What are your academic and career goals? Would you like to obtain a degree to get ahead in your job? How about a better job? Would you like to take classes in the comfort and convenience of your own home via the Internet? Are you interested in a traditional, living on-campus college experience?

Whatever your interests, The Applied Organizational Technology Department offers a variety of business and computer related associate degrees designed to provide students with marketable career skills.

Along with on-campus course sections, the Department offers a wide-range of classes via the Internet. The Business Management, Programming and Software Development, Accounting, Information Services and Support, Marketing, and Computer Software Technology associate degrees may be obtained by taking online courses.

The Department also offers a FastTrack Program in Business Management. This program allows for the completion of an associate degree in as few as 14 months.

For information about applying for admission to The University of Toledo and the Applied Organizational Technology Department associate degree programs, contact:
