

Free Online Tutoring for University of Toledo Students

Chat with a Tutor

Get help with your math questions from one of our live eTutors. eTutor and student share a live workspace in which they communicate through various tools including chat, voice and video, whiteboard, file sharing, and application sharing. To chat with a tutor, log into the site and check out the tutor schedule on your homepage. If there is a tutor available, you can go right into the chat room. You may have to wait if there is another student already in there and working. If there is not a tutor on presently, please check the tutoring weekly schedule.

Leave an eQuestion

You can post a question and one of our tutors will get back to you with an answer. eTutors will help you develop strategies to find answers or resolve problems on your own. Although tutors will not solve your math problems for you, they will provide you with the guidance necessary to solve the problem. Present your question clearly. Describe specifically what you do not understand, or where you think you are getting stuck. Do your part to help the eTutor help you!

Use our Resources

Students can review an extensive resource library that is full of tips, techniques, and links to information on other subject areas. New resources are continually being added.

How To Get Started

University of Toledo students have access to free online Math tutoring!

To get started:

- Go to www.etutoring.org
- Click on University of Toledo
- Your **User Name** is your **UTAD ACCOUNT** Login.

What Students are Saying...

"I can't stress enough how helpful this program is. My skills have improved... and so have my grades."

"I had no idea it would be so easy to use."

"I got almost immediate feedback."

"...I was very pleased with the service and with the person who answered my question."

...What will eTutoring have you saying?

eTutoring.org is a collaborative, online tutoring program sponsored by the Connecticut Distance Learning Consortium.
