty, Toledo Fire officials, or Environmental Health and Radiation Safety personnel only.
3. **ONLY IF YOU HAVE BEEN TRAINED** - Attempt to put out the fire using a fire extinguisher only if it is **a small fire using the P.A.S.S. technique** - Pull - Aim - Squeeze - Sweep. Confine fire by closing doors as you leave the area. Evacuate the facility using the evacuation procedure found below.

4. **Cancellation of Code Red**: Campus Security Officer on duty makes the final decision to cancel the Code Red in consultation with local fire authorities. Upon notification from the Campus Security Officer on duty, the REC Manager will announce "Code Red is now complete” three (3) times.

C. **Fire False Alarm**

**If there is **NO FIRE** and alarm stops – Make the following PA announcement**

“**Attention UT REC members and guests, this has been a false alarm. Please resume normal operation and activities.”**

Resources: - 2-way radios, Fire extinguishers, First aid kits
D. Evacuation Procedures

1. STUDENT RECREATION CENTER

   Student Recreation Center Main Level

   - Student Recreation Center Lobby/Oak
     
     Primary Exit: Evacuate facility through East or West main entrance doors.
     
     Secondary Exit: Evacuate using west emergency exit at the end of the west hallway.

   - Cardio/Sycamore/Hickory
     
     Primary Exit: Evacuate facility through East or West main entrance doors.
     
     Secondary Exit: Evacuate using west emergency exit at the end of the west hallway.

   - Willow Room/Elm Room/Game Room
     
     Primary Exit: Evacuate through lobby and use East or West main entrance doors.
     
     Secondary Exit: Evacuate using east emergency exit door at the end of the east hallway.

   - Maple Room/Staff Lounge
     
     Primary Exit: Evacuate through staff lounge, down stairs to Door 6 receiving area.
     
     Secondary Exit: Evacuate facility through East or West main entrance doors.

   - Professional Offices
     
     Primary Exit: Evacuate facility through East or West main entrance doors.
     
     Secondary Exit: Take the door that leads to the game room and proceed to the east hallway to the emergency exit.

   - Observation Deck:
     
     Primary Exit: Evacuate through lobby and use East or West main entrance doors.
     
     Secondary Exit: Evacuate through guard office to door 2 pool deliveries.

   Student Recreation Center Lower Level

   - Student Recreation Center Lower Level Fitness/Weight Room
     
     Primary Exit: Evacuate using emergency doors on the North wall of courts 1-3.
     
     Secondary Exit: Evacuate using west emergency exit doors at the end of the west hallway.
- **Cycle Studio**
  Primary Exit: Evacuate using emergency doors on the North wall of courts 1-3
  Secondary Exit: Evacuate using west emergency exit doors at the end of the west hallway

- **Basketball Courts/Racquetball**
  Primary Exit: Evacuate using emergency doors on the North wall of courts 1-5
  Secondary Exit: Evacuate using west/east emergency exit doors at the end of the west/east hallway

- **Auxiliary Gym**
  Primary Exit: Evacuate using emergency doors on the North wall of 4-5
  Secondary Exit: Evacuate using east emergency exit doors at the end of the east hallway

- **Lower Level West Fitness**
  Primary Exit: Evacuate using emergency doors on the North wall of 4-5
  Secondary Exit: Evacuate using east emergency exit doors at the end of the east hallway

- **Fitness Studio/TRX Area**
  Primary Exit: Evacuate through Door 6, receiving area.
  Secondary Exit: Evacuate through doors on North side of basketball courts.

- **Wellness Center/Boulder Wall**
  Primary Exit: Evacuate using emergency doors on the North wall of 4-5
  Secondary Exit: Evacuate using east emergency exit doors at the end of the east hallway

- **Natatorium/Volleyball Courts**
  Primary Exit: Evacuate through pool delivery out to door 2
  Secondary Exit: Evacuate through volleyball courts, the outside gate is located and requires key.

- **Student Recreation Center Track Level**
  Primary Exit: Emergency exit doors to the left and right back corners
  Secondary Exit: Exit to the left of center front of the track, above Maple Room
B. EVACUATION OF PERSONS WITH DISABILITIES

*Note: Persons with disabilities have special needs in the event of an emergency. It is very important to know how to address these problems and needs should a situation arise. The following procedures show how to address the needs of people with various disabilities.

A. **Persons in Wheelchairs**
   If in an area of immediate danger, assist them in moving to a safer area immediately.
   If they are on a floor with an exit, stay with them until the crowd thins and then direct and/or assist them to the proper exit. If on a floor where an immediate exit is not present, assist them in moving to the nearest elevator if applicable (elevators do not function if a fire alarm has been triggered) or the nearest stairwell. Ask the person “what is the best way for them to negotiate the stairs.” If you are unable to assist the person to the top of the stairs, inform them that you must get help. Find the nearest Emergency Response person and inform them of the position of the disabled person.

B. **Visually Impaired Persons**
   Explain to them the nature of the emergency and guide them to the proper exit. If a guide dog is present it will not interfere with your attempt to assist. If climbing or descending a stairwell is necessary do so after the crowd has thinned. Guide them to a safe area outside the building, orient them as to where they are, and provide any further assistance that is necessary.

C. **Hearing Impaired Persons**
   A person with impaired hearing may not be aware of an emergency, therefore an alternate warning technique may be needed, such as writing a note or speaking slowly to allow them to read lips or the use of gestures. As quickly as possible, inform them what is happening and direct them to the proper exit. Provide any additional assistance that may be necessary.
E.  **Power Failure**

*Note:* Power failures are a common occurrence and normally do not prove to be a hazardous situation. It is, however, important to be prepared should one occur. Darkness is often the result of a power failure and this can be a danger in a public facility. The following procedures are to be used during a power failure.

*Note:* Be aware that with a power outage, the fire alarm system does not work. When the power returns, inspect your area and report any damage which may have occurred (vandalism, electronics damage due to a surge, etc.).

1. If a power failure occurs during the day, vision should be satisfactory due to windows and doors providing natural light.
   a. Have staff check the pools immediately to make sure they are evacuated. Pools should be closed immediately. Emergency lighting, provided by the backup generator should come on.
   b. Staff should check the locker rooms to make sure all users are ok. Emergency lighting should be on in these rooms.
   c. Staff person on duty or SM will make the decisions of what may or may not continue.
   d. Call to report the situation to UT Campus Police (2600); they may instruct you to contact Plant Operations (1000)

2. **If at night, all activity stops!**
   a. Evacuate the building
   b. Call to report the situation to UT Campus Police (2600); they may instruct you to contact Plant Operations (1000)
   c. Contact Associate Director of Facility Operations. If Associate Director is not available contact the department Director. When information concerning the outage is obtained, call your original contact to inform them of the situation.
   d. Do not send student staff home.
   e. Staff coming in for the next set of shifts should be informed to call back just prior to the start of their shift starting to find out if they should report to work.
   f. Once the length of the power outage is determined, re-contact the staff person for instructions to close or not to close the facility.
   g. A UT REC facility is closed, contact all student staff scheduled for the next shifts and inform them not to report.

B. If it is necessary to seek shelter during a power failure due to severe weather, employees are to go to the designated safe area or a protected area.

Resources: 2-way radio, Flashlights
XIII. TERMINATING THE EMERGENCY

This section of the Emergency Action Plan will deal with those activities necessary to support employees and students during and following an emergency situation and those activities necessary to restore operations at The University of Toledo.

A. Recovery of Operations

The recovery of building operations and services will be based on the extent of damage suffered to the building. UT REC Manager will need to prioritize activities that can be accomplished with available staff and resources. Immediately following the emergency phase of the incident the REC Manager, Associate Director of Facility Operations and Director will begin the implementation of the university business recovery plan.

B. Documentation

Documentation of emergency activities is of critical importance following the emergency situation. All records and forms used during the incident to document activities must be retained for future reference.

C. Responsibility for Incident Documentation

1. Following an emergency situation, the UT REC Manager will have the responsibility of collecting all records and forms used during the incident. These will be used for several purposes such as incident investigation, insurance claims, and potential legal actions.

2. The UT REC Manager must prepare a report documenting activities that took place during the emergency situation.

3. The report of the UT REC Manager and all related documentation will be submitted to The University of Toledo Risk Management for review and necessary follow-up actions.

D. Responsibility for Damage Assessment

The UT Recreation Associate Director of Facilities & Director will have the main responsibility for conducting the damage assessment following an incident. Assistance will be obtained as needed from facility personnel and outside organizations, such as structural engineers and local government officials.

E. Post-Emergency Activities

Post-emergency activities are those that tend to the welfare of facility personnel and provide for a review of facility actions during the incident.

F. Injuries should be reported as follows:

Please report employee (including student employee) injuries or illnesses to the Workers Compensation office as soon as possible.

G. Incident Debriefing

UT Recreation will debrief all Code Blue 1 Calls and other EAP actions that are of sensitive or traumatizing character.

UT Recreation Leadership and staff may ask staff workers who responded or saw any EAP action to report to a debriefing meeting.
Debriefing meetings will be arranged as soon as possible, within one week of the EAP action being engaged.

In the debriefing meeting, a timeline of events will be established and written out. Constructive criticism will be given so that staff members will know what to improve on and so that Leadership members can establish if a change/improvement in EAP procedures needs to be made.

Debriefing meetings are not meant as a means to call out staff members, tear them down or shame them. Improvement of our EAP is the true goal.

Group support will be offered for traumatic experience. The counseling center may be called for their service and staff members will be asked to share their thoughts, fears and feelings about the incident.

Leadership will follow up with staff members on an individual basis to ensure that all staff members are in good mental health following the incident.

H. Critique
The critique of the incident is a review of what actions took place during the incident, both good and bad. A critique is not designed to place blame, but rather to allow for the flow of ideas and recommendations to improve the emergency action plan and the facility policies and procedures.
